CLIPS CLAWS OF COMMERCE BOARD

Commission Has no Power to Fix Freight Rates Says Court.

VITAL DECISION IS HANDED DOWN

Circuit Court of Appeals Upsets Important Part of the Rate Law.

Chicago, Aug. 24.—The permanent injunction sought by Western railways against the Inter-state commerce commission in the famous Missouri river rate case was granted here today by Judges Grosscup, Baker and Kohlsaat of the United States circuit court.

Judge Grosscup delivered the opinion of the court, Judge Kohlsaat concurring, while Judge Baker delivered a dissenting opinion.

The commission, thus defeated, in its first attempt to bring about what is alleged to be a new system or principle of rate making, will it is asserted carry the case to the supreme court of the United States. The parties who petitioned for the injunction were the Chicago, Rock Island and Pacific railroad company, the Chicago Burlington & Quincy railroad company, the Chicago Milwaukee & St. Paul railway company, the Chicago & Northwestern railway company and the receivers of the Chicago & Great Western railroad company et al, the Illinois Central, the Santa Fe, the Missouri Pacific, the Frisco railroad company and a number of important shipping interests intervened as co-complaintants.

The Question Raised.

"The question raised" said Judge Grosscup, in rendering his opinion, "in its larger aspect is not so much a question between the shippers and the railroad as between the commercial and manufacturing interests of Denver and of the territory east of the Mississippi river on the one side and the commercial and manufacturing interest of the Missouri river cities on the other."

Besides granting the permanent injunction in the Missouri river rate case the court also granted a preliminary injunction in the Denver rate case now pending, which is based on similar principles as the Missouri river case.

The railroads of the Missouri river rate case sought to have the interstate commerce commission enjoined permanently from enforcing an order of the commission made June 24, 1908, relating to joint rates from the Atlantic seaboard to the Missouri river cities. This order sought to create a system of through rates from the Atlantic seaboard to the Missouri river, that were a reduction from the sums of the local rates. This according to western roads, threw the burden upon them.

Rate Now in Force.

The joint rate now in force from the Atlantic seaboard to the Missouri river, on first class matter, is $1.47 per hundred pounds. The reduction proposed by the commission was $1.38. The through rate now in force on the same matter from the Atlantic seaboard to the Mississippi river is 87 cents which, plus the through rate from the Mississippi river to the Missouri river (sixty cents,) makes the same total, $1.47 per 100 pounds, as the joint rate from the Atlantic seaboard to the Missouri river. The commission's defeated purpose would have allowed the Atlantic seaboard to deliver goods to Missouri river cities on a joint rate nine cents less than could have been done if the shipments were sent first to the Mississippi river and then re-sent to the Missouri river.

Today's decision, if sustained, will, it is said, limit the power of the inter-

DEMAND FOR $10,000 MADE FOR DEATH OF MRS. KING

Big Suits Likely as Result of Auto Horror Over a Year Ago.

It is expected that within a short time several big damage suits will be filed against the Pennsylvania company as the result of the crossing horror near Columbia City in which an auto party of six Fort Wayne people lost their lives.

It is learned that representatives of the family of the late Charles Sherman King recently made a formal demand upon the Pennsylvania company for damages in the sum of $10,000 for the death of Mrs. King in that accident, and that it was promptly refused by the company, which holds that it was in no wise to blame for the distressing fatality which wiped out the lives of Mr. and Mrs. King, their two daughters, Miss Fayma Bradshaw and the chauffer, who was driving the ill-fated car when it was struck upon the road crossing east of Columbia City.

The demand for damages is thought to be but the preliminary step to the filing of actions in the courts in the effort to collect damages for the killing of each of the six victims of the disaster, and it is said the Pennsylvania company is prepared to resist them in rigorous fashion.

SOME WONDERFUL FLYING AT RHEIMS

Day That Started Badly is Turned Into Season of Triumphs.

PAULHAN DOES A FEW DIZZY FEATS

Makes His Aeroplane Perform Like a Bird at a Great Height.

Betheny Aviation Field, Rheims, Aug. 24.—With the wind over ten metres a second the thousands of persons who assembled on the Betheny field this morning for the third day of aviation week were keenly disappointed when told there would be no flights possible unless the wind abated.

Owing to the unfavorable weather conditions the visit of President Fallieres and the members of the cabinet to the aerodrome was postponed until later in the week.

Many interesting questions have been raised by this new sport of racing in the air. The fact that there have been no serious breakdowns or accidents, even when the machines were flying in a wind of 26 miles an hour and encountering difficult eddies of air is regarded as ample proof that the aeroplane already is the practical machine, whose further development is only a question of time and money.

Biplanes Are Superior.

Experts agree that the biplanes thus far, have demonstrated marked superiority, stability and possibilities of control in a wind as compared to the monoplane. No monoplanes have ventured out except in absolutely calm weather.

The brilliant performance last evening of Glenn H. Curtiss the American aviator who covered a lap of six and one-fifth miles in eight minutes 35 2-5 seconds, makes him a favorite for the big event of the meeting, the international cup, but there is little actual betting. The rule that requires contestants in this event, which will take place Saturday to start before 5 o'clock in the afternoon gives Curtiss much concern, as the calm of evening seldom sets in before half past five.

An unfortunate misunderstanding arose yesterday after Curtiss had completed his flight. The committee decided to penalize him one-twentieth of his time in the Prix de Vitesse for failure to qualify on Sunday.

Strong Protest Wins.

Curtiss and Courtland Field Ishop, the representatives of the aero club of America protested energetically. They claimed that it had been distinctly agreed that Curtiss could qualify any time. Furthermore, they pointed out that the rule cited penalized also those pilots who qualified, but failed to complete three rounds, and that this penalty had not been applied to Bleriot and the other French aviators. The committee thereupon reconsidered its decision and the ruling was withdrawn.

Commander Frederick L. Chapin and Major T. Bentley Mott, respectively the American naval and military attaches, as well as the other foreign attaches who have come down to Rheims are interested chiefly in the endurance and weight carrying tests as these are the main considerations from the military standpoint. They all seem to regard the Wright models and the Paulham biplane as superior in these respects.

Telegraph for President.

The velocity of the wind having decreased perceptibly in the early hours of the afternoon the committee telegraphed President Fallieres to come to Rheims and at 2:30 o'clock a signal was displayed here indicating that the president had left Paris.

Among the distinguished newcomers today were Major von Parseval, the German dirigible balloonist; Leon Bourgeois and M. Santos Dumont.

The committee has fined M. Lefebvre four dollars for recklessness during his maneuverings of Sunday, but it accompanied the penalty with a characteristically French appreciation. It congratulated the aeronaut on being fined. The friends of Count De Lambert today met certain criticisms of his prudence with the explanation that while once very wealthy the count was now in reduced circumstances and had to earn a living for his wife and children by acting as a professional pilot for the Wright company.

President Arrives.

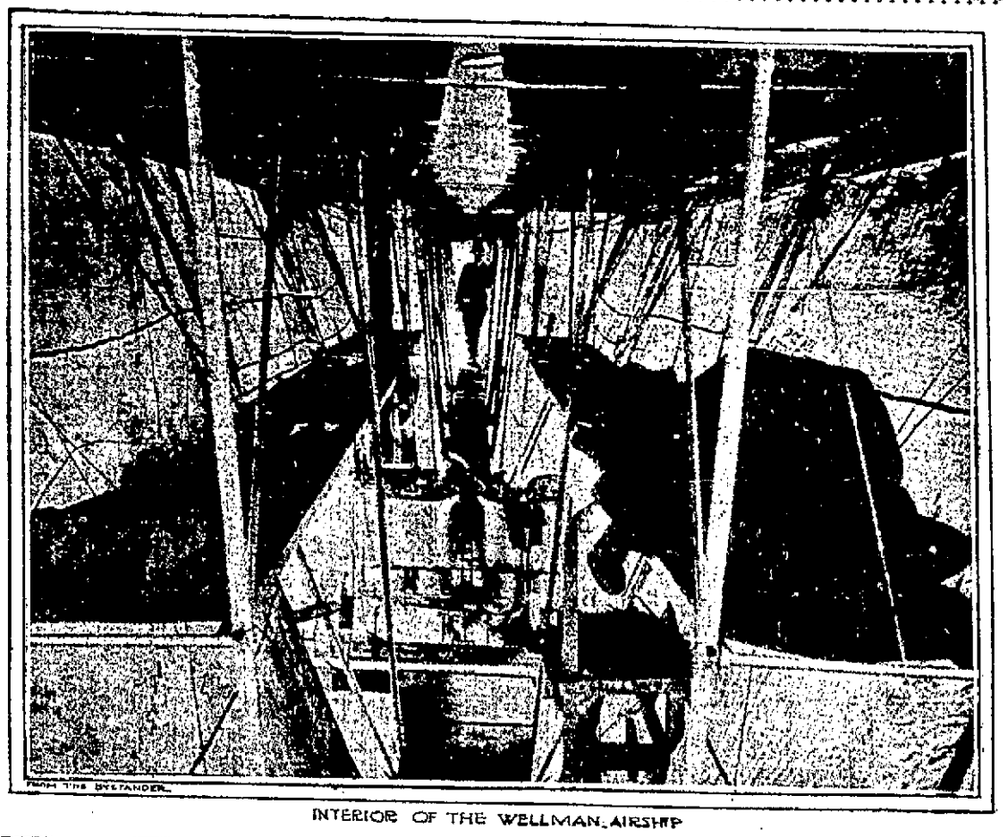
President Fallieres and the members of his party arrived here at 4 o'clock this afternoon. They were driven in automobiles through a double line of cuirassiers to the aerodrome, where the president was given a rousing welcome. During the president's tour of the field the wind subsided and half a dozen pilots brought out their machines. Young Bunau Varilla was the first to ascend and he treated the crowd to a thrilling sight. The breeze was still over 15 metres an hour and the biplane rocked like a ship in a heavy sea, but the daring aviator continued his flight. A wild cheer broke out when Bunau Varilla descended safely.

Paulhan's Dizzy Feats.

Paulhan flew past the tribune at the height of 100 feet. After he had rounded the turn and was retiring down the back stretch a railroad train came along the track under him, moving in the same direction. Paulhan gradually overtook the train and passed it. Returning to the tribune he ascended to the dizzy height of 350 feet and passed over the tiers of seats at this altitude. He waved his cap in response to the enthusiastic cheering of the spectators, who a moment later held their breath as Paulhan's machine was caught by a gust of wind and he keeled over to a dangerous angle. But the intrepid pilot righted his airship promptly and

[Continued on Page Two.]

POLE HUNTER AND THE AIRSHIP THAT FAILED HIM.



INTERIOR OF THE WELLMAN AIRSHIP

NEGRO WITH GUN SHOOTS A SCORE

Then Pine Bluff Citizens in Good Part Burned Him to Death.

ARKANSAS TOWN HAS SENSATION

Negro Had a Mania for Getting Game and This One Bagged Plenty.

Monroe, La., Aug. 24.—Half crazed either by whisky or cocaine Bill Way, a negro from Pine Bluff, Ark., dashed down the main street of Monroe today with a double-barreled shotgun, firing in every direction. Citizens returned the fire and the negro finally fell dead, after receiving a score of wounds. Twenty-one citizens were injured in the fight.

When the negro fell his body was dragged into the street and later taken to a public square and burned in the presence of several thousand people.

Those Who Fell.

Two officers who came up while the shooting was in progress and closed in on the negro were probably fatally wounded.

They are Patrolman Bigger, shot in the abdomen, and T. A. Grant, deputy sheriff, shot in the breast and neck.

Simon Marks, a merchant, also received an ugly wound in the breast, which may prove fatal.

George M. McCormick, a citizen, had his arm almost torn off by a shot from the negro's gun. He will recover.

It is believed the shells used by the negro contained small shot, for only those who were close to him were dangerously wounded.

Mayor Was Shot.

Among those who received slight wounds was Mayor Forsythe. The body of the negro was placed on a pile of rubbish and about ten gallons of coal oil poured over it. Major Forsythe, although wounded, went to where the gruesome blaze was about to be started and pleaded with the mob to refrain from burning the body. His entreaties were in vain. Business is at a standstill this afternoon.

The negro appeared on the street with his shot gun under his arm and his pockets filled with shells.

Kept Up His Fire.

When he started to fire, those citizens who were armed covered him and forced him into a doorway where he held his ground. He would fire, step back into the doorway, re-load his gun and fire again. Several citizens returned his fire every time that he appeared and he finally fell with a bullet through his heart.

Four of the 21 citizens who were injured by the negro are in a serious condition while the injuries of the other 17 are of minor nature.

Much excitement prevailed for some time and it was feared at one time that a mob might wreck vengeance on other members of the race, but the authorities took prompt precaution to avoid riots.

TWO KILLED ON THE TRACK.

Princeton, Ind., Aug. 24.—Two men supposed to be Webster Mitchell and Jas. G. Mitchell, brothers, of Eckerty, Ind., were struck by a Southern passenger train at Knight's crossing, a short distance west of here today and literally ground to pieces. It is believed the men were asleep on the track.

ASK KING TO END STRIKE.

Stockholm, Aug. 24.—A petition signed by women from all classes of society has been presented to the king, begging him to intercede to bring about arbitration of the dispute between the laborers and their employers that resulted in the strike now almost a month old.

ANNUAL ATTACK ON BIG CHICKEN DINNER

Elks to Assemble at Corner Rod and Gun Club Park Sunday.

The call for the annual picnic of Fort Wayne lodge of Elks has just been issued, and it is as follows:

"Something new—not the picnic, but the location. The annual chicken dinner will be given on Sunday, Aug. 29, 1909, at the Corner Rod and Gun club park. The crop of yellow legs is fine—that is what Herman Strodel says, and he ought to know, for he had a meeting in every hen-house in Bloomingdale before the primary. The Wabash Valley Traction company has agreed to furnish a sufficient number of wheelbarrows and gondolas to take you there.

"Clem Fox, chairman of the committee, has arranged for all kinds of sports. There will be a tub race, providing the river does not raise, between Dave Eckert, Bill Niezer, Tom Turflinger and A. P. Moste. Tom Lane will do the high dive stunt. Bill Wilson has challenged Dennis McFeely for an egg-carrying contest. Viberg, Alter and Griffin will compete for a prize given to the one that can climb a telegraph pole without hurting the auto. To tell the truth, we will start any game you want. Come on. Understand this picnic is for Elks, only. Visiting Elks invited."

The social session committee in charge of the event is composed of Clem Fox, Carl Rastetter, Fred Tresselt, Herman Strodel, George Piepenbrink, C. W. Ruchel, Aug. Brase, Harry Hilgeman, Val Ewig and Otto Ortlieb.

HOOSIER FEUD HAS A REGULATION FINISH

McFerran and Wilhite Families Near Attica Get to Pumping Lead.

Attica, Ind., Aug. 24.—Three men were wounded, one fatally, in the climax of a feud between the Wilhite and McFerren families in the village of Independence, six miles up the Wabash river from this city early today.

Joseph McFerren, a druggist, was shot by Lewis Wilhite in the McFerren store and will die. McFerren's son then shot Wilhite four times with a small revolver without seriously wounding him. Wilhite left the store and later, in displaying before a crowd, how he har shot McFerren, he discharged a bullet through William Reynold's neck.

The crowd enraged at this, chased Wilhite to the river and he escaped lynching by leaping into a boat and rowing away. He was caught in this city and taken to jail at Williamsport.

HURT IN AUTOMOBILE MISHAP.

Kansas City, Aug. 24.—Thomas H. Gilbert, ex-mayor of Kansas City, Kan., and his sister-in-law, Mrs. William Fenner, of Butte, Mont., were severely injured near this city last night when the motor car in which they were riding turned turtle and pinned them beneath it.

SHOOTS WIFE; KILLS SELF.

Dallas, Texas, Aug. 24.—W. D. Hutchenson, justice of the peace at Canton, sixty miles east of here, shot and fatally wounded his wife late last night and then killed himself. No reason has been assigned.

HARRIMAN ARRIVES; THIN BUT HEARTY

Magnate of Pacific Has Signs of Hard Life at Bad Gastein.

SENDS A MESSAGE BY THE WIRELESS

His Prophecy Just Before He Sailed Away Shown to be Verified.

New York, Aug. 24.—The steamer Kaiser Wilhelm II., with E. H. Harriman among her passengers, reached quarantine this afternoon and the magnate of "the Pacifics" was taken aboard a tug and brought up to Jersey City, from which place he will start at once for his beautiful home, Arden.

Mr. Harriman said on arriving at quarantine that he was feeling "pretty well" and getting better daily.

Mr. Harriman was rather pale and thin, but his voice sounded firm and strong. Beyond saying that he was feeling better Mr. Harriman declined to discuss either his health or business.

"I promised not to talk until I met the newspaper men going out to Arden," he said, "and I think I had better keep my word."

The tug El Toro, with Judge Lovett and other friends of Mr. Harriman, drew alongside the steamship and preparations were made for Mr. Harriman to board the tug.

He inquired about the weather ashore and when informed that it was hot said he was prepared for it. Mr. Harriman was at lunch when the steamer reached quarantine. The officers of the steamer said that Mr. Harriman had kept his room most of the way across the ocean as the weather was foggy, making the decks slippery and uncomfortable for a sick man. The officers also said Mr. Harriman was looking much better than when he went on board the steamer at Cherbourg.

Harriman Sends Message.

Harriman, who arrived in New York after several months sojourn in Europe, today sent the following wireless message to the Associated in response to a request:

"On board Steamship Kaiser Wilhelm II. via wireless to New York:

"My condition is good. I am going to Arden for the after cure and to regain ten pounds which I left at the Gastein cure. The condition of the American crops make the outlook bright and business conditions for the future safe.

"The views I expressed on June 1 before leaving the United States have undergone change."

Mr. Harriman's statement of June 1 which he now says is not applicable to conditions today, said in part:

"The business of the country is now on a very substantial basis. All that is needed now is a realization on the part of the farmers of the preparations for prosperity which have been so liberally made. There are now more acres in cultivation than ever before in the history of the country and if we have favorable weather and correspondingly large crops I look for a happy time. There will be a big burst of speculation and a rise in the prices of everything but these will quickly grade down from the top to whatever level the crops will make logical. The time is ripe for a warning as to the proper employment of idle money. We should be careful that this money be not devoted to the supposed development of fake projects but on the contrary used in the upbuilding of real undertakings resting upon solid foundations."

Anthony Wayne lodge No. 42, Modern Americans, will initiate a class of candidates Wednesday evening, with supreme officers of the fraternity in attendance.

THREE HUNDRED LIVES ARE LOST

Excursion Steamers Come Together and One of Them Goes Down.

CATASTROPHE IN SOUTH AMERICA

Number of Lives Lost is Estimated at from 150 to 300.

Buenos Ayres, Aug. 24.—A collision between two excursion steamers at the entrance of Montevideo harbor today resulted in the drowning of from 150 to 300 persons, mostly women and children.

The vessels were the Argentine steamer Colombia, carrying passengers from Beunos Ayres to the festival at Montevideo, and a German steamer, also engaged in the local passenger service. The latter went down so quickly that all attempts at rescue were practically hopeless.

It is said that the captain of the German steamer and a few of the passengers were saved. The captain had to be restrained from committing suicide.

KEEP FIRM GRIP ON CORPORATIONS SAYS HE

President American Bar Association Delivers a Strong Address.

Detroit, Mich., Aug. 24.—The thirty-second annual meeting of the American Bar association opened today with the reading of the president's address by Frederick W. Lehmann, of St. Louis, Mo. Among the delegates are many of America's leading lawyers and among the distinguished visitors are Secretary of War Dickinson, Georges Barbey, advocate of the court of appeals of Paris, France, and Sir Frederick Pollock, the English jurist. The visitors and delegates number about 350.

The report of the secretary showed that since 1903 the membership has grown from 1,800 to more than 3,650.

The excise tax upon corporations imposed at the special session of congress has a significance far beyond its revenue features, according to President Lehmann.

"It is of highest importance as the opening door to regulation which will broden with the years," said Mr. Lehmann. "There is in this no invasion of merely private affairs. A business conducted by corporate methods is not a private business. Corporate powers are not natural rights and the general welfare is the only justification for the grant of them. The right of public supervision inheres in them and is as broad as the interests that may be affected."

Mr. Lehmann declared that the trust is obsolete. "Nobody now is so ignorant or so defiant of law as to think of forming one," said he. "And it is very easy to do much better. Out of the ashes of the 'trust' has sprung the holding company, the 'trust' in an improved, perfected form. The holding company does and is designed to do exactly what was done by the 'trust,' and does it more efficiently. Is it under the ban of the law? Certainly not in all of the states."

Mr. Lehmann mentioned the prohibition in Montana against trusts. "Having slain the senile and debilitated 'trust' they made invulnerable through legitimacy its youthful and sturdy successor, the holding company," said he. The speaker said these two laws stand together, with the result that any industry or business of the state may be legally monopolized, provided it is well and thoroughly done, and no half-way measures are employed. This condition of the law exists in other states, he asserted.

The Full Bloom of It.

"But the holding company is not the full and final development of industrial combination," continued Mr. Lehmann. "This is reached in the single corporation with unlimited power of capitalization and direct ownership of the business and properties with which it deals. Here is eliminated even the disturbing element of minority interests in constituent companies. Yet states which prohibit 'trusts' and assume to prohibit monopolies, set no bounds to the capitalization of their corporations or fix the limit so high that under it many industries may be completely engrossed.

"The result of such legislation is simply to prevent combination where the appearance of competition is maintained and to sanction it where the combination is open, avowed and most effective. That certainly was not the popular purpose. The movement against 'trusts' was against the monopoly of industry or business, however accomplished, and the more thoroughly it was done, the greater was the objection to it. The assurance that the economies resulting from combination would cheapen production

[Continued on Page Two.]

URGES BEVERIDGE AS PRESIDENT

Dr. Phillips Says Such a Thing Would be Matter of No Surprise.

WORDS OF PRAISE FOR OFFICIALS

Dr. Winship Also Contributes to Interest of Day at the Institute.

"Albert J. Beveridge as the third president of the United States from Indiana would be a matter of no surprise to people generally," said Dr. G. M. Phillips this morning before the teachers attending the county institute in session at the high school this week. Dr. Phillips' morning talk was on "How Laws Are Made" and sprinkled among the words of information were many of praise for the state and government officials from this unit of the nation.

The character of both Dr. A. E. Winship's and Dr. Phillips' talks today were such as to keep alive the interest which was so well aroused in the sessions of Monday. It is very possible for meetings similar to those of the Institute being dreary and anything but interesting but County Superintendent Felger's choices in choosing speakers for Fort Wayne this year has been shown in many ways to be wise ones.

More History For Pupils.

Dr. Phillips' address in which he added to a boom that is being cherished for Senator Beveridge was the closing one of the morning session. He recommended a few inexpensive books, an elementary text book, in Civil government, such as is used in the public schools of the state; former President Harrison's "This Country of Ours;" an Indiana civil government text book, say Sander's; a good newspaper almanac, say the World Almanac and perhaps Johnston's American Politics and Bryce's American Commonwealth.

He explained the origin of the two United States senators from each state, told how they were elected by the legislatures of the state for six years. Beveridge's name, he said, would look well enrolled with that of William Henry Harrison and Benjamin Harrison as presidents of the United States from Indiana. Continuing, Dr. Phillips explained the duties and special privileges of the senate, their connection with the appointment of officials. The election of representatives was explained and interestingly the exact manner of apportioning the representatives as will be done after the census of 1910. The great power of the house was noted and explained. He told how laws were passed, citing the Payne tariff bill as an example. He explained congressmen-at-large, filibustering, etc.

He then compared briefly law-making in Indiana with law-making in the United States and urged the teaching of civil government with special attention to local government. History should be taught more fully in the upper grades of the primary schools and teachers should be urged to devote at least a period of a day to ways and manners of our government.

Geography Changes Without Notice.

Dr. Winship's morning talk had to deal with "The New Geography." Of all school branches the one most subject to change both in fact and in method is geography. It is of the ut-

[Continued on Page Two.]

FORT WAYNE YOUNG WOMAN IN VISIT TO ROYALTY

Miss Phoebe Ellison is Received by King of Cambodia.

Fort Wayne friends of Miss Phoebe Ellison, of this city, now engaged as a teacher in the Philippines, have received from her letters detailing an interesting vacation trip in the course of which Miss Ellison paid a visit to and was graciously received by Malay royalty—the king of Cambodia, in Indo-China.

Miss Ellison, with a party of Manila friends, made the trip across the China sea in the first foreign vessel which was ever permitted to ascend the Cambodia river and touch at Phomphen, the home of his majesty, the king of Cambodia. With two other American ladies, Miss Ellison was received at the royal palace by the Cambodian king and shown every courtesy during their visit, one manifestation of especial favor having been permission to enjoy a ride on the royal elephants.

His royal highness, the king of Cambodia, is an imposing figure of the Malay type, who received his education in France, and who includes among his other possessions two hundred wives.

THE WEATHER.

Chicago, Aug. 24.—Indana—Generally fair tonight and Wednesday.

Ohio and Indiana—Generally fair tonight and Wednesday.

Lower Michigan—Showers in north, fair in south portions tonight; Wednesday partly cloudy.

SWETLAND LEFT HIS SALOON IN CARE OF BOY

Lad Got Drunk and Made a Lot of Trouble—The City Court.

One Swetland, who runs a saloon at 226 East Columbia street, will have to get out of business all because he left his place in charge of Frank Harris, nineteen years old, and the lad got drunk and reised a row in the place and was locked up. This is the edict of Chief of Police Martin H. Ankenbruck, who says Swetland is unfit to conduct a saloon and can not do it in Fort Wayne.

Harris is a son of a former Columbia City saloonkeeper, who has been connected with the Ross house since he came here and who has been in court for running a blind tiger in connection with Nora Keever. The lad's case was continued until next week and he was ordered to keep away from saloons and to try to make an honest living.

Mother-in-Law Got Him.

Because Charles Voltz told his mother-in-law, Mrs. Mary Taylor, that he would knock her head off or that she ought to have it knocked off, she had him arrested for public intoxication and he was sent to jail until tomorrow morning under a bond of $25.

Yesterday his wife sued him for divorce and a restraining order was secured to keep him from molesting her. He had been drinking heavily and last night he was raising a disturbance next door to where his wife and children took refuge and the police got him.

The Other Cases.

The case of John Raber, who slashed himself with a razor at Lindenwood cemetery yesterday afternoon, was continued until tomorrow. He is charged with drunkenness.

Blanche Curry and George Young, charged with an assault upon Lloyd C. Pherson, will be heard tomorrow morning.

Victorio Salvatore, who collected money purporting to be for Frank Casso, whose place was recently burned, gave bond and will be heard tomorrow. He was not authorized to make any collection.

The case against Otto Wiegant, who licked a minor delinquent customer not long ago for failure to pay a saloon bill, and who has the additional charge of selling liquor to minors against him, had his case put off until Friday.

Eugene M. Fitch returned last evening from a trip to Traverse City and Leland, Mich., and reports everything in that country looking fine.

SAYS CHILDREN ARE NEGLECTED BY FATHER

A Mother Files Suit to Get Possession of Her Family.

Ada Dinius, who was formerly the wife of Louis Boiszenet, has filed a petition in the superior court asking that a decree of divorce which she obtained in December 1903 and which was afterward changed so as to give her former husband custody of their three children, be again modified so that she may have the little ones under her control.

She alleges that for six or seven months after he obtained the children they were under the care of his sister and brother and were well provided for but that he has recently taken their care upon himself and that one of them is about to go blind because of the neglect of the father.

She also says the father has no permanent home for the children but carries them about the country in a covered wagon and that he beats them so cruelly and so often that the humane officer has had to remonstrate with him. The former wife and mother of the children is married to William Dinius and he is willing to support them.

Got a Decree.

In the superior court Barbara R. Harrod was given a decree of divorce from John Harrod and her maiden name of Heckle was restored. She charged that he drank and gambled away his money and came home and abused her.

Peter Pan Waists for children half price during our great Half Price Sale.

TO MAKE WASHINGTON DRY.

Temperance Forces Are Busy in the National Capital.

Washington, Aug. 24.—More determined and stronger in numbers the advocates of further restrictions of the liquor business in Washington already are lining up for their next fight with congress.

The International order of Good Templars has allied itself with other organizations for a vigorous campaign. Rev. E. C. Dinwiddie, national superintendent of the order, is preparing a bill which is designed to restrict the sale of whisky in this city, and make conditions under which it is sold more stringent. The anti-saloon league's representatives here are co-operating with the Good Templars.

Men's Straw Hats half price during our great Half Price Sale.
PATTERSON-FLETCHER CO.

CALLED NEW TEACHER.

Prof. August Bonitzka for Trinity German Lutheran Schools.

The authorities of Trinity German Lutheran schools, in Bloomingdale, have secured the services of Prof. August Bonitzka, of Erie, Pa., who will have charge of the Trinity schools in the future. He succeeds Prof. Hugo Charle, who has taken a new position at Hannibal, Mo.

Attend the Patterson-Fletcher Co. great Half Price Sale.

REFRESHES THE SCALP.

Almost anyone may rid themselves of dandruff and scalp irritation and prevent baldness if they will use Rexall "93" Hair Tonic. We are so certain of this we guarantee to return every cent paid us for it if it doesn't prove satisfactory. Try it at our entire risk. Two sizes, 50c and $1.00. Meyer Bros. Co. Three drug stores. The Rexall Store.

MARRIAGE LICENSES.

Louis J. Kruse, 27, machinist, and Louise K. Stegemeier, milliner, 28.

CHOLERA REACHES BRUSSELS.

Brussels, Aug. 24.—The steamer Singapore arrived here today from Riga, Russia, with five members of her crew dead, presumably from cholera. The news has caused much apprehension. The Singapore has been placed in quarantine.

FREE TO THE RUPTURED

A New Home Cure That Anyone Can Use Without Operation, Pain, Danger or Loss of Time.

I have a new Method that cures rupture and I want you to use it at my expense. I am not trying to sell you a Truss, but offer you a cure that stays cured and ends all truss-wearing and danger of strangulation forever.

No matter whether you have a single, double or navel rupture or one following an operation, my Method is an absolute cure. No matter what your age nor how hard your work, my Method will certainly cure you. I especially want to send it free to those apparently hopeless cases where all forms of trusses, treatments and operations have failed. I want to show everyone at my own expense, that my Method will end all rupture suffering and truss-wearing for all time.

This means better health, increased physical ability and longer life. My free offer is too important to neglect a single day. Write now and begin your cure at once. Send no money. Simply mail coupon below. Do it to-day.

EXHIBITORS TAKE A LOT OF SPACE FOR FAIR

Machinery Men Stake Off Their Allotments and Get Down to Work.

Exhibitors who expect to put on machinery and implement displays at the Great Fort Wayne fair from September 14 to 18 have already picked out the space at the driving park several weeks in advance of the usual time and there is evidently a disposition among the manufacturers and agents to rush matters in order to get a better line of goods on the ground and to increase the volume.

Dr. W. F. Myers, the secretary, spent the morning at the Driving park with several manufacturers' agents who want to put in some big displays and he got them satisfactorily located. This is a difficult task every year and is being disposed of this time early in the action.

Although the race events that closed several weeks ago will insure an excellent card there will be a hustle for more racers right down to the week before the fair. The secretary will go to Decatur this week and to Warren, where he will itake a look over the harness horses and if there is anything worth while at either place he will have the owners in Fort Wayne.

P. T. Strieder is at Bellefontaine and Greenville this week and will return to Elwood and Crawfordsville during the fairs there. In addition to race horses both will get hold of any good live stock exhibits or attractions that interest them.

URGES BEVERIDGE AS PRESIDENT

[Continued from Page One.]

most importance therefore that teachers realize and that pupils be taught that in the political geography of the nation and in the industrial and commercial geography of states and provinces and cities, there is always liability to change without notice. Three features of the new geography which Mr. Winship employed were these: Always be sure that you have the latest information, always teach geography with the right perspective and have your pupils appreciate the personality of nation, states and cities. Mr. Winship illustrated personality by reference to Mississippi, that in the 1900 census had no city a quarter-part as large as Fort Wayne is and but one city with even 10,000 population. At the same time, Mississippi has largely made Memphis and Mobile. He also referred to Chicago as the gate-way of the west, the only city on the continent to which you can get a sleeping car from every point and the only city through which you can never get a sleeping car.

Not Educated at 14 Years.

Following up the thought of his morning lecture, Mr. Winship in the afternoon spoke on "Developing Personality." The two missions of the school is to prevent arrested development and the development of personality. The great danger to the individual and to the nation lies in the fact that so many citizens have arrested development. The directed education of nearly the entire population is received under 14 years of age. That education is of slight value unless the children get at least eight years of elementary training. The mental and moral worth of a man to himself and his worthiness to the nation are largely determined by the completeness of the development in these years. The personal and public dangers that result from permitting arrested development are incalculable. These years must be utilized for the development of personality.

Talked About Our Courts.

Dr. Phillips' afternoon subject was "Our Courts." He was especially informing on the United States courts, the district courts of each state, which usually meet in Indianapolis, but sometimes in the postoffice building in Fort Wayne. He explained the circuit court of the United States, then the circuit court of appeals, which meets in Chicago. Also the supreme court which meets only in Washington and which is easily the most important court in the world. He then told of our courts, our judges, our juries, and many other things which are going on beside us, the which many of us know so little about. He urged teachers to find time for those things in the school. Dr. Phillips praised the courtesy and intelligence of officials about Fort Wayne when he called for local facts.

At the Institute Wednesday.

The subjects for the talks on Wednesday continue in interest. The programs for both sessions follow:

Morning.

9:00—Devotional Exercises ..... Rev. H. B. Master
9:10—Music ..... Professor Miles
9:50—Great American Authors ..... Dr. Winship
10:45—Rest.
11:00—How the Wold is Governed.. ..... Dr. Phillips
11:45—Adjournment.

Afternoon.

1:30 Music ..... Professor Miles
2:00—Rest.
2:10—Making Manly Boys..... Dr. Winship
3:00—Rest.
3:10—The Teacher out of the School-room ..... Dr. Phillips
4:00—Adjournment.

BRANDS STORY AS A LIE.

Head of Haskell Institute Says Story of Indian Girls Is Untrue.

Lawrence, Kan., Aug. 24.—J. O. Millikin, disciplinarian at Haskell Institute here, today declared to the Associated Press that the story of the alleged trouble in Indiana girls attending this school is absolutely untrue. Mr. Millikin insisted there was no basis for any such story. He stated further that there was no thought of asking the federal authorities to make an investigation as there was nothing to investigate.

"FRATS" ARE CELEBRATING.

Pittsburg, Pa., Aug. 24.—Celebration of the fiftieth anniversary of the founding of the Delta Tau Delta fraternity started at the Fort Pitt hotel here today and will continue until Saturday evening. Over five hundred members of the organization from all parts of the United States are in attendance.

MRS. WILLIAM GLENN PASSES FROM EARTH

Was Wife of a Well Known Railroad Engineer—Other Deaths.

Mrs. Frances Glenn, wife of William Glenn, and for many years a resident of Fort Wayne, died at 7:55 o'clock Monday evening at the family home, 319 West DeWald street, at the age of 58 years, 11 months and 4 days. The bereaved husband is a veteran engineer on the Pennsylvania lines. Mrs. Glenn's illness was an extended one.

She was born in Massillon, O., September 19, 1850, and came with her husband to Fort Wayne thirty-five years ago. Mrs. Glenn was a member of the Third Presbyterian church, and was widely known and highly esteemed. She was twice married, and is survived by her husband and the following children: Thomas B. Wright, Mrs. Frank M. Fox, wife of the pastor of the Third Presbyterian church; Robert B. Glenn, Mrs. Byron Somers and Miss Bessie Glenn. The grandchildren are Josephine Wright and Thomas Page Wright, of this city; Ruth and Frances Wright, of Chicago, and Dorothy Somers, of this city. There are also three brothers and a sister—Robert and William Blackburn, of Decatur, James Blackburn, of Fort Wayne, and Mrs. James Gray, of Fort Wayne.

Funeral services Thursday afternoon at 2:30 o'clock from the residence; interment at Lindenwood.

DAMMEYER.

Theodore Dammeyer, the little son of Mr. and Mrs. Frederick Dammeyer, of Adams township, died at 2 o'clock Tuesday morning at the family home on the Decatur road five miles south of Fort Wayne, at the age of 4 years, 2 months and 3 days.

Surviving members of the family are the parents, two brothers and a sister—Edwin, William and Clara Dammeyer, and the grandmother Mrs. Caroline Frutechenicht. A sister of the little one died in March of this year at the age of 7 years.

Funeral services Friday afternoon at 1 o'clock from the residence and at 2 o'clock from Trinity Lutheran church n Adams township.

FUNERAL NOTICES.

Brindle—Funeral services for Rev. Henry Brindle will be held Wednesday morning at 10 o'clock from the residence, 1344 Huestis avenue under the auspices of Ben Hur Court No. 15.

Stacy.—Funeral services of Agnes Janet Stacy will be held Wednesday afternoon at 1:30 from the residence, 2721 Fox avenue, and at 2 o'clock from St. Patrick's Catholic church.

Danner.—Funeral services of Mrs. Eva Danner will be held Thursday afternoon at 2 o'clock from the residence, 2328 Gay street.

SOME WONDERFUL FLYING AT RHEIMS

[Continued from Page One.]

continued his flight. He made the round in twelve minutes and thirteen seconds.

Does Some Wonders.

Without appreciably coming down from this great altitude Paulham completed his second and third rounds of the course. As he approached the finish he descended suddenly in a great curve. Many of the spectators thought he was falling and cries of horror went up from the crowd, but when at a distance of twenty feet from the ground the biplane righted and crossed the line on an even keel, and at once again rose in the air. After a couple of spectacular circles in front of the tribune Paulham came to the ground in front of the tiers of seats amid thunders of applause. It was the most remarkable feat of aviation yet witnessed here.

At the end of the second round Paulham arose to the remarkable height of 500 feet. The spectators spell bound, forgot to cheer and many women turned their faces away as they saw the machine sway in the wind. Paulham continued at this height for some time.

MRS. NORMAN BECKLEY DEAD.

Elkhart, Ind., Aug. 24.—Rosette, widow of Norman Beckley, builder of the present Michigan Division of the Big Four railroad is dead at Sycamore, Ill., aged 83. She was active in Methodist and woman's relief corps circles. Three children survive.

BEAT HIS WIFE AND LEFT.

The police were called last night to the Shaw residence at 1519 High street by the report that the husband had beaten his wife badly. He had gone when the officers got there and did not return. Mrs. Shaw said she would file an affidavit against him.

TWO FIRE CALLS.

Two alarms to the fire department today summoned the laddies to 29 Prospect avenue where John Mathias' house was damaged to the extent of $25 and to the Gay street bridge. There was no loss attached to the latter blaze. The first alarm was at 2:42 a. m. and the second at 9:45 a. m.

BARRY AND BURNS ARE READY.

Los Angeles, Aug. 24.—Jim Barry and Jack Burns rested today for the gong which will start them on a battle tonight. Jack Johnson, the negro heavy weight champion wired Promoter Tom McCarty last night that he would take on the winner sometime next month.

VICTIMS OF THE RIOT.

Pittsburg, Pa., Aug. 24.—The bodies of three foreigners, supposed to have been killed in the strike riot Sunday night at McKees Rocks were found late this afternoon. Two were located in some woods at Preston. The third was found under railroad ties at the O'Donovan bridge. All had been shot and clubbed. It is believed these men crawled to hiding places after being injured and died. The death list now totals eleven.

CLIPS CLAWS OF COMMERCE BOARD

[Continued from Page One.]

state commerce commission to the settlement of cases of rate discrimination.

WILL TALK WITH TAFT.

Washington, Aug. 24.—Chairman Knapp and Commissioner Prouty of the inter-state commerce commission are in receipt of invitations from President Taft to attend a conference which is to be held beginning next Monday in New York city, to consider proposed changes in the inter-state commerce act. Attending the conference, besides the two commissioners, will be Attorney General Wickersham, Secretary Nagel, of the department of commerce and labor, Solicitor General Bowers, of the department of justice, and Representative Townsend, of Michigan.

Chairman Knapp left here today for Maine to spend part of his vacation.

The president and Attorney General Wickersham, it is said, desire to have enacted by congress legislation that will take from the inter-state commerce commission the investigation of criminal practices of inter-state carriers and place such investigations in the hands of officials of the department of justice and of the bureau of corporations.

Such an arrangement would make of the inter-state commerce commission practically a judicial body with powers limited to an examination into the reasonableness of freight rates. It is opposed by a majority of the members of the inter-state commerce commission because it is maintained that the inquiry into rates dovetails into the investigation of secret rates and unlawful practices to such an extent that it is impossible to differentiate between the inquiries.

Attorney General Wickersham says that it is a difficult problem and no determination of it can be reached until the matter has been threshed out thoroughly by those familiar with all the various points of view. It is for the purpose of reaching such a conclusion that the conference is to be held in New York.

LOGANSPORT MAN ENDS LIFE.

New York, Aug. 24.—A man who registered as "Homer Cassub," of Logansport, Ind., committed suicide at the Grand Union hotel today by poison. He was about thirty-two years of age. A note found in the room in which Mr. Cassub died said that his wife would know why he committed suicide. A sealed letter addressed to her was taken by the police.

LIBERAL MOVEMENT LOWERS.

Hay Values Not So Strong at Present Time.

Though it is not thought that any changes will be made in the present quotation of $9.25 for outside shipping points, the hay and grain dealers of northeastern Indiana at their meeting tomorrow evening will find that the figure is as high as it could possibly be made. For the past several months the hay prices have been good but the movement now is becoming more liberal. Hay and grain conditions in general will come up for discussion among the dealers.

REAL ESTATE TRANSFERS.

CITY.

Charles E. Pfeiffer to Charles F. Pfeiffer, lots 19, 20, 21, 22, 23 and 24, North Wayne addition.

Charles F. Pfeiffer to the Pfeiffer Improvement Co., lots 19, 20, 21, 22, 23 and 24, North Wayne addition.

Loran D. Ward to Rose L. Cook, for $1.00, south ½ of lot 595, Hanna's addition.

Rose L. Cook to Loran D. Ward, for $1.00, south ½ of lot 595, Hanna's addition.

John E. Garwood to James E. Breen, for $2,500, west 16 feet of lot 158 and east 18 feet of lot 159, Williams addition.

May D. Laukart to Byron T. and H. F. Thompson, lots 28 and 29, Riverview addition, for $2,000.

Anna Bauer to Byron S. Thompson, lots 144 and 146, Archer's addition, for $1,500.

Byron S. Thompson and Thomas E. West, north 35 feet of lot 144, Archer's addition, for $400.

Theodore Meyer to Wilhelmina Meyer, lot 95, Industrial Park addition, for $1.00.

COUNTRY.

Simon E. Walters to J. H. and Jossie Bellis, lot 22 in town of Baldwin, Jackson township, for $25.00.

The Peoples Trust and Savings Co., to John A. and Minnie Shirk, for $250, lots 40 and 41, Oldsdale addition.

Shanghai has its first motor houseboat; it is capable of developing fourteen horse power. For the ordinary houseboats which have been in use in China for hundreds of years six rowers are usually employed at 20 cents a day each.

Mme. Curie, who since the death of her husband has taken his place at the University of Paris, was recently elected a fellow of the Academy of Science at Cracow. In 1903 she received, together with her husband and the late Professor Becquerel, the Nobel prize for chemistry, "but," says the Paris correspondent of a German paper, "she has lost nothing of her enthusiasm. She is still working industriously, and those who know her best say that honors and decorations, fellowships and professorships are of less moment to her than the scientific problems to the solution of which she is devoting her life."

NOTICE TO SUBSCRIBERS

DO you get THE SENTINEL before 6 p. m.?

DO you get it regularly?

DO you find it in readable condition?

DO you receive courteous treatment at the hands of the carrier?

DOES he carry change when collecting?

DOES he consult your convenience in placing your paper where you can readily find it?

IF the carrier fails in any respect mentioned above, you are being imposed upon and THE SENTINEL should know about it at once.

IF YOUR PAPER FAILS TO ARRIVE ON TIME, OR NOT AT ALL, CALL 173, EITHER 'PHONE, AFTER 6 P. M. AND THE SENTINEL WILL BE SENT TO YOU BY SPECIAL RED LINE MESSENGER.

IF the carrier fails in any other respect call 173, either 'phone, at any time and the carrier will be called to account.

IN case of femoval always notify THE SENTINEL, which will assure prompt delivery of the paper at your new address.

BOARD WAITING FOR OPINION FROM ATTORNEY

Undecided About Material for the Paving of Calhoun Street.

The board of public works was waiting late this afternoon for an opinion from City Attorney Guy Colerick before deciding upon whether or not to change the material first selected for paving Calhoun street. No matter what the selection is there is likely to be a legal contest as the law is hard to construe and it is contended that the board has the right now to designate creosote block although brick was picked in the first place.

So far as the members of the board are concerned it would be highly satisfactory to them to submit the matter to a court as they are being importuned by friends of both materials and are in a quandary about what is the best thing to do. In case it should be found that the board has no right to make a change in absence of a proper petition it is likely the choice will fall to the brick people.

A search of the records made by City Attorney Guy Colerick and Henry C. Becker, clerk of the board of public works, indicated that Bishop Alerding can not be accounted a resident free holder. The property on which the Cathedral is located was deeded in fee simple to Bishop Joseph Benoit by Samuel Hanna in 1852 but at the death of the bishop it went to three trustees who were to hold it in trust for the successor for the benefit of the Catholic diocese. This has been the custom since and the property is considered by the city administration as held in trust.

It had been pretty well determined under these conditions that the brick interests were entitled to the work in view of the fact that that leaves only two resident property owners between Superior street and Lewis. Of these Mrs. Catherine Bothner asked for creosote block but it required a majority and Mrs. Seidel, the other owner, did not ask any change although a paper purporting to have been signed by her was filed by her son after the time for receiving bids.

On the south portion of the street the creosote people were thought after an investigation of the title of the resident property owners to be one signature shy of the required fifty-one per cent. The members of the board were at sea on the proposition because the business men who own the property and will have to pay the assessments favor brick and it was thought that under one construction of the law a change was possible at the hands of the board.

KEEP FIRM GRIP ON CORPORATIONS SAYS HE.

[Continued from Page One.]

and that this would go to the benefit of the consumer was never accepted. Our people have no faith in a benevolent despotism. They know that power tends to abuse. A corporation large enough to engross an industry cannot be trusted to a generous or even a just use of its mastery. An enlightened self-interest may find its real and lasting advantage in moderation, but self-interest does not mean self-enlightenment. Recent disclosures show that greed has not changed its nature and still grows by what it feeds upon. The complete absorption of a rival is not beyond its capacity, and the crumbs of a false balance are not beneath its covetousness.

States Cannot Deal With It.

"No state can deal with the problem singly and master it, and there has not been and can be no concert of action between the states.

"The great industrial corporations are in practical effect as much agencies of interstate commerce as are the great carrier companies. If the production of a commodity is under one control, commerce in that commodity is under the same control, but unfortunately production is held not to be within the commerce clause of the federal constitution, and so combinations to engross production may be effected, because the general government cannot prevent them, and the states in which they are located will not. But something can be done under the taxing power.

Federal Tax on Corporations.

Mr. Lehmann then referred to the significance of the federal tax on corporations.

Continuing, the speaker said: "Almost the first law enacted by the first congress of the United State at its first session was one levying duties upon imports, the purposes declared by the act being 'the support of government, the discharge of the debts of the United States, and the encouragement and protection of manufacturer,' and we have never been without such a law. What may thus be aided by the government may also be regulated, for their is no more stretch of federal authority in the exercise of control over our industries than in extending to them a constant fostering care.

"The investor in corborate securities needs the protection which comes from supervision and publicity."

"The investor in corrorate securi- enactments of congress and the various state, and said: "We find in our legislation some enactments that are crude, superfluous and misdirected, and some that may wear the mask of false pretense, but in the main it is well intended and measurably efficient of its purpose. The striving manifested is for a purer public life, a more perfect administration of justice, a kindlier dealing with the unfortunate and the erring, a more general education of the people, the protection of every man in the earnings of his labor, the betterment of material conditions, the conservation of health, the promotion of morals and more equal opportunities for all in the struggle of life. In an effort of this kind, we may expect some mistakes and can well afford to bear with them."

CHANGES TO OCCUR ON INTERURBAN SYSTEM

J. W. Tompkins, Former Fort Wayne Man, to be Superintendent.

Some official changes soon to occur in the interurban department of the Fort Wayne and Wabash Valley Traction company were announced this morning by Superintendent of Transportation F. I. Hardy that mean advancement for a number of the heads of departments. The changes are effective September 1.

J. W. Tompkins, now superintendent of the Lafayette city division, becomes superintendent of the interurban division, succeeding M. E. Emerson, who has resigned. Mr. Tompkins will have his headquarters at Huntington. Years ago he was superintendent of the Fort Wayne city lines.

S. J. Ryder, now superintendent at Logansport, goes to Lafayette as superintendent and I. A. Battenberg, now chief dispatcher on the Bluffton division, becomes superintendent at Logansport, taking the place made vacant by Mr. Ryder's advancement. Mr. Battenberg's successor as chief dispatcher has not yet been chosen.

Trolley Trip to Detroit.

Department heads of the Fort Wayne and Wabash Valley Traction company will leave at 7 o'clock tomorrow morning in a special car for Detroit, going by way of Lima and Toledo, to attend the convention of the Central Electric Railway association, returning Thursday.

The following officials of the Fort Wayne and Wabash Valley will make the trip: General Manager C. D. Emmons, Auditor H. E. Vordermark, Passenger and Freight Agent J. B. Crawford, Superintendent Charles G. Guild, Superintendent of Transportation Frank I. Hardy, Claim Agent Fred Fahlsing, Master Mechanic L. W. Jacques, Road Foreman J. J. Brennan, Assistant Engineer Harry V. Norford, Agent Z. T. Jones and Assistant Auditor F. S. Schmidt.

HE WAS TOO FLOSSY.

Louisville, Ky., Aug. 24.—Because Fred G. Miller, while assistant cashier of the Third National bank in this city, wore a large diamond and dressed expensively, the officials started an investigation. Today Miller was arrested charged with a falsification of his books to his personal gain of $5,000. Miller's salary was but $1,800 and he had a family of three.

Mothers

You who do not watch the eyes of your children are **guilty of negligence.**

Neglected eye-sight in children may lead to partial or total blindness in later life.

Children have not means to judge whether their sight is good or bad; neither have you.

Heed This Warning

Eye trouble in children **nine cases out of ten can be permanently cured** if taken in time.

Our experience has been the longest—the **Meigs method** is the safest.

No charge for examination. If glasses are necessary we make special arrangements for re-examinations, and the changes necessary to properly care for their eyes.

Latest News and Gossip of the Sporting World.

CLIFF CURTIS BOWS IN BIG LEAGUE COMPANY

Pitches First Game for Boston and Stops the Champions.

Boston, Mass., Aug. 24.—All that saved the last game of the year in Boston between the Chicago Cubs and the Doves from being a farce, after Chance's men had rolled up eleven runs in their first two innings, was the work of a pitching recruit from Milwaukee, Cliff Curtis. Curtis relieved Richie in the midst of the slaughter, and a couple of hits were scratched against him, but for the remaining seven innings of the game he held the champions to no score, and only one clean hit was made off him. The score:

		R.	H.	E.
Chicago	2 0 0 0 0 0 0 0 0	11	11	1
Boston	0 0 0 0 0 3 0 3 0	6	10	4

Batteries—Pfiester, Overall and Archer; Richie, Curtis and Graham.

Two-base hits—Tinker, Autrey, Becker. Hits—Off Richie, 7 in 1 1-3 innings; off Curtis, 4 in 7 2-3 innings; off Pfiester, 9 in 7 2-3 innings; off Overall, 1 in 1 1-3 innings. Sacrifice hits—Sheckard, Tinker. Stolen bases—Evers, Howard (2), Steinfeldt, Hofman. Double plays—Pfiester to Tinker to Howard; Sweeney to Siner to Autrey. Bases on balls—Off Pfiester, 3; off Richie, 2; off Curtis, 4. Hit by pitcher—By Pfiester, Autrey. Struck out—By Overall, 1; by Curtis, 5. Time of game—1:15. Umpire—O'Day.

PITTSBURG, 2; PHILADELPHIA, 0.

Philadelphia, Pa., Aug. 24.—In a pitchers' battle between Leifield and Moore Pittsburg defeated Philadelphia 2 to 0. Wagner scored the first run after getting a base on balls on his steal of second base and Wilson's single, while the other was a home drive by Leach inside the grounds. The score:

		R.	H.	E.
Philadelphia	0 0 0 0 0 0 0 0 0	0	5	0
Pittsburg	0 0 0 1 1 0 0 0 0	2	7	2

Batteries—Moore and Dooin; Leifield and Gibson.

Home run—Leach. Stolen bases—Wagner, Grant. Double play—Ward to Bransfield. First base on balls—Off Moore, 2; off Leifield, 2. Struck out—By Moore, 5; by Leifield, 2. Time of game—1:32. Umpires—Johnstone and Emslie.

NEW YORK, 12; CINCINNATI, 9.

New York, Aug. 23.—Cincinnati played its last game here this season and was beaten 12 to 9. The score:

		R.	H.	E.
Cincinnati	2 0 1 0 3 0 0 1 2	9	12	5
New York	0 0 0 7 0 1 3 1 *	12	13	2

Batteries—Gaspar, Campbell, Dubuc and Roth; Crandall, Marquard, Ames and Myers.

Two-base hits—Paskert, Seymour, Bridwell, Roth. Three-base hits—Hoblitzel (2). Home run—Hoblitzel. Sacrifice hits—Egan, McCormick, Devlin. Stolen bases—Paskert, Egan, Doyle (2), Seymour, O'Hara (2), Bridwell, Merkle, Devore, Lobert. Double plays—Downey to Hoblitzel; Paskert to Lobert. Struck out—By Gaspar, 1; by Campbell, 1; by Dubuc, 1; by Marquard, 3; by Ames, 6; by Crandall, 1. Bases on balls—Off Campbell, 2; off Crandall, 1; off Marquard, 2; off Dubuc, 1; off Ames, 1. Hit by pitched ball—By Dubuc, O'Hara. Wild pitch—Ames. Passed ball—Roth. Hits—Off Crandall, 1 in 1 inning; off Marquard, 4 in 3 innings; off Aames, 7 in 5 innings; off Gaspar, 8 in 8 1-3 innings; off Campbell, 3 in 2-3 inning; off Dubuc, 2 in 4 innings. Time of game—2:38. Umpires—Rigler and Kane.

BROOKLYN, 7-1; ST. LOUIS, 0-9.

Brooklyn, N. Y., Aug. 24.—Brooklyn and St. Louis divided a double-header. Score of first game:

		R.	H.	E.
St. Louis	0 0 0 0 0 0 0 0 0	0	5	1
Brooklyn	3 0 1 0 0 3 0 *	7	9	1

Batteries — Raleigh and Melter and Phelps; Bell and Marshall.

Two-base hit—Alperman. Three-base hit—Alperman. Hits—Off Raleigh, 5 in 3 innings. Sacrifice fly—Hummell. Stolen bases—Konetchy, Burch (2), Clement, Lennox (2), McElveen. Double play—Lennox to Alperman to Hummell. First base on balls—Off Bell, 3; off Raleigh, 2; off Melter, 2. Struck out—By Bell, 2; by Raleigh, 2. Wild pitch—Raleigh. Time of game—1:31. Umpire—Klem.

Score second game:

		R.	H.	E.
St. Louis	4 0 0 0 3 1 0 1 0	9	15	1
Brooklyn	1 0 0 0 0 0 0 0 0	1	9	1

Batteries—Beebe and Bliss; Pastorius and Bergen.

Two-base hits—Barbeau, Evans. Three-base hit—Evans. Sacrifice fly—Delehanty. Sacrifice hits—Barbeau, Konetchy, Burch, Bergen. Double play—Bergen and Alperman. Bases on balls—Off Pastorius, 6; off Beebe, 5. Passed ball—Bergen. Wild pitch—Beebe. Time of game—1:47. Umpire—Klem.

FAMOUS COLT BATTERY OF THE WHITE SOX.

Owens and Burns are the colt battery of the Chicago White Sox. Burns is a big left hander with a world of speed and a good break to his ball that keeps opposing batsmen guessing. Owens is a hard working receiver and gives promise of developing into a star.

MILLERS TAKE GAME AND STEP INTO FIRST

Milwaukee Has Few Points Best of the Race—The Scores.

Kansas City, Mo., Aug. 24.—Milwaukee defeated Kansas City, 7 to 3, and went into the American association lead by reason of St. Paul's victory over Minneapolis. The difference in standing is only a small fraction of a point. The score:

		R.	H.	E.
Kansas City	1 0 0 0 0 1 0 0 1	3	9	3
Milwaukee	0 0 0 0 1 2 0 0 4	7	9	3

Batteries—Flaherty and Sullivan; McGlynn and Warner.

Two-base hits — Sullivan (2), Shay, Shannon, Carlisle, McCann. Home run—Randall. Sacrifice hits—Hetling (2), Shannon, Strunk, Clark. Stolen bases—Shay, Hallman, Flaherty, Love, Robinson. Double plays—Sullivan to Love; Warner (unassisted). Struck out—By Flaherty, 1; by McGlynn, 8. Passed ball—Sullivan. Bases on balls—Off Flaherty, 5; off McGlynn, 4. Time of game—2:00. Umpire—King.

ST. PAUL, 1; MINNEAPOLIS, 0.

St. Paul, Minn., Aug. 24.—Chech had Minneapolis at his mercy and Young was easy for St. Paul. The score:

		R.	H.	E.
St. Paul	0 0 0 0 0 1 0 0 *	1	9	0
Minneapolis	0 0 0 0 0 0 0 0 0	0	2	1

Batteries—Chech and Spencer; Young and Block.

Two-base hits—Armbruster, J. Collins. Double plays—Downs to Oyler to Gill; Clymer to Block. Bases on balls—Off Young, 2. Struck out—By Chech, 3; by Young, 8. Sacrifice hit—Carlisch. Time of game—1:45. Umpires—Guthrie and Owen.

COLUMBUS, 5; TOLEDO, 6.

Toledo, O., Aug. 24.—Toledo tied the score twice, overcoming a lead of three runs in the ninth and winning out in the tenth. The score:

		R.	H.	E.
Toledo	0 0 0 0 0 1 0 1 3 1	6	12	3
Columbus	1 0 0 0 0 0 0 1 3 0	5	13	1

Batteries — Robinson, McSurdy and Land; Linke, Pickett and Fohl.

Two-base hits — Hickman. Kruger. Three-base hit—Hinchman. Double plays—Lynch to Hinchman to Freeman; Linke to Friel. Hit by pitcher—By Linke, Lynch (2). Bases on balls—Off Robinson, 3; off Linke, 2. Sacrifice hits—Freeman, Hickman, Robinson. Congalton, Clarke, O'Rourke. Stolen bases—Freeman, Congalton, Clarke, O'Rourke. Struck out—By Linke, 3; by Robinson, 4. Hits—Off Linke, 10 in 8 innings; off Robinson, 13 in 9 innings. Passed ball—Fohl. Wild pitch—Robinson. Time of game—2:25. Umpire—Hayes.

INDIANAPOLIS, 9; LOUISVILLE, 2.

Louisville, Ky., Aug. 24.—Indianapolis won the fourth game of the series from Louisville with ease, 9 to 2. The score:

		R.	H.	E.
Louisville	0 0 2 0 0 0 0 0 0	2	7	2
Indianapolis	1 0 0 6 0 0 0 0 2	9	12	1

Batteries — Packard, Clayton, Puttmann and Peltz; Lindaman and Howley.

Stolen bases—Salm, Chadbourne (3), Spencer. Two-base hits—Carr, Chadbourne. Three-base hit—Burke. Double plays—Hopke to Williams to Carr (2). Struck out—By Lindaman, 5; by Puttmann, 3. Bases on balls—Off Packard, 1; off Lindaman, 2; off Puttmann, 1. Hit by pitcher—Burke, Salm. Hits—Off Packard, 6 in 3 2-3 innings; off Clayton, 2 in 3 1-3 innings. Time of game—1:50. Umpires—Sullivan and Conahan.

ECZEMA IS NOW CURABLE.

Zemo, a clean liquid for external use, stops itching instantly and permanently cures eczema and every form of itching skin or scalp disease. Meyer Bros. Co., the druggists, say they have been shown positive proof of many remarkable cures made by Zemo and that they endorse and recommend it and believe Zemo will do all that is claimed for it. BOSTON CLEANS THE BROWNS IN THE SERIES

Red Sox Win from St. Louis —Detroit Beats Washington Team.

St. Louis, Mo., Aug. 24.—Boston made a clean sweep of the series by taking yesterday's game, 3 to 2. Bailey did well until the seventh, when Speaker, McConnell, Carrigan and Donohue bunched hits. Cicotte started out poorly, but settled down and St. Louis failed to score after the second inning. The score:

		R.	H.	E.
St. Louis	1 1 0 0 0 0 0 0 0	2	5	1
Boston	0 0 0 0 0 0 3 0 0	3	8	4

Batteries—Bailey and Stephens; Cicotte and Donohue.

Two-base hits—Stephens. Three-base hits—Williams (2), Speaker, Donohue. Sacrifice hit—Griggs. Stolen bases—Hoffman, Spealter, Wagner. Double play—Wagner to Carrigan. Bases on balls—Off Bailey, 2; off Cicotte, 1. Struck out—By Cicotte, 8; by Bailey, 3. Passed ball—Donohue. Wild pitch—Cicotte. Time of game—1:40. Umpires—Perrine and Sheridan.

DETROIT, 11; WASHINGTON, 6.

Detroit, Mich., Aug. 24.—Detroit made it four straight with Washington, 11 to 6. The score:

		R.	H.	E.
Washington	1 0 0 0 2 0 0 3 0	6	12	5
Detroit	0 0 0 2 2 0 4 3 *	11	9	0

Batteries—Willett and Stanage; Gray, Groome, Smith and Street.

Two-base hits—Crawford (2). Three-base hits—Bush, Unglaub. Home runs—Schaefer, Unglaub. Hits—Off Gray, 6 in 4 1-3 innings; off Groome, 2 in 2 2-3 innings; off Smith, 1 in 1 inning. Sacrifice hits—Bush, Cobb, Delehanty. Stolen bases—Crawford, Moriarity, Browne. Double plays—Bush to T. Jones; Cobb to T. Jones; Street to Conroy. Bases on balls—Off Willett, 2; off Gray, 3; off Groome, 3; off Smith, 2. Hit by pitcher—By Willett, Browne; by Gray, Delehanty. Struck out—By Willett, 2; by Gray, 2; by Groome, 4; by Smith, 1. Wild pitches—Groome, 1; Smith, 2. Time of game—1:55. Umpires—Kerin and Connolly.

PHILADELPHIA, 12; CLEVELAND, 6.

Cleveland, O., Aug. 24.—Philadelphia made it four straight, beating Cleveland 12 to 6. Manager McGuire took charge and appointed First Baseman Stovall captain. The score:

		R.	H.	E.
Cleveland	1 0 0 0 2 3 0 0 0	6	8	2
Philadelphia	4 0 0 0 3 0 2 2 1	12	13	4

Batteries—Rhoades, Sitton and Berger and Clarke; Morgan and Livingston.

Two-base hits — Oldring (2), Clarke. Three-base hits—Collins, Baker. Sacrifice hits—Murphy, Barry, Davis. Stolen bases—Lord, Baker, Hartzel, Collins. Hits—Off Rhoades, 3 in 1 inning; off Sitton, 3 in 4 innings; off Berger, 7 in 4 innings. Bases on balls—Off Rhoades, 1; off Sitton, 4; off Berger, 1; off Morgan, 4. Hit by pitched ball—By Sitton, 2; by Berger, 4; by Morgan, 3. Passed ball—Clarke. Wild pitches—Sitton, 1; Berger, 1. Time of game—2:08. Umpire—Evans.

CHICAGO, 5; NEW YORK, 1.

Chicago, Ill., Aug. 24.—Chicago defeated New York 5 to 1. The score:

		R.	H.	E.
New York	0 0 0 0 0 0 0 1 0	1	6	2
Chicago	3 0 0 0 0 0 0 2 *	5	7	1

Batteries—Chesbro, Manning and Sweeney; Smith and Owens.

Stolen bases—Parent, Dougherty, Engle. Two-base hit—Dougherty. Sacrifice hit—Hahn. Double plays—Tannehill to Altizer; Parent to Atz to Altizer. Innings pitched—By Chesbro, 7; by Manning, 2. Hits made—Off Chesbro, 4; off Manning, 3. Struck out—By Smith, 5 (Laporte 2, Chesbro, Engle, Cree); by Chesbro, 2 (Dougherty, Tannehill). Bases on balls—Off Chesbro, 1; off Manning, 2. Time of game—1:36. Umpires—Egan and O'Loughlin.

No matter how long you have suffered, Foley's Kidney Remedy will help you. Mrs. S. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did I could not stand straight. I took Foley's Kidney Remedy. One dollar bottle and part of the second cured me entirely." It will cure you. Dreier Bros

POTTERS LOSE HARD BATTLE TO THE VETERANS

Could Not Hit Yingling and Failed to Land the Victory.

Dayton, O., Aug. 24.—Earl Yingling was a stumbling block for the Potters and only three scattered hits were made off him. Zanesville got away with a lead but was overhauled in the fifth and beaten in the sixth and seventh. The score:

		R.	H.	E.
Zanesville	1 0 0 0 0 0 0 0 0	1	3	3
Dayton	0 0 0 0 1 1 1 0 *	3	7	1

Batteries—Sample and Hargrove; Yingling and Pearce.

Sacrifice hits—Humphries, Pearce, Carter. Double play—Hartman to Myers. Stolen bases—Pinkney, Grogan, Nee, Pearce, Carter. Struck out—By Yingling, 7; by Sample, 1. Bases on balls—Off Yingling, 2. Time of game—1:40. Umpire—Killen.

GRAND RAPIDS, 2; WHEELING, 1.

Grand Rapids, Mich., Aug. 24.—Joe Connolly took a long change in the ninth inning of the game when he raced from second to third on a short fly to right. Magle made a wild throw and let over the winning run. The score:

		R.	H.	E.
Grand Rapids	0 0 0 1 0 0 0 0 1	2	5	0
Wheeling	0 0 0 1 0 0 0 0 0	1	7	1

Batteries—Hagerman and Bailey; Nolly and Krebs.

Stolen bases—McKechnie (2), Tarleton. Sacrifice hits—Kahl, Hagerman, McNiece. Donahue, Nolly. First base on balls—Off Nolly, 2; off Hagerman, 3. Struck out—By Hagerman, 3; by Nolly, 1. Three-base hits—McKechnie, Krebs. Home run—McNiece. Time of game—2:00. Umpire—Jacobs.

SOUTH BEND, 5; EVANSVILLE, 0.

South Bend, Ind., Aug. 24.—Evansville could not hit Martin and while South Bend got to Doty for only seven hits they were obtained when they were needed most and scored five runs. The score:

		R.	H.	E.
South Bend	0 0 0 0 5 0 0 0 *	5	7	2
Evansville	0 0 0 0 0 0 0 0 0	0	4	1

Batteries—Martin and Tieman; Doty and Cady.

Sacrifice hits—Craven (2), Walsh, Koehler. Stolen bases—Carey, Tieman. Struck out—By Doty, 2; by Martin, 4. Two-base hit—Knoll. Bases on balls—Off Doty, 4. Time of game—1:30. Umpire—Johnson.

TAKE NOTICE.

All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, and kidney and bladder trouble. It will quickly correct urinary irregularities, which, if neglected, may develop into a serious illness. It will restore health and strength. Do not neglect signs of kidney or bladder trouble and risk Bright's disease or diabetes. Dreier Bros.

FORT WAYNE LEAVES ON IMPORTANT SERIES

Even Break Will Give a Chance for Better Place in Race.

Fort Wayne left for Wheeling at noon today for a series of eight games and an even break away from home may mean a lot in the way of a better position in the race as Wheeling and Zanesville will get together before the end of the year and one or the other of them is bound to go tumbling down the line. This will be the last meeting with the leaders.

Games will be played at Wheeling on Wednesday, Thursday and Friday and at Zanesville Saturday, Sunday and Monday. There are no postponements with the Stogies but two with the Potters and double headers will be played Saturday and Sunday. This will be the toughest going the club will have as the remaining games are with Dayton, South Bend and Grand Rapids and on dope most of them ought to be captured.

McDermott will not be on the trip but if Fremer puts up the article of ball he played here during the Terre Haute series the club will be as strong as with the regular third baseman in his position. The young Philadelphian has hied himself away from the busy scenes of the metropolis and is spending his enforced vacation in a way that will render it much less irksome than if he had stuck to his own boarding house. But that's nobody's business but Mack's—and somebody else's.

Will Robertson left last night for the town of Coshocton, which he is helping to make famous. He will spend a day or two with his mother and join the team at Wheeling. Lester Channell went to Crestline and the club picked him up there today on the way down to play the first game.

Ten more games are to be played on the local grounds. Three each with South Bend and Grand Rapids and four with Dayton, which will wind up the campaign for the year. Dayton has a postponement from July 4, when only one of the two scheduled games was played.

HOW TO CURE SKIN DISEASES.

The germs and their poisons which cause the disease must be drawn to the surface of the skin and destroyed. Zemo, a scientific preparation for external use, will do this and will positively cure Eczema, Pimples, Dandruff and every form of skin or scalp disease. See photos of many remarkable cures and show case or window display at Meyer Bros. Co. Three Drug Stores. Ask for sample.

THE DETAILS AND THE STATISTICS.

That little wash day crowd down at the ball yard yesterday saw some fast playing and incidentally witnessed the Fort Wayne club demonstrate how to clean up whole series, stowing the Tots away without a run while our fellows grabbed off four.

It was all done in one inning. Barney Schreiber, who has made a couple of round trips to the American association, was picked for the going and he had just one bad round. He passed Mike Heckinger and William Robertson in rapid succession in the third and Blount moved both men up with a nice bunt. Donahue dumped one down the line in an attempt at a squeeze play and Mickie McDonald grabbed thrice or so before he finally clutched the elusive sphere (whatever that means), and by the time he got a strangle hold on it there was no use to peg as Heckinger was over with a counter; Donahue was camped on first and Robertson had taken third.

Then the pride of Crestline strode mightily to the plate. He had a couple served up to see how he liked them then he clouted a shoot that he caught with the end of his bat, Billy Belden climbed the left field bank, threw out a Jack Binn's signal and three runners loped around the path, while Ollie Chill fished another ball from his uniform.

Big Robbie did some classy hurling and his support was immense. Seven hits were recorded against him, but Terre Haute never had a chance to win. He didn't issue a pass and was steady as clock work in the pinches. George Wheeler got a near three-base hit, but fast fielding on the part of Channell and Lindsay slaughtered him at third. The score:

Fort Wayne.	AB.	R.	BH.	PO.	A.	E.
Blount, cf.	3	0	1	3	0	0
Donahue, 3b.	3	1	1	2	3	1

By innings—
Fort Wayne .....0 0 4 0 0 0 0 0 *—4
Terre Haute .....0 0 0 0 0 0 0 0 0—0

Summary—

Sacrifice hits—Blount, Fremer. Stolen base—Fremer. Two-base hits—Fremer, Wheeler. Home run—Channell. Bases on balls—Off Schreiber, 4. Struck out—By Robertson, 2; by Schreiber, 2. Left on bases—Fort Wayne, 6; Terre Haute, 4. Time of game—1:30. Umpire—Chill.

NOTES OF THE GAME.

Channell, Lindsay and Fremer starred in the field.

Channell had a home run to his credit and he picked off a foul fly for Groeschow in the sixth that was a great performance. He also stabbed a high drive for McDonald that would have gone to the fence and robbed the batter of a triple. Then he chased after Wheeler's long drive and got the ball in time to retire the runner at third.

Lindsay had eleven chances and a lot of hard ones, but he didn't wobble on one.

Fremer played snappy ball at second and he and Lindsay collaborated on a nice piece of work when he stabbed DeHaven's drive over the bag in the fourth and nipped Somerlott by a toss to the shortstop.

Heckinger is getting to be the waiting kid. They have to get 'em over to him. He drew two bases on balls that made a total of six for the series.

Frankie Donahue delivered a nice bunt for that squeeze that started things going in the third.

Fremer has his eye on the ball. He had a double and a single to show for his work yesterday.

Curt Elston went through the game without a hit and it is about the first time he has done such a thing since he came home on this trip.

Uhl met the ball every time he was up, but he lammed it right at some fielder and didn't get a hit.

Curly Blount has all the batters in the league pretty well guessed and he was waiting for Murray and Billy Belden when they went up. He got Murray twice and Belden one time.

Eddie Zinram is one of the best natured catchers in the league. No matter how badly they break for the old backstop he comes up smiling right along.

Cuppy Groeschow treatened to beat Umpire Chill's brains out. He would have had a fine chance. Chill told him umpires don't have brains.

Billy Belden has not lost the knack of climbing that right field bank. When Channell looped one over he was right on the spot but couldn't reach.

George Wheeler got a two-base hit in the second game Sunday that was overlooked in the summary.

CENTRAL LEAGUE NOTES.

Bade Myers has added Walter Justus to the Dayton pitching staff and signed one Carter for the outfield. His team is going in good shape and has won five in succession.

Pitcher Pinkney, obtained from Toledo by Dayton last May, has been released and Fred Heller, who was recently sold, will join the club again in a few days.

The last time Bob Tarleton was in Grand Rapids he hammered the ball all over the lot but he has not been so lucky this trip. As a matter of fact he went hitless most of the time he was up there because the fences at Ramona are a bit further out than at Loyalty.

At Zanesville it is reported that Big Ed Walker has been signed by Bill Phillips to finish the season with the Stogies.

Every year Zanesville has a Boosters' day and a base ball game is one of the attractions. This year it will occur on Saturday and Fort Wayne will play there. A request for Harry Hammond to pitch has been received and this is what the Zanesville Signal has to say about it: The U. C. T. lads are out boosting this week. Next Saturday's the big Boosters' day at the ball lot and their efforts deserve a good crowd. The grip carriers know this boosting business from the ground up and the fact that they have instigated this welcoming-home proposition shows that they're with the team for good. It's up to the bugs to help 'em out in next Saturday afternoon's party. The travelers will start the parade at the club's quarters at Main and Seventh streets. When they get out to the lot a special section of the left wing of the stands will be reserved for them and the fans will be treated to some dyed-in-the-wool rooting. The salesmen have the lungs, the spirit and enthusiasm and they should have the crowd. So get out and boost!

IN THE SHAMROCK FOLD.

Kansas City has purchased Orville Wolf from McComb, Ill. The price was $1,500. Wolf was Louie Hunt's battery partner in a game Portland played the Shamrocks at league park several years ago. His work at that time attracted attention, his throwing to bases being especially classy.

The Milos, the fastest independent team in Toledo, will play the Shamrocks at League park next Sunday. The Toledo club played the locals a 5 to 5 tie game here in June. Donovan, now with the Toledo American association club, is a graduate of the Milos. Petie Koester, old Van Wert pitcher, is also one of the twirlers.

For indigestion and all stomach trouble take Foley's Orino Laxative as it stimulates the stomach and liver and regulates the bowels and will positively cure habitual constipation. Dreier Bros.

O. B., Herd, No. 20.

Amusements—Majestic Airdome Vaudeville; Lyric theater, Vaudeville; Robinson park, theater and other attractions.

The Indianapolis motor speedway is perfectly appointed, but it appears the plans neglected wholly to make provision for a cemetery.

It is very evident that what Charles N. Fowler really wanted to say about his unlovable Uncle Joe would bar a newspaper from the mails.

Pure food sharps are in conclave in Denver and what will then and there be done to benzoate of soda will not leave enough of the reputation of that lovely preservative to be worth talking about hereafter.

It is very simple, as in the case of Mr. Harriman. You go to Bad Gastein to be cured. Then you go home to recover from Bad Gastein. If you have not been fatally cured at Bad Gastein you are likely to live happily for quite a while.

The secretary of state calls attention to a great intellectual and social revival in Indiana. Clubs for social and intellectual improvement have been formed in all parts of the state and are incorporating under the laws of Indiana. It will be observed as a singular coincidence that in each case a dry town and county surround the club. The next Indiana legislature will have business with this phase of wet-making where dry has been decreed.

Those poor foreigners at McKees Rocks are suffering greatly from bad leadership. It appears that the charges of gross mistreatment in the big car works are well founded and that they had ample cause to strike, but they are playing the very game that will completely undo them when they resort to violence, bloodshed and incendiarism. The masses of them are not responsible. They do not represent a high grade of intelligence, but they can feel their wrongs as keenly as better sorted intellects, their anger is just as quick to rise as the anger of people of finer strains of blood and their retaliations are apt to, indeed do, take primitive forms. But in resorting to violence and defying the armed authority they are taking bad counsel. It is a game in which they stand no chance to win.

Joe Cannon may be all Charles N. Fowler says he is and then some, but it would sound a lot better if along with the telling of his awful story there were less accompaniment of sore toe. The country has come to understand pretty well, we think, the manner of man the speaker of the national house of representatives is, the interests that chiefly he serves and his grip on congress and the use he makes of it, but the country quite as well understands that in making up his committees the late chairman of the banking and currency committee was most incontinently tin-canned. It was, of course, a mere petty, ill-tempered case of "get even" on the part of Cannon for Fowler's one time candidacy for the speakership when the insurgents tried to rise against the Danville sage. All that is well enough known. Fowler should take his medicine with better grace. Still so much of what he charges against Cannon is true that it doubtless is just as well the public should have Fowler's story.

Inasmuch as Curtiss is the only American aviator entered in the great aeroplane tournament now progressing at Rheims it somehow doesn't strike one's stomach with a good flavor to have the Wright brothers pick out just this precise time to announce personal suit against him for infringing their aeroplane patents. Curtiss is over there and flying to beat the birds. He has taken down one record and may triumph in the great event designed as a climax of the tournament. The Wright brothers are represented by some of their machines in charge of French aviators. There doubtless is no better reason than inconvenience why one or the other of the brothers should not be at the Rheims aviation meet, the most unique sporting event of modern times, if not of all times. The Wrights are entitled to the fruits of their genius and hard work, but it would appear a bit more generous to pass by Curtiss and his alleged infringements for the present. The great can afford always to be magnanimous.

TAX ON INSURANCE HITS HOLDER OF POLICY

President of National Association of Commissioners Talks.

Colorado Springs, Colo., Aug. 24.—The fortieth annual national convention of insurance commissioners opened in this city today with 350 delegates, representing practically all of the states, in attendance.

President Benjamin F. Crouse, of Maryland, introduced Governor John F. Shafroth, of Colorado, who delivered the address of welcome, which was responded to by Hon. Fred W. Potter, of Illinois, vice president of the convention.

The feature of the session was the adresses of President Crouse, who said in part:

"The insurance business should undoubtedly bear its fair and proper share of governmental expenses, but should not be burdened with heavy and excessive taxes simply because it can be done by hiding and covering them up in the premiums paid by policy holders or by reducing dividends which otherwise would be largely increased.

"If the people who do the voting are clearly convinced that the ones who pay insurance premiums are paying excessive taxation on their savings, some relief will undoubtedly come. Especially ought the taxation of mutual fire insurance companies be reduced as a part of the premium paid for indemnity of this character is never returned to the insured except in case of fire, and then only to re-imburse him for his actual losses.

"All of us gladly acknowledge the splendid results accomplished by the legitimate fraternal associations for a large class of people who otherwise would not carry any insurance whatever.

"But one of the great troubles is how to deal with a very great number of associations styling themselves fraternal whose conduct and actions toward their members are of the most unfraternal character. Some plan should be devised to eradicate those concerns which exist only to rob those who are induced by false promises of rich returns to become members."

All Trunks and Steamers will be discounted 20 per cent during our great half price sale.
PATTERSON-FLETCHER CO.

THE SUNDAYS NOT HURT.

Report of Automobile Accident Has No Foundation.

Chicago, Aug. 24.—A telephone message received here today from Mrs. "Billy" Sunday, wife of the evangelist, by her sister, Mrs. George Spoor, denied that Mr. and Mrs. Sunday were victims of an automobile accident near Laporte, Ind., yesterday. "Mr. Sunday and his wife are and have been at Winona Lake," said Mrs. Spoor, after talking with her sister. "I believe the story of the accident is based on the confusion of names."

GIVES UNCLE JOE'S JACKET A WARM DUSTING

Congressman Fowler Tears Into the Speaker With Blood in His Eye.

New York, Aug. 24.—Conspiracy and putrid preferences are among the charges made against Joseph G. Cannon, speaker of the national house of representatives, in an open letter written to the speaker by Representative Charles N. Fowler, of Elizabeth, N. J. The writer accuses Mr. Cannon of plotting with Senator Nelson W. Aldrich, of Rhode Island, to control all important national legislation and of defeating both tariff and currency reform.

For several years the New Jersey congressman was chairman of the house committee on banking and currency. At the close of the recent special session Speaker Cannon declined to reappoint Mr. Fowler to that important chairmanship. Such action is almost unprecedented.

Despairing of securing what he believes is necessary legislation for the reform of the currency and banking laws of the country as long as the house is under the control of the present rules so interpreted by Speaker Cannon, Mr. Fowler announced himself a candidate for speaker at the opening of the special session.

He explains that he did this, not in the expectation of being elected, but solely for the purpose of bringing squarely before the people the issue of genuine currency and banking reform as distinguished from the legislative program on that question agreed to by Aldrich and Cannon. This conduct made Mr. Fowler an "insurgent" in the eyes of "Uncle Joe."

Says Malice is Mainspring.

Referring to his course in that respect, Representative Fowler says in his letter to the speaker:

"Do you suppose, sir, that I did not appreciate fully the probable consequence of my act when I undertook to play my part in securing this reform? Do you suppose that I was not aware of your ignorance, prejudice, inordinate conceit, favoritism, putrid preferences and that, like all such characters possessing absolute power, malice is the mainspring of your every action under such circumstances?"

After reciting from the official records the speaker's support of unsound money measures in congress up to the present time, Mr. Fowler reminded Mr. Cannon of the latter's opposition to remedial legislation proposed by the New Jersey man to avert the panic of 1907. He reminds him of how he was pleaded with to permit consideration of the bill prepared by Fowler with the assistance of fifteen of the greatest bankers in the country, and recites this:

"You literally hooted the idea of a panic and inquired: 'What in h—l does this howling in Wall street amount to? The country don't care what happens to those d—n speculators. Everything is all right out west and around Danville. The country don't need any legislation. Then I don't take any stock in your d—n asset currency.'"

Mr. Fowler adds: "As usual, your ignorance and prejudice were all sufficient then. But the panic came, as every man who had any intelligence upon the subject knew it would.

Would Have Prevented Panic.

"Now, sir, mark this—the bill prepared by these representative bankers, which met only with your sneers and contempt, and known as the 'bankers' bill,' provided for about $250,000,000 of credit currency called in that bill 'national bank guaranteed credit notes.'

"If that bill had been upon the statute books when the pressure came, there would have been no general suspension of banks throughout the country, no general breaking down of exchanges, as all the banks could have more than met the demands for currency.

"I am sure that all trustworthy authorities will say that at least one-half and possibly two-thirds of all the losses of the crisis of 1907, direct and indirect, were due to the fact that there was a general suspension of many payments and complete breaking down of our exchanges; that the public confidence was so shocked as to destroy completely normal conditions for many months.

"This is your record upon our financial and currency legislation. I challenge you to find a single living man with so rotten a one. It is a record of ignorance or political cowardice or a disgraceful hybrid of the two. And yet, sir, you assume to dictate the financial and currency legislation of a civilized country."

After accusing Speaker Cannon of deliberately conspiring with Senator Aldrich to pack the conference committee on the tariff bill against the house bill, Mr. Fowler adds:

"I have gone into these details to lay bare your miserable, contemptible false pretense and to expose your duplicity, treachery and perfidy to that legislative body over which you preside, whose bill you were bound to defend and not destroy.

"Is it possible that you, the republican speaker of the house of representatives, and Senator Aldrich, chairman of the finance committee of the senate, entered into a conspiracy to secure the adoption of the senate bill in general and highest rates in both bills throughout for the purpose of discrediting the president by repudiating his pledges and the platform of the republican party?

"Taking all the facts as they appear in the case, from start to finish, a lawyer, an intelligent criminal lawyer, would say that it looked like a conspiracy. You seem to have measured the conditions with accuracy and to have calculated the distances to the various points of agreement carefully, and you seemed to be almost upon the point of consummating your undertaking when the great unknown factor became the determining force.

Says "Cannonism" Must Go.

"Though this scheme failed, it exhibits 'Cannonism' in its highest and most perfect development.

"I challenge you to cite in all our political history a more dishonorable and disreputable piece of business unless, perchance, you cite something in your own career of which the people are not yet advised."

Outlining a program by which the house could rid itself of one-man power, Representative Fowler closes his letter thus:

"These pledges have become necessary because of your assumption and abuse of power by which you and your confederates have already brought the republican party almost to certain defeat, possibly disruption and destruction, unless 'Cannonism' with all its corrupting, degrading and paralyzing influences is torn up root and branch.

"The republican party will not brook nor condone your contemptible trickery and traitorous treachery, your disgusting favoritism and vengeful malice, your brutal despotism and daringly desperate methods.

"If the republican party wins the next congressional election it will only be upon the grave of 'Cannonism.'"

Where There is So Much Smoke

There Is Always Some Fire.

When people talk about one thing and keep on talking as they do about the discovery that created so much newspaper comment in Fort Wayne and other cities during the past summer, even though many reports may be exaggerated, there must be some merit in the discovery, and when people spend their money for a thing and then buy more of it, proof of merit becomes so convincing that it becomes the duty of every person in need of Root Juice to go to the drug store and get a bottle of this much talked of remedy. Root Juice cures rheumatism and catarrh because it puts the filtering machines of the body to work and causes them to filter the impurities of the blood. Root Juice cures stomach and bowel troubles because it removes irritated and ulcerated conditions from the mucous linings and causes a natural flow of digestive fluids. Root Juice is so good for female weakness because it tones and heals the organs that make and filter blood.

Good, rich blood will nourish and strengthen every weak part of the body. Root Juice is sold for one dollar a bottle, or three bottles for two dollars and a half at Bradley Bros', drug store, Wagner's old stand, near Transfer corner.

Why Japan Won't Fight Us

Japan wants the Phillipines.
She wants to keep us out of China.
She wants certain rights on the Pacific Coast.
Will she fight for them?
No!
Why?
There are five reasons. Everyone of them sufficiently interesting in itself to make every man and woman in the country want to read this splendid article.
Dr. Thomas Green has just returned from Japan.
He went for the purpose of finding out the exact attitude of the government and the people towards the U. S.
The *facts* he found out make intensely interesting reading in

HAMPTON'S MAGAZINE

SEPTEMBER—ON SALE NOW

Among the twenty other great features that will make you say that this is the "Best Magazine in America" are—

"Policing our Lawless Cities."—General Bingham "speaks out" at last about the rottenness of the New York Judiciary. You must not miss his startling revelations.

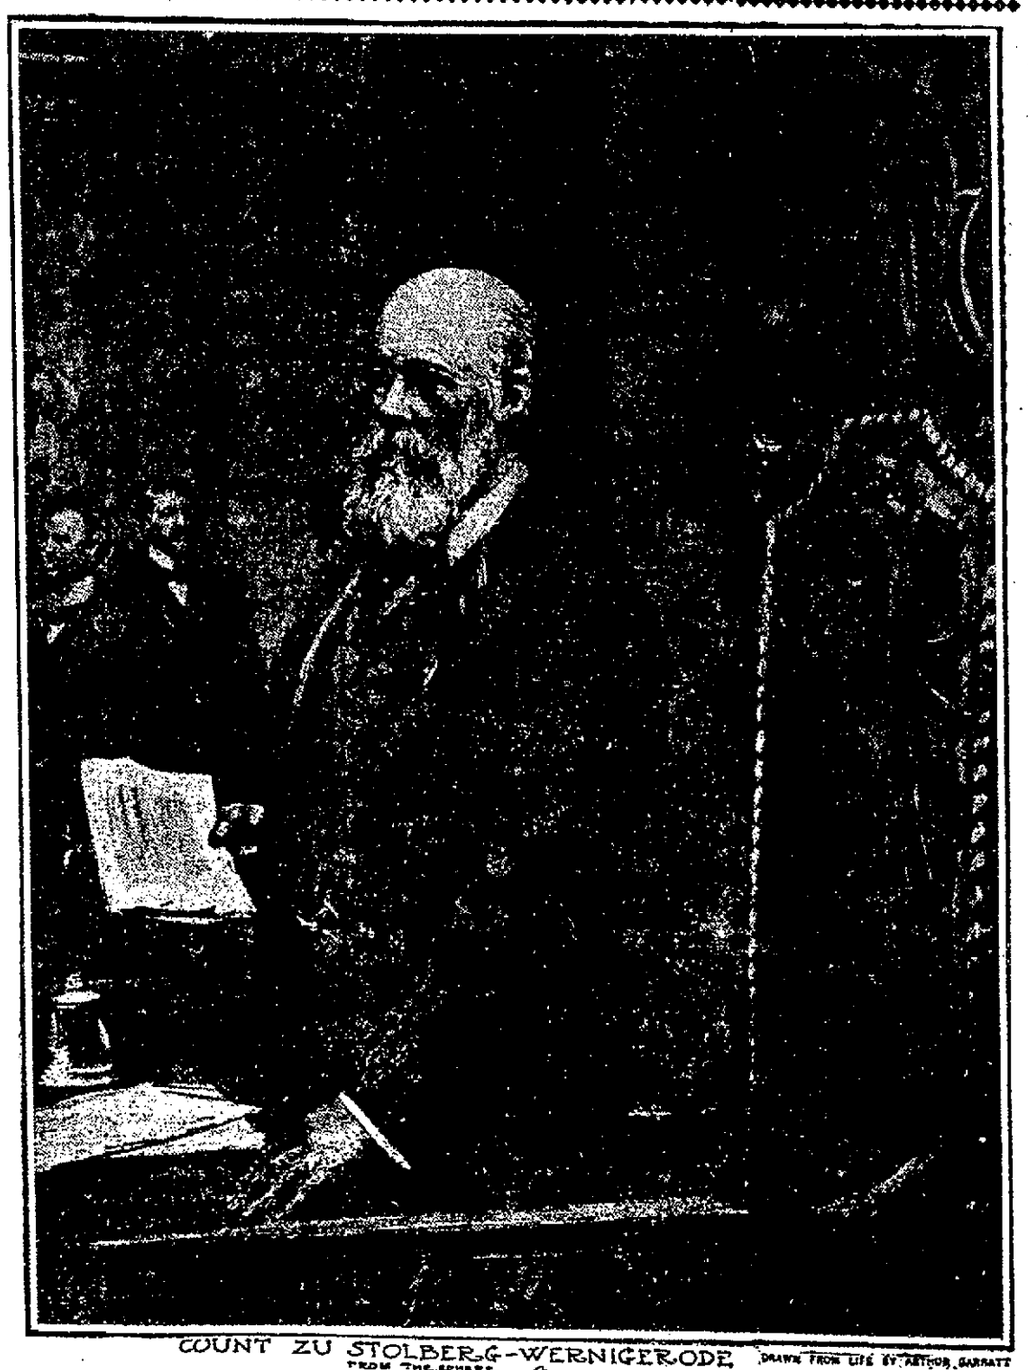
AT THE HEAD OF THE GERMAN REICHSTAG.



COUNT ZU STOLBERG-WERNIGERODE. FROM THE SPHERE. DRAWN FROM LIFE BY ARTHUR GARRATT

Count Udo Graf zu Stolberg-Wernigerode, the president of the reichstag of Germany, is a member of a very old German family of many branches. He was born in Berlin, sixty-nine years ago and belongs to the Kreppelhop branch of his family, of Silesia. His wife was Elizabeth, countess von Arnim, and he has two sons and five daughters.

IN THE CITY'S CHURCHES

REV. M. E. NETHERCUT IN DOUBLE CHANGE IN KANSAS

Former Fort Wayne Pastor Secures New Wife and New Pulpit.

Rev. M. E. Nethercut, former pastor of the Wayne Street Methodist Episcopal church in Fort Wayne, who removed from this city to become pastor of the First M. E. church at Lawrence, Kan., has just been married, and following the nuptial ceremony tendered his resignation at Lawrence to accept a call to Hutchinson, Kan. Rev. Mr. Nethercut's bride was formerly Miss Annie Triplett, of Haskell, Kan., and the ceremony took place at St. Joseph, Mo., on August 18. Rev. and Mrs. Nethercut and his little daughter, Marjorie Nethercut, are now enjoying an outing in Colorado, where they will remain until the middle of September.

Concerning the resignation of Rev. Nethercut the Lawrence, Kan., Journal says: "Dr. Nethercut's resignation comes as a great surprise, as none but the official board knew it was in contemplation. It was entirely voluntary, as he has been one of the most popular pastors the First M. E. church has ever had, and every one in the congregation was his friend. Dr. Nethercut came here from Indiana two and one-half years ago. He has made it a rule not to stay more than three years in any one place, and when he came to Lawrence he stated that he would only remain three years. He was a widower when he came here, and when he decided to remarry, he thought it best to make the change at once rather than next spring. Dr. Nethercut is a forcible preacher and a pastor of rare excellence. He is a man of lovable personality, of fine Christian attainments and preaches sermons that are highly instructive. He has more than made good in the work in Lawrence."

* * *

REFORMED CHURCH AFFAIRS.

Young Ladies' Guild of St. John's Gives Social Event.

One of the most enjoyable surprise parties of the season was that given on Monday evening by the Young Ladies' guild of St. John's Reformed church, at the home of one of the members, Miss Christine Zollinger, of 701 Washington boulevard east. Quite a number of the young ladies were present and adding to Miss Zollinger's surprise at the happy observance of her birthday anniversary was the presentation of a handsome gold signet ring. The guild sews throughout the year for a booth at the anniversary celebration of the local orphans' home of the Reformed church. Miss Zollinger purchases all of the materials used by the guild, assists the other members in their work and two weeks before the orphanage celebration completes all unfinished needlework. The young ladies are sincerely appreciative of her work and gave the party and gift as a token of their esteem. Following a social evening at Miss Zollinger's home, refreshments were served.

—

Rev. John H. Bosch, pastor of St. John's Reformed church, left on Monday for St. Ignace, Mich., where he will spend four weeks. Services at St. John's church will be suspended for next Sunday and the Sunday following. On Sundays, September 12 and 19, the pulpit will be supplied. The meeting of the Junior Christian Endeavor society will be held as usual each Sunday afternoon. Miss Aurelia Bosch led Sunday afternoon and there was an encouraging number of boys and girls present. The next meeting of the Sunday school teachers will be held on Wednesday evening, September 8.

—

On Thursday afternoon, September 9, the Ladies' society of St. John's Reformed church will hold its regular business and social meeting at Robison park, instead of at the church hall.

* * *

NINETEEN TO GRADUATE.

Training for Service Class Exercises September 3.

At 8 o'clock Friday evening, September 3, the commencement of the centennial training for service class will take place at the West Creighton Avenue Church of Christ. The graduates number nineteen, and a special program will mark the completion of their work. The graduates are as follows:

Misses Cecil Ake, Eva Ake, Irene Bashler, Grace Diffendorfer, Bessie Hoff, Nora Ake, Jessie Gillespie and Ada M. McCormick; Mesdames T. H. McCormick, A. F. Bowman, W. H. Johnson, A. M. Gillespie, H. J. Hiler, C. A. Howell, sr., C. A. Howell, jr., and H. A. Zwahlen and Messrs. Preston Ake, T. H. McCormick, C. A. Howell, jr., and H. G. Hiler.

RETREAT AT CARTHAGENA, O.

Rev. C. Hummer Attends Exercises of Precious Blood Fathers.

The annual retreat of the Fathers of the Precious Blood opened yesterday at St. Charles' seminary, Carthagena, O. Rev. Chrysostom Hummer, C. PP. S., pastor of the local Precious Blood church, is attending the spiritual exercises and during his absence, Rev. Thomas Eisenring, C. PP. S., chaplain at St. Joseph's hospital, will have charge of the pastoral duties. The retreat master is Rev. Benedict Boebner, C. PP. S., a missionary of the order, who for some time made his headquarters at the Fort Wayne residence of the order.

* * *

MISSIONARY MEETING.

Wayne Street M. E. Church Society to Meet at Parsonage.

The regular monthly meeting of the Woman's Foreign Missionary society of Wayne street Methodist Episcopal church will be held on Thursday afternoon, September 2, at the home of Rev. and Mrs. C. Claud Travis, West Wayne street. It is likely that the election of officers will be held at this time and plans made for the coming year's work. Mrs. Travis will be assisted in entertaining by Mrs. Anna Wolford, Mrs. Minnie Welch, Mrs. James Wilding and Miss Spencer. Mrs. E. D. Gallagher will lead the devotions and following the roll call and transaction of business a paper on "Japan, Southern Work," will be given by Mrs. W. G. Zahrt. Miss Evelyn Walters will render piano selections and gleanings on "Japan's Code of Honor" will be given by Mrs. Van Arnam.

* * *

MEETING OF INTEREST.

Special Talk at Prayer Meeting at Trinity M. E. Church.

Considerable interest attaches to the prayer meeting to be held tomorrow evening at Trinity Methodist Episcopal church. Services will be conducted by the pastor, Rev. Wm. P. Herron. John Grotholtman, who resides at 221 Fourth street, will present striking illustrations of the difference in thought and expression in the English and German bibles. His effort is said to be both interesting and instructive and a large attendance is expected.

The regular monthly meeting of the board of stewards of Trinity church will be held Thursday evening, September 2, in the church hall.

* * *

AMONG THE CHURCHES.

Daily Record of Current Events in Religious Circles.

Services will be suspended for the day next Sunday at St. John's Evangelical Lutheran church. Rev. H. P. Dannecker, pastor, will deliver a sermon at a mission festival at Chattanooga, Ohio.

—

M. J. Cahill, traveling representative of the Catholic Universe for Indiana and Ohio is spending a week or two in the city in the interest of the paper.

—

Rev. Charles Thiele, rector of St. Peter's Catholic church has as his guests Mr. and Mrs. John Thiele and two little daughters, of Whiting.

—

The annual picnic of St. Catherine's Catholic church, Nix Settlement, will be held tomorrow under the auspices of Rev. John Beiderman and his congregation. It will be an all day affair in a grove near the church and dinner and supper will be served by the ladies of the parish. The annual festival of St. Joseph's church, a mission at Roanoke, will take place the early part of September.

—

Rev. Dr. and Mrs. Allan K. Zartman, of Grace Reformed church, who have been enjoying an outing of two or three weeks at Rome City are spending this week in attending the bible conference at Winona.

—

Mrs. Henry T. Sell, wife of the pastor of Plymouth Congregational church, will return this evening from a brief visit with relatives at Whitewater, Wis., having stopped en route to this city after a trip through Colorado with Dr. Sell.

—

Rev. Jacob Miller, pastor of St. Paul's Lutheran church will return this evening after a visit of several days at his old home in Cove, Garrett county, Md.

* * *

REDEEMER CHURCH REMOVAL.

New Basement in Readiness to Support Old Building.

The English Lutheran Church of the Redeemer has been moved off its foundation at the corner of Fulton street and Washington boulevard west, and everything is now in readiness for placing it upon the fine new basement in the rear of the church lot. The building will now have a frontage on Fulton street and with the erection of the new church on its former site next year, the old house of worship will be faced with brick and used as a church hall. The new basement to support the old church has been arranged for a dining room, kitchen and bowling alley. The present church building after its removal and renovation will again serve for religious services until the new one is built. In the rear of the basement workmen are engaged in building a brick boiler house and stack.

STORM RAGES ON THE GULF.

Lake Charles, La., Aug. 24.—Strong winds and heavy incoming tide last night indicated that a severe storm was raging on the gulf. It is feared that the gale has done much damage to the rice now ready for harvest, much of which is still uncut. There is no means of communication with Cameron at the mouth of the Calcasieu river until the regular boat arrives late today.

Appointments by Two Church Conferences.

METHODIST PROTESTANT.

Indianapolis, Aug. 24.—Appointments by the Indiana conference, Methodist Protestant church, are as follows:

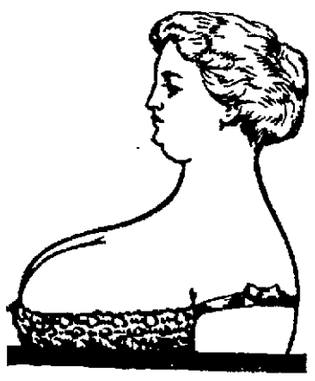
Fort Wayne district—J. C. McCain, chairman; Altoona, W. S. Harper; Berne, A. L. Wooten; Bryant, A. L. Wooten; Elkhart, H. Schwarzkopf; Harlan, H. P. Engle; Kendallville, A. E. Scotten; Keystone, L. Coomer; Naples, E. C. Lucas; Maxinkuckee, T. J. Halstead; Monticello, to be supplied; New Haven, Hillis L. Avery; Plymouth, W. W. Lineberry; Rensselaer circuit, O. S. Rardin; Rensselaer mission, to be supplied; St. Joe, J. C. McCain; Liberty Center, J. L. Barclay; Salmonia, P. W. Boxell; Tippecanoe, to be supplied; superannuated, T. E. Lancaster and H. M Husse.; transferred to Muskingum conference, A. B. Williams; without appointment at his own request, Thomas Whittaker; deceased, J. R. Lenhart.

The members of the stationing committee were James L. Barclay, James G. Smith, S. S. Stanton, William J. Smith and Felix Blaising.

WESLEYAN METHODIST.

Fairmount, Ind., Aug. 24.—Pastors have been assigned by the Indiana Wesleyan Methodist conference as follows:

Albion, C. S. Smith; Anderson, S. M. Vanblaricum; Blue River, H. T. Arnold; Boxley, A. U. and Lydia Murphy; Bryant, T. R. Eddy; Cicero mission, Cerena Jay; Elwood, Sewell E. Baker; Fairmount, W. D. Baker; Fountain City, Dolly Goble; Fowler, B. L. Couch; Greensboro, C. G. Payne; Hamlet, H. and Josephine Ackright; Huntington, C. A. Billheimer; Kirklin, F. W. Crowell; Kokomo, Edgar Zike; Larwill, S. C. Kennison; Lewis Creek, L. H. Carter; Mt. Etna, E. H. Kennedy; Mt. Zion, W. H. Hopkins; Payne, T. J. Pierce; Pleasant Grove, J. H. James; Plymouth, S. A. Mow; Peru, L. G. Bears; Roseburg, T. M. Bodenhorn; Santa Fe, E. E. Turner; Sheridan, Grace Sloan; Strawtown, W. L. Payne; Sibert, D. H. Younce; Thorntown, George Reber; Union, Newton Gilliland; Warren, J. J. Coleman; Wabash, C. A. Billheimer; Westfield, Grant Mann.



Take Off the Fat Where It Shows

Most women suffer much humiliation because of great quantities of fat, so located that, no matter how they dress, everybody sees that they are abnormal. This is the day of the slender figure, and fat women are simply not tolerated either in business or social affairs. Women may not know it, but men when they see a fat women pass them on the streets make all manner of sympathetic remarks about her. They do not mean to be unkind or to seem unmanly, but it is natural for a man to dislike fat on a woman. Where fat shows the most there is where it must be removed, and as quickly as possible. The hot weather dresses seem to be made for the fat woman's misery and the slender woman's delight. They expose all the charms of woman and her ugliness as well. Exercise and diet will not remove fat. This has been proved. The famous Marmola prescription which has met with such phenomenal success and has so many of our society women as its sponsors, is now being sold in tablet form to meet the demand of the public for this style of treatment. These little tablets go into your system just like food. They stop the stomach and digestive apparatus from producing fat and reduce the fat upon the body at the rate of from 12 to 15 ounces a day. They are harmless and can be carried in your purse and taken even after you have indulged in a hearty meal away from home. They are sold at all drug stores at 75 cents a case, or if you prefer you may write the Marmola Co., Dept. 346, Detroit, Mich.

ACTIVITY IN AERONAUTICS.

Wilbur Wright to Instruct Army Men in Aviation.

Washington, Aug. 24.—Activity in aeronautics in and about Washington is being revived. Wilbur Wright will come here within a week or ten days to instruct Lieutenants Lahm and Foulers, of the signal corps, in the manipulation of the flying machine of the Wrights. The shed for the housing of airships is being erected upon the field at College park, Md., where the training flights are to be made, and the aerodome is being cleared of all obstructions.

There may be flights by the Smidley monoplane prior to the instruction trials for the army officers. J. H. Smidley, who has been putting the finishing touches on a monoplane, which he has constructed along original lines, is preparing to give his flyer a test at the Benning race track within a few days.

H. A. Orme, another local aviator, who has another bi-plane differing in design from that of the Wrights, also intends to make a trial flight in the near future.

PATTERSON-FLETCHER CO.

CONN GETS A RECORD.

Indiana Man is Premier Light Tackle Angler at San Catalina.

Avalon, Catalina Islands, Cal., Aug. 24.—Two new world's records for light tackle angling were established here yesterday. C. C. Conn, of Elkhart, Ind., landed three tuna, the largest of which weighed 129 pounds, being brought to gaff in ten minutes.

C. Brode held the record, made a few days ago, with a 126 pound tuna, brought to gaff in fifteen minutes.

The other record was made by B. B. Attermury, of Pasadena, who caught a black sea bass weighing 270 pounds. This struggle lasted two hours and twenty minutes and the angler was compelled to bring the monster fish to the surface eight times before it could be gaffed.

FAVOR SHIPPING SUBSIDY.

Rotting Hulks in Frisco Bay Converts a Congressman.

San Francisco, Aug. 24.—After a trip around the bay where scores of ships are rotting for lack of merchandise to carry at a profit several of the delegates of business men on their way to Honolulu are in favor of a ship subsidy appropriation rather than a state of stagnation such as was shown them yesterday. At a banquet Congressman A. J. Barchfeld, of Pennsylvania, came out earnestly in advocacy of a subsidy. He said in part:

"The sixty-first congress will write into the statute book a ship subsidy that will build for this nation a merchant marine of which it need not be ashamed."

Three pairs of Garters for 25c (half price) during our great Half Price Sale.

SONS OF VETERANS MEET.

National Encampment Is Opened In Washington.

Washington, Aug. 24.—The twenty-eighth annual encampment of the commandery-in-chief, Sons of Veterans, U. S. A., with about fifteen hundred delegates, opened here today. For the opening ceremonies address by Commissioner Henry B. F. McFarland of the District of Columbia, former Senator John A. Thurston, William F. Gude, president of the chamber of commerce and others were scheduled. Memorial exercises were to be conducted in the afternoon by National Chaplain Benjamin F. Jones.

THE OLDEST BANK IN NORTHERN INDIANA — OLD NATIONAL BANK — ESTABLISHED 1835 — RESOURCES OVER THREE MILLION DOLLARS

Fort Wayne, Indiana

AN ASSURANCE OF SAFETY.

The strict regard which the management of this bank has for those conservative methods and principles of sound banking, which have characterized the history of the bank since its establishment in 1835, furnishes unquestioned assurance of safety for deposits.

Henry C. Paul, President. W. H. Rohan, Cashier. OFFICERS Charles E. Bond, Vice-Pres. Stephen Morris, Asst. Cash.

OUR NEW BANKING ROOMS

We have pleasure in announcing that the new rooms being prepared for us in the new fire-proof building now under course of construction on the old Aveline House site will be on a scale commensurate with the position of this bank as the oldest National Bank in the state and the largest National Bank outside the capital city. Our new vaults will be a surprise to everyone and will compare favorably with vaults in the largest cities. The matter of safety has had our first consideration, but we have tried not to overlook beauty of construction and perfection in point of all facilities to be enjoyed by the public. We hope to occupy the new rooms by December 1st.

We shall be glad to have you call on us and discuss the opening of a new account or any other question of financial or commercial interest to you.

Our Resources are in Excess of Four Millions.

FIRST NATIONAL BANK OF FORT WAYNE

Money deposits in any amount, received at any time, may be withdrawn at any time, with 4 per cent interest compounded.

Absolute Safety and Best Profits — CITIZENS TRUST COMPANY — Home Money for Home People

Bank for Savings—Opposite Postoffice

Money to Loan in any amount, at any time, on Allen County Real Estate Security. Interest 6 per cent. No commission. Repay as you please.

Madam, See What You Lose On 5-Cent Cans

The 10-cent cans of Van Camp's Milk give you sixteen ounces—the 5-cent cans only six ounces. Note how much this means.

You get six ounces of evaporated milk in a 5-cent can of Van Camp's.

But you get sixteen ounces in the 10-cent can—a full pint. And you get the same milk in both.

That is one of the ways in which you lose money by buying the 5-cent can. Let us explain them all.

No Maker Gives More

No maker gives more than six ounces of evaporated milk for five cents.

Thin milk, with too little water evaporated, costs just the same as Van Camp's.

So you get just as much of Van Camp's as you get of the poorest milk on the market.

But you spend more than you ought when you buy any milk in the 5-cent size.

Figure It Out

Van Camp's is simply rich Holstein milk, with two-thirds the water evaporated.

The milk as it comes to you is 28 per cent solids, 8 per cent butter fat.

If you replace the water which we take out, you should get rich milk for about six cents per quart.

That is based on buying the 10-cent cans, and buying them by the case. For grocers give discounts on cases.

But the 5-cent cans—even when bought by the case—make the milk cost you over eight cents per quart when you replace the water.

So you will see you are paying just one-third more when you buy the 5-cent cans.

Our Object Is This

It may seem better for us to sell six ounces for 5 cents than sixteen ounces for 10 cents.

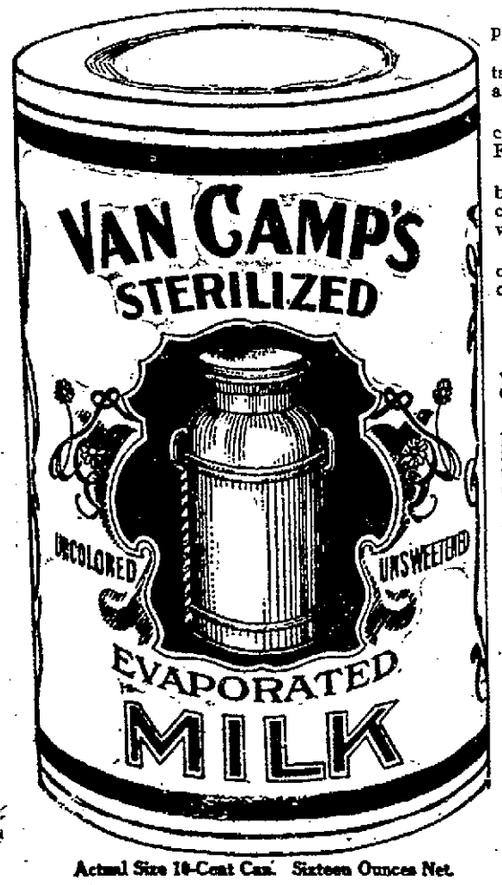
But it isn't. Our interest lies in making this milk economical. It should completely displace milkman's milk.

Van Camp's Milk serves every purpose fully twice better than raw milk. You will use more of it when you learn these facts, and learn the economical can.

Then the usual milk sold in 5-cent cans is often a vastly inferior milk.

So we urge you to buy the 10-cent cans and get the full worth of your money.

And don't buy from day to day, as you bought milkman's milk. Buy a case at a time and get the case discount. Then you will have the best milk in America for less than poor milk costs.



Actual Size 10-Cent Can. Sixteen Ounces Net.

Use It for Cooking

The trouble is here: Most people who buy the 5-cent cans don't use Van Camp's for cooking.

They use it for coffee and cereals, perhaps. But they still use raw milk for making milk dishes. And there they lose the greatest service that Van Camp's Milk can render.

Milk dishes made with Van Camp's have a flavor and richness which raw milk never gives. You will use Van Camp's forever when you once learn the difference.

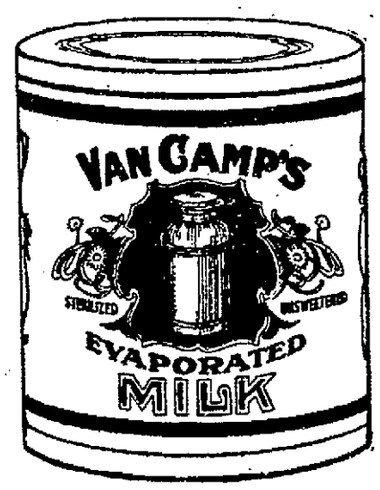
The reason is that raw milk separates. The butter fat rises and the solids fall. When milkman's milk is used in cooking, it generally comes very far from whole milk.

Van Camp's is whole milk. It has all of the butter fat, all of the solids it had when it came from the cow. It will make your milk dishes twice as delicious as dishes made of raw milk.

Van Camp's Milk Keeps

Van Camp's Milk will keep because it is thoroughly sterilized. An opened can will keep 24 hours in ordinary weather. It will keep 48 hours or longer on ice.

If you use only part, you can leave the rest in the can and use it next day. You don't need to buy in small cans for fear the opened cans will spoil.



Actual Size 5-Cent Can. Six Ounces Net.

SOCIETY

An agreeable surprise to Fort Wayne friends is the announcement of the engagement of Miss Addie Smith, of Hartford City, and Stephen A. Trentman, of this place. Miss Smith is a daughter of Mr. and Mrs. H. B. Smith, being a social favorite and a most estimable young lady. She has attended school at Oxford, O., at Glendale, near Cincinnati, and also at the National Park seminary near Washington, D. C. Mr. Trentman is a son of A. B. Trentman, with whom he was associated in the paper business at Hartford City for some time and now in the Corrugated Paper company here. The nuptials will be solemnized about the middle of October. The young couple will make their home in this city.

* * *

Mrs. M. S. Merriam is attending the Winona Lake bible conference.

Miss Clara Lade has returned after spending several days at Rome City.

Mrs. I. Weil, of West Wayne street, is entertaining her sister and husband, Mr. and Mrs. Emil Myers, of Terre Haute.

Mr. and Mrs. Fred Ash and Mr. and Mrs. J. C. Peltier have gone northward to the Michigan lakes for an extended visit.

Miss Lotta Burdett, who has been visiting with relatives here for several weeks has returned to her home in Pittsburg.

A box picnic will be given at Robison park Wednesday afternoon and evening by the ladies of the Maccabee Hive No. 27.

The Pythian Sisters' Social circle will be entertained by Mrs. Charles Shaw, 603 Fourth street, on Wednesday afternoon.

Mrs. Theodore F. Thieme and son, Wayne, will arrive in the city tomorrow on their return from an extended stay in the east.

Mrs. Clark Fairbank and Miss Agnes Fairbank arrived from their cottage at Rome City last evening to spend several days here.

Rolland Hoffman, who has been attending the summer school at Michigan university, returned home last evening and is preparing to enter the regular course at the same school this fall.

Howard Weikart, of State street, is spending a week with relatives in Rome City.

Mrs. May Schaich and mother Mrs. Boger have returned home after attending the Boger reunion near Maysville.

Miss Einstein, of Baltimore, who has been a guest in the family of E. E. Israel, has gone to Toledo, accompanied by Miss Israel.

Miss Jennie Harper, who has been spending the past several weeks in northern Michigan and points of interest in Canada, is home again.

Mr. and Mrs. Christian Schaich, of Knoxville, Tenn., are spending the summer with their son, J. M. Schaich and wife, of Spy Run avenue.

Mrs. C. M. Hobbs spent Sunday with Mrs. J. A. Nipper and Mrs. Kenneth Hawkins at the home of Mr. and Mrs. Arthur Wilson, at Lafontaine.

Miss Margaret Spencer, of Garrett, Ind., and Miss Gage and Miss Spencer, of Saginaw, Mich., are visiting for a few days with Miss Eliza Hanna.

Mr. and Mrs. Christ Lankenau and children and Mr. and Mrs. Henry Hild and daughter, Irene, spent Sunday in Bingen, Ind., with Mr. and Mrs. Louis Koenemann.

Miss Pansy Sauerwine, of Montpelier, Ind., will arrive in the city tomorrow to be the guest of Miss Gwendolyn Saylor, of Lincoln avenue, for a day or so.

Mr. and Mrs. H. Schwieters, of Louisville, Ky., who have been visiting Mr. and Mrs. I. Freiburger, of West Jefferson street, have left for an extended northern tour.

Mr. and Mrs. William Damon, of John street, entertained last evening in honor of Mr. and Mrs. John Harkenrider, of Chicago, who are visiting relatives and friends in the city.

Miss Hazel Ashbaugh, of Waverly, Ill., will be the guest of Mr. and Mrs. F. E. Ashbaugh and Miss Nellie Hicks for several weeks, having accompanied them on the return from Springfield, Ill.

Miss Wilda and Miss Mary Alma Schwieters, of Louisville, Ky., and Joseph Stemmelen, of Detroit, Mich., are the guests of Miss Mae Freiburger, of West Jefferson street.

Mesdames Samuel McAfee, William Killen and John Waxenfelder have returned from Wichita, Kansas, where they had been visiting their sister, Mrs. Woodrow, formerly of this city.

Ladies of Our Own Five Hundred club who have returned from a week's outing at Rome City are Mrs. L. DeHaven, Mrs. William Klenke, Mrs. William Walker, Mrs. William Hatfield, Mrs. J. Foote, Miss Bessie DeHaven and Miss Anna Glass.

The Neighborhood circle of Liberty street, planned and carried out very successfully a pleasant surprise on Mrs. Gust Hille, of 949 Liberty street, Monday afternoon. Refreshments were served and the afternoon most enjoyably spent in social converse.

The C. J. G. club girls are among those who have returned after a week's outing at Rome City. The young ladies are the Misses Stella Jacobs, Bertha Eckles, Viola Braun, Ida Piepenbrink, Edith Klenke, Esther Satfen, Della Kramer, Stella Bennigan, Irene Kasten and Martha Wagner.

The wedding of Miss Maude Dull, daughter of Mr. and Mrs. George Dull, of Churubusco, and David Buttermore, of this city, will occur here next Wednesday evening at 8 o'clock. Mr. Buttermore is employed with the Home Telephone company. The couple will make their home in this city.

Miss Nana Graham, bookkeeper for Fox Brothers, and Miss Blanche Pritchard, bookkeeper for the Wayne Knitting mills, arrived home this morning. They had been east on a three weeks pleasure trip, during which they visited the Thousand Islands, Niagara Falls, Atlantic City and other places.

Miss Cecil Baker proved a very entertaining hostess for the L. B. V. club on Monday evening. Following the transaction of club business and a social chat, a most inviting luncheon was served, covers being laid for six. Miss Viola Hergenroether will be hostess for the next meeting, to be held at her home on Maumee avenue.

The members of the Doodle enjoyed a fine outing last Sunday at Pleasant Point, the guests of John Eckrich who has a cottage there. Upon the return home, the members enjoyed a short house party at the home of Miss Gussie Koeble, on East Jefferson street. The guests were Mrs. Koeble, Miss Lottie Schrink, Miss Evelyn Druhot, Miss Grace Gunn, Miss Catharine Stewart and Miss Maud Ruby and Howard Glib, Edward Mahon, Robert Tyler, Raymond Berghoff, Clarence Eckrich, Edward Mettler, and Clarence Pion.

Mrs. Frank Spoltman was accorded a very pleasant surprise at her home, 1409 Hurd street, Friday evening on the occasion of her 38th natal day. The evening was spent in playing cards, listening to musical selections by Miss Irene Spoltman and Mr. J. Giese and in partaking of a delicious three-course luncheon at a late hour. Those who surprised Mrs. Spoltman were Mrs. M. Becker, Mrs. G. Grosch, Mrs. G. Christian, Mrs. J. Schnurr, Mrs. Nieb, Mrs. K. Kliepple, Mrs. Royamus, Mrs. J. Trempel, Mrs. Grodrian, Mrs. J. Kramer, Mrs. Ducket, Mrs. K. Becker, Mrs. F. Wiggands and Mrs. A. Orth.

Mr. and Mrs. Anthony Eckart celebrated their first wedding anniversary August 22, at their home on Howell street. Those present were Mr. and Mrs. Barney Hazzard, Mr. and Mrs. William Hazzard and son, Mrs. Anna Young and family, Mrs. Cora Carpenter and family, Mr. and Mrs. Philip Sours, Mr. and Mrs. Charles Hazzard and sons, Mr. and Mrs. Edward Hazzard and daughters, Mr. and Mrs. C. E. Claphan and family, Mr. and Mrs. Jacob Lumley and family, Mrs. Emma Huhn and family, Mr. and Mrs. Frank Gruber and family, Mr. and Mrs. L. Sexton and son, Mr. and Mrs. J. W. Wells and family, Mrs. Ida Peterson and Misses Florence Vollmer, Emma Eckart, Edith Eckart, Frances Medker and Messrs. Louis Koehl, Joe Crance, Elmer Hazzard, Henry Lamley and Gust Eckart.

* * *

Zurbuch—Conroy.

At St. Patrick's church at 9 o'clock this morning were celebrated the nuptials of Miss Mary Elizabeth Conroy, daughter of Mr. and Mrs. James J. Conroy, of Melita street and Mr. Joseph E. Zurbuch, son of Mr. and Mrs. George Zurbuch. A brother of the bride, Rev. T. M. Conroy, of Crawfordsville, officiated and Miss Genevieve Mungovan sang during the mass. The bride entered the church with her father, who gave her away. Miss Loretta Conroy, a sister of the bride, was bridesmaid, and Mr. Henry Rager was groomsman. The bride who is a sweet looking young woman, looked very pretty in her wedding costume. Her gown was a beautiful one, made with so much embroidery and lace insertion that the effect was that of a lace robe. The bride wore a white moire picture hat and carried a white prayerbook with ribbon marker trimmed with white sweet peas. Her only ornament was a diamond broach, a gift of the bridegroom. Miss Loretta Conroy's gown was a lavender pink embroidered batiste and she wore a large white hat trimmed with pink velvet and white ostrich plumes. Her bouquet was made of pink sweet peas. A large number of friends attended the church service. The wedding breakfast was served at the home of the bride's parents to relatives and a few friends to the number of forty. The bride's table was exceedingly pretty with its decoration of pink and white asters and pink sweetpeas. Garden flowers and ferns and smilax decorated the living room where the bride and groom received congratulations. At noon the bride and groom left on an eastern trip and will be away ten days. On their return Mr. and Mrs. Zurbuch will begin housekeeping in their own home at 2517 South Calhoun street. Mr. Zurbuch is a bill clerk at the Pennsylvania offices. Both bride and groom are well known young people of the south side and are active workers in St. Patrick's parish. Out of town guests at the wedding were Miss Bertha Munchof, of Anderson; Miss Katherine Conroy, of Richmond; James J. Conroy, jr., of Taylor, Texas, a brother of the bride; Miss Laura Fitzgerald, of Crawfordsville. For traveling the bride wore a new shade of blue cloth suit with lace ecru waist and hat of blue moire trimmed with a white breast and blue ribbon.

* * *

Kaiser—Buelow.

On Tuesday afternoon at 3 o'clock, Rev. C. H. Luehr, pastor of Zion's Lutheran church officiated at the wedding of Miss Dora Buelow and Mr. Christian D. E. Kaiser. The ceremony was performed at the parsonage. The bride is an attractive young woman employed as operator by the S. M. Foster Co., and resides at 2819 Thomas street. The groom makes his home with his mother, Mrs. Sophia Kaiser, 526 East Lewis street, and is employed as tool maker at the Fort Wayne Electric works. The couple enjoy a wide circle of friends in this city.

* * *

Riester—Rissmann.

Mrs. M. Rissman, 1030 Lake avenue, today announces the marriage of her daughter, Marie, to Mr. Leo B. Riester, also of this city. The ceremony took place August 16 at Sandusky, Ohio, and the wedding was celebrated at Crystal Rock, Cedar Point, after which the couple made a bridal tour to Cleveland, where the first of the honeymoon was spent. The young people made their plans and carried them out with great secrecy. In short they eloped and were quietly married and then notified the mother of the bride, who was much surprised, but ready to lay her blessing on the happy pair. Mr. Reister came here from Wheeling, W. Va., and is employed as a lithographer by the Fort Wayne Printing company.

RECIPES.

Apple Tapioca.

Cook half a cupful pearl tapioca in boiling water until transparent; add half teaspoonful salt and grated rind of one lemon, cover with tapioca, bake pies, fill cavities with sugar and juice of ne lemon, cover with tapioca, bake until apples are tender, adding one heaping teaspoonful butter before taking from oven.

Stewed Lima Beans.

Throw the beans into boiling unsalted water; boil forty minutes, drain. Slip each bean out of its hull, the same as you would slip an almond from its skin. Put them back into a saucepan with sufficient water to cover. Simmer gently fifteen minutes, season with salt, paper and butter. Serve.

Popular Skirt Model

BY MRS. JANE FORD.

5 SIZES 22 TO 30 WAIST

The princess type of dress, that is made in one piece, is undeniably smart, but the average woman still clings to the separate skirt and waist, for they give her greater variety for the amount of money expended.

The pattern for the skirt illustrated is cut in five sizes, and will fit women whose waist measure is between twenty-two and thirty inches.

To copy it for the average woman six and one-quarter yards of goods thirty-six inches wide, or four and seven-eighths yards forty-four inches in width will be needed.

For early autumn wear linen is probably the most popular fabric, and if a heavy quality is selected a skirt made from it could be worn until late in the season.

Materials such as serge, cheviot and cashmere are sufficiently light in weight to put on the first cool days, and one may continue to wear such garments through the winter months.

Any of the weaves sugggested will develop into this model, and, combining as it does the fashionable princess panel and deep straight plaited flounce, even an amateur dressmaker may be certain of completing a stylish and serviceable skirt.

A feature of the garment that cannot be too highly commented upon is the gored upper portion, that fits the hips snugly and closes at the back with an inverted box plait.

The first model of this character that was shown had this upper part cut circular, which allowed the goods to hang gracefully from the waist down, but it sagged over the hips, and this caused the plaits to hang out of line and gave the skirt an undesirable appearance.

The effective front panel and gores make sagging impossible, so if the skirt is carefully made it will be satisfactory.

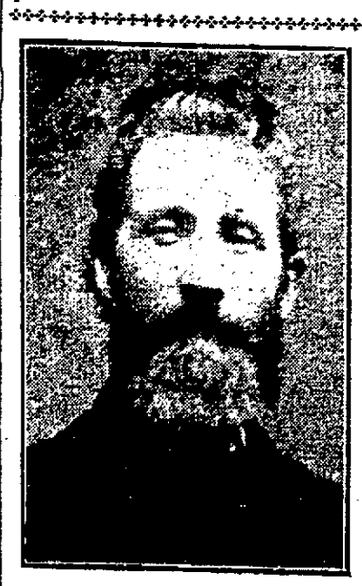
CELEBRATE THEIR GOLDEN WEDDING

Mr. and Mrs. Francis J. Kocks Reach Their Fiftieth Nuptial Anniversary—Ceremony at Church of the Precious Blood.



FRANCIS J. KOCKS.

MRS. CORA E. M. KOCKS.

With solemn yet joyous religious ceremony at the Church of the Precious Blood this morning at 8 o'clock, and with the rest of the day spent in social enjoyment receiving their friends, Mr. and Mrs. Francis Joseph Kocks, of 427 High street, celebrated their golden wedding anniversary. It is a day of great happiness to these old residents of the city. They have health and strength and means for comfort. Their marriage was one of the first to be celebrated in St. Mary's Catholic church and for the reason that for many years they were members of St. Mary's parish, today Mgr. J. H. Oechtering officiated at the nuptial mass with Reverends Hottenroth and Hummer assisting. Members of different Catholic choirs of the city contributed services in rendering the music for the occasion. Both Mr. and Mrs. Kocks were born in Germany, Mr. Kocks in Hanover in 1832 and Mrs. Kocks, in Oldenberg, in 1837. In early years of their lives Mr. and Mrs. Kocks emigrated to this country. Mrs. Kocks, whose maiden name was Cora Elizabeth Meyer had a long and tedious journey in a sail boat of seven weeks' length She came directly to Indiana as her grandparents, whose name was Menter, were then living near Decatur. From Toledo Mrs. Kocks made the trip by canal boat. In a few years she came to Fort Wayne where she met and married Mr. Kocks, who had come here in 1855. Mr. Kocks has been a worker in the furniture business until recent years. For many years he worked for Humphrey and Hurd and afterwards for the Pape furniture people. Nearly all of their wedded life has been spent in the home they now occupy and where today they are receiving their friends from 4 to 8 o'clock this evening. With Mr. and Mrs. Kocks are their children, Henry B., John B., Sister Mary Celestine, of Sheboygan, Wis., and Miss Anna Kocks. About eighty people have been invited to call. Garden flowers in yellow and white colors decorated the rooms and the church was decorated in yellow flowers and palms. A grandson, Frank Kocks, and a granddaughter, Miss Gertrude Kocks, who wore a yellow dress walked to the altar with the bride and groom. Miss Edith Kocks who was gowned in white, led the bridal procession. Both young girls wore wreaths of smilax in their hair. After the service the wedding party and nearest relatives were served a breakfast at the Kocks home. The pictures published today of Mr. and Mrs. Kocks were taken some years ago but are excellent likenesses of them.

Don't Be a Slave to Old-Fashioned Useless Customs

Baking bread at home is old-fashioned.

Twenty years ago, before the days of such bakeries as the Perfection, it might have been necessary to bake bread at home.

Now conditions are much changed.

The world has grown much better. Great strides have been made in the perfecting of all foods.

Baking has made greater progress than any other. Such scientific, healthful methods as the Perfection bakery now uses were unthought of years ago.

Perfection Bread is the result of years of study and research. It is perfect in nutrition; it is 100 per cent enjoyment. Bread as good as Perfection simply cannot be baked at home.

The proof is simple. Just buy a loaf and try it. You will relish it as much as your own baking because it comes to you clean. It is wrapped at the ovens.

Get it at your own dealer's.

PERFECTION BISCUIT CO.

IN THE THEATERS

NEW VAUDEVILLE BILL.

Airdome Offerings Prove Decidedly Entertaining.

At least three of the four new acts opening at the Majestic Airdome last night proved the best of their kind seen here this season, and that is saying considerable, for the open air theatre has had some very clever representatives from all classes of vaudeville this summer. Art Adair, the grotesque musical comique, was easily the hit of the show, and his work would stand out on any vaudeville possible to arrange. His comedy is effervescent and original and his music nothing if not novel. Rice and Rice and Mr. and Mrs. Nello were even competitors for second place, while Boyd and Allen made a very credible finish in fourth place. The acrobatics and tumbling of the Rice Brothers is up to standard, and the work of the Nellos, the inconveniences of the open air stage considered, is truly remarkable. As usual the animated pictures and illustrated songs contributed to the bill.

"THE COWBOY AND THE THIEF."

Despite the fact that the popular-priced circuit has been over run with western plays, those dealing with scenes and actions of this locality that have real merit serve to attract the large audiences. One of the better type of western plays that will be seen here this season, is "The Cowboy and The Thief," Rowland and Clifford's new offering for this season.

The play is described as a pretty, simple and well told story of the western life, and it has the advantage over most plays of this type in that it was written by a western man, J. Wendal Davis, who for some time was city editor of a daily newspaper in Laramie, Wyo. It goes without saying that Mr. Davis knows his people and his characters therefore must be true to life.

"The Cowboy and The Thief" will be the attraction at the Majestic Friday and Saturday of this week with a matinee on Saturday.

THE LYRIC.

A large number of people were turned away at the Lyric last night; the change of policy of this house to vaudeville has proven as popular as the former picture proposition. The acts are all on the comedy order and the pictures and illustrated songs all aid in making an excellent one and one-half hours' entertainment, well worth 10 cents. The pictures will be changed four times a week and only the very latest subjects will be shown. Matinees daily at 2:45 and evening performances at 7:15 and 9:15. The doors will open at 2:30 and 7:30.

You can find just the house you want by using the Sentinel "Want" colums. Don't waste time by running around looking for it. Advertise and get it. ½c per word.

PCW

PIERCE'S CANDY WAFERS are the Latest and Most Scientific Remedy for the Treatment and CURE of CONSTIPATION. They look like CANDY, taste like CANDY and act like MAGIC. Greatest Sporting Event in All History in Progress This Week

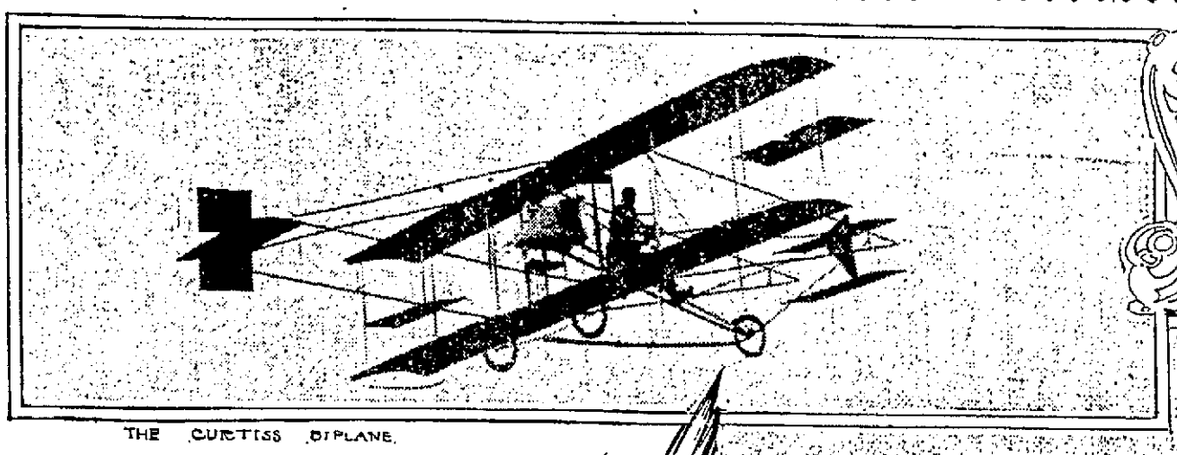
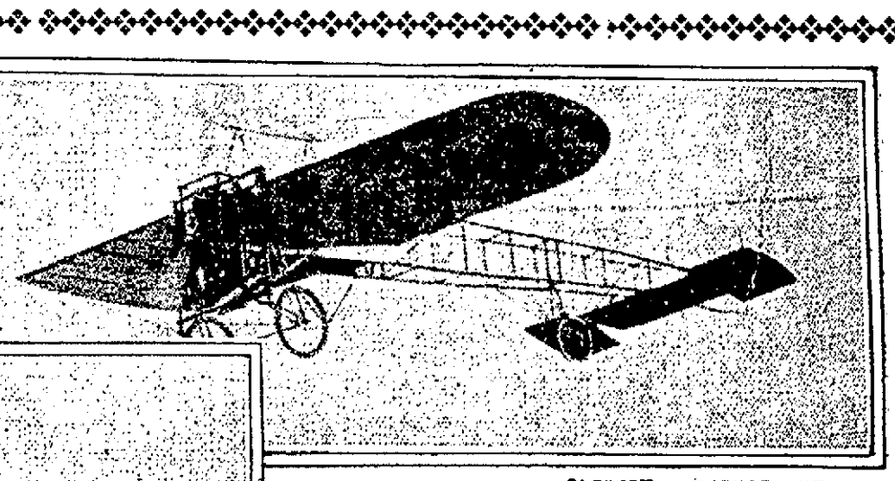
Historic City of Rheims to be Arena for the Most Interesting Sporting Event of Modern Times—Forty-Four Machines in Competition.

Chief Event to be Race for International Trophy, in Which Pilots of Five Countries Will Take Part—America's Representative a Favorite.



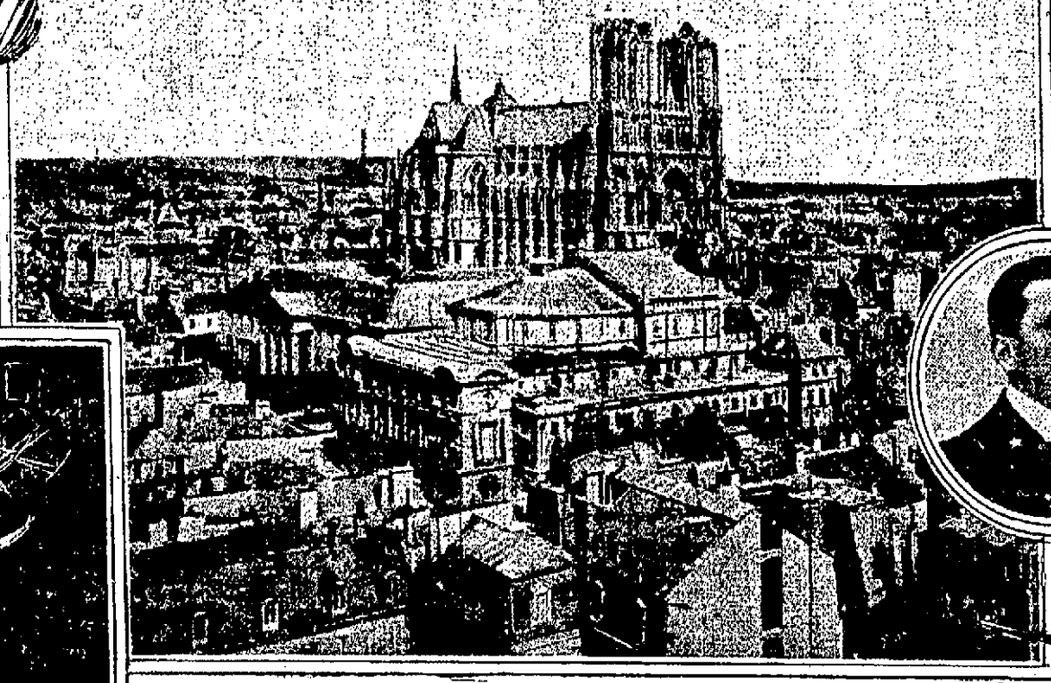
THE CURTISS BIPLANE.



BLERIOT MONOPLANE.

GLENN H CURTISS

COUPE INTERNATIONALE D'AVIATION



GENERAL VIEW OF RHEIMS

M. LOUIS DELAGRANGE

M. SANTOS DUMONT

LIEUT CALDERARA FROM ILLUSTRAZIONE ITALIANA

M. HENRI ROUGIER.

M. MAURICE GUFFROY

At the historic city of Rheims, where for centuries France crowned her kings, the foremost aviators of the world, during this week, are competing for the title of king of the air.

It will be the first grand tournament in the realm of human flight and a signal to the world that the period of practical air navigation is not far away.

Excepting the Wright brothers, who, however, are represented by five of their aeroplanes, all of the conspicuous aviators of Europe and America are taking part. The contests, which began Monday and last for one week, are so arranged as to give each type of machine opportunity to display any particular superiority it may have, and prizes sufficiently attractive are offered to inspire each aviator to do his best.

New world records will doubtless be made, undreamed of feats may be performed before the end of the week, but of greater importance is the assembling at one point of all these masters of the air in order that the world may understand more clearly what advancement has been made in human flight.

The list of entries is little less than a list of all the men who have achieved notable results with flying machines. Most of them have been on the ground for a week or more getting their machines warmed up for the final struggle, and already the old cathedral city is unable to find shelter for the large number of strangers who have arrived to witness the interesting events.

There are to be seven distinct contests for which large cash prizes and trophies have been offered by the city of Rheims and various business interests, but the event in which aviators and the world generally is most keenly interested is the race for the international aviation trophy, which will take place Saturday, August 28.

World Championship at Stake.

This is to be a speed contest, the trophy to go to the aviator who covers twenty kilometres (about twelve and a half miles) in the shortest time. The course is a closed circuit of ten kilometres and each competitor will fly twice around, starting and stopping at a given point.

The winner, besides gaining the title of champion aviator of the world, will receive $5,000 in cash and a beautiful trophy of equal value. France, America, England, Austria and Italy will each be represented in the competition. France will have three competitors and each of the other countries named will have one. Who the French contestants are to be cannot be known until today, when an elimination race will be held to determine the successful entrants.

Under the rules of the international contest each country is limited to three representatives, and as France is much further advanced in aviation than any of the other countries, thirteen prominent pilots came forward as aspirants for the international trophy. For this reason the elimination race became necessary.

All told, forty-four machines have been entered for the week's program. Of these four are entered for the international race alone. Besides the contests for heavier than air machines there are prizes and trophies for dirigible and spherical balloons. These events, however, will attract less attention than the competition among the flying machines.

Good weather alone is now necessary to make the great tournament the most interesting sporting event of modern times. The race course—or aerodome, as it is called in aeronautic parlance—is situated on the Betheny plains, in the outskirts of Rheims, and is set in a landscape of rare beauty.

Rheims is the center of the champagne country, and on all sides are the green slopes of vine clad hills, in many places crowned with strong forts built generations ago. Rheims itself, with its famous cathedral, for historic interest is one of the most famous cities in France, and was a town of much importance even under the Romans. There are still many imposing Roman monuments to be seen in the city and its suburbs, the most important one being the Porte de Mars, a triple gateway, or triumphal arch, erected soon after the beginning of the Christian era.

For many centuries the kings of France were crowned in the old cathedral, and tourists are shown many interesting places in connection with these ancient ceremonies. It was at Rheims where Joan of Arc, in 1429, after driving the English forces from the city, led by Charles VII to the old cathedral, and stood by his side while the crown was placed upon his head.

Famous as a Battle Ground.

On the very plains where the flying machine races will take place 150,000 troops were marshalled in review before the Tsar of Russia in 1901, and in the early periods of European history many hard battles were fought there. Now it is to become the world's first battle ground in the conquest of the air.

The city has a population of about 110,000, with several large hotels, but more than a week ago every inch of spare shelter had been engaged, and those in charge of the aviation events were at a loss to know how they were to provide accommodations for the thousands who were still to come.

So widespread is the interest in human flight throughout Europe that great crowds have flocked to the old town in advance of the first race, and in anticipation of the large attendance the grand stand space has been doubled. Special boxes have been built for the president of the French republic and other distinguished persons who will be present, and elaborate provision has been made for the comfort and convenience of all who attend.

Large dining halls and cafes are so arranged that spectators may sit at the tables and all the time have a clear view of the race course. Ample provision is made for lighting the tribunes and the grounds in case it shall be necessary to continue flights after sunset.

Telephone and telegraph wires are installed in such a way that every point of the flying course may have immediate communication with the judges' quarters, the hospital and machine shops, and provision is made for representatives of the press to send bulletins to all points of Europe and to make direct connections with cable stations.

Watching the Weather.

At various points throughout the city signals will be hoisted on lofty towers to inform the public about the weather conditions at the aerodrome. A certain signal will indicate good weather and immediate flights; another will show that all contests are off until a certain time, and still another will inform the public that conditions are uncertain.

The aerodrome proper is 2,750 yards wide and extends 4,125 yards on one side and 1,650 on the other, making a circuit of about 11,000 yards, or six and one-fifth miles. The four angles of the course are marked by tall derricks, while the great grand stands rise in tiers on a point overlooking the entire field. The private boxes in the grand stands have all been sold, many of them bringing from $50 to $300 for the week. Near the grand stands is a large enclosure capable of accommodating 50,000 persons, and the admission to this space is one franc.

Not far from the grand stands and in full view of them are the long rows of sheds, in which the various flying machines are housed. A little to one side are the huge tents for the dirigible balloons, and in another part of the ground are the tents and facilities for inflating the spherical balloons. Many of the aeroplane sheds have been equipped with small machine shops and living quarters, with sleeping rooms and dining room, where the pilot and his assistants may remain at all times close to the machines, if desired.

Aside from the valuable trophies, cash prizes amounting to 400,000 francs, or $80,000, have been offered by local interests. The city of Rheims gives one prize of 100,000 francs, and the various wine interests of the locality have offered several others. Many of the aviators who have gained world fame by their recent flights will contest for each of the prizes, while some of them have entered for only one. Among those who will be conspicuous in most of the contests are Bleriot, Latham, Delegrange, Sommer, Paulham, Farman, Tissandier and Curtiss.

What the Contests Are.

The various events comprise contests for speed, altitude, endurance and the carrying of passengers. One of the events in which a large number of aviators were expected to take part was the Grand Prix de la Champagne and de la Ville de Rheims, which took place Monday.

According to a recent announcement of the Aero Club of France, all contestants at the Rheims meeting will be allowed at the same time to compete for the Michelin distance prize, of $4,000, which was last winter won by Mr. Wilbur Wright in a flight of 76.38 miles. This is a prize to be given annually for eight years to the aviator making the greatest distance during the year.

While neither of the Wright brothers will actually participate in contests, at least five of their machines are there, operated by their pupils or persons who have recently purchased them. One of the most interesting features of the meeting, especially to experts, will be the rivalry among the various types of bi-planes. The machines of this type are the Wright, Voisin and Herring-Curtiss, and each has to its credit some very excellent records.

Until the monoplane type of flying machine, under the guidance of MM. Bleriot and Latham, began making notable records for speed and distance, less than two months ago, the Wright bi-plane was regarded as far superior to any other model of heavier than air machine ever built. Almost simultaneously with the appearance of the monoplane the Herring-Curtiss aeroplane began making notable flights near New York and several aviators began crowding the world records of the Wrights, in machines of the Voisin model, one very good flight being made in an old aeroplane formerly used by Mr. Henry Farman.

These performances inspired very lively interest among builders and experts, and now all of these machines and the record making pilots are to come together on the Rheims course to settle the question of supremacy. No doubt most of the devotees are giving odds on the monoplanes, so far as speed is concerned. M. Bleriot's cross-channel flight and flights prior to that clearly indicate that his type of machine is capable of flying faster than any bi-planes have flown, but results may be different at Rheims.

Many of the bi-plane pilots have made special preparation to increase the speed of their machines to meet the expected feats of their single plane competitors. Some have built new machines, most of them have installed stronger engines and all who are to participate in the international contest have been practicing with the single purpose of flying faster than they ever flew before.

Personnel of the Contestants.

Many of those who will compete were well known to the world long before heavier than air machines became popular. Santos-Dumont's name was known throughout the civilized world as an aeronaut several years before active experiments with flying machines began. He was one of the pioneer aeronauts in the building and operation of steerable balloons, and has only recently given his attention to flying machines.

M. Paul Tissandier is the son of a famous aeronaut of France and was the first man to be taught how to fly a Wright aeroplane.

M. Rene Gasnier is a wealthy Parisan and became interested in heavier than air machines less than one year ago. Prior to that he was an enthusiastic aeronaut and conspicuous in all aeronaut sports in France. In 1907 he was one of the French contestants in the international balloon race from St. Louis. M. Alfred Le Blanc, another recent convert to the heavier than air type of craft, was also a French pilot in the St. Louis contest, and landed a short distance from the winning balloon, the Pommern, on the coast of New Jersey.

Lieutenant Calderara is an Italian and also one of Mr. Wilbur Wright's early pupils. M. Leon Delagrange was a well known aeronaut and automobilist several years ago and one of the first men in Europe to take up aviation.

M. Robert Esnault Pelterie is an inventor and motor constructor of considerable reputation in Europe, and has been building various types of flying machines for several years.

M. Louis Bleriot, before entering the realm of aviation, was an inventor of automobile attachments, and made a fortune out of some of his patents. M. Louis Schreck, Louis Paulhan, F. de Rue and Maurice Geoffroy are young aviators who have only recently become known to the flying world.

Mr. Glenn H. Curtiss, the American representative, is thirty-seven years old and a resident of Hammondsport, N. Y. He became interested in aviation through the building of gasolene motors for other aeronauts. When a very young man he began building gasolene engines, and they proved so satisfactory for aeronautical work that he became acquainted with most of the dirigible balloon men in the country.

When active experiments began with aeroplanes in this country Professor Alexander Graham Bell organized the National Aerial Experiment association, and the first work of the association was done at Mr. Curtiss' place. The aeroplanes White Wings and Silver Dart were built there, and Mr. Curtiss became very skilful as an aviator. Last spring a group of New York capitalists organized the Herring-Curtiss company, and the building of aeroplanes combining the models of the Herring and Curtiss type began.

Mr. Curtiss' flights at Morris park and later at Mineola, while demonstrating one of the new machines sold to the Aeronautic society, brought him into greater prominence as an aviator, and he was selected by the Aero club of America to represent this country in the international contest.

Motors Used in the Contest.

As it is generally conceded by all inventors and aviators that the success of a flying machine depends materially upon the endurance and good behavior of its gasolene engine, much interest attaches to the various types of motor to be used in the Rheims tournament.

The Bleriot monoplane, because of its recent flight across the English channel will doubtless attract more attention than many of the other machines, and especially will its engine be carefully studied by all experts. There will be five Beriot machines of different sizes entered in the week's races, and each of them will be equipped with the Anzani motor.

It is reported that M. Bleriot has recently obtained a monopoly of this motor in France. He has frequently stated since the channel flight that his success was largely due to the superiority of the engine, and that he would use no other until something far superior to present models shall be produced.

The Anzani is a simple type of engine with three cylinders only, the central one being vertical and the two others to left and right being inclined at an angle of sixty degrees. It is air cooled, and thus dispenses with water jacket piping, tank, radiator and the usual supply of water. The carburetor is a well known type used on automobiles, and its ignition is of the make and break type, with current obtained from storage batteries.

In strong contrast to the Anzani is the Antoinette motor, which will be used on the three monoplanes to be operated by M. Hubert Latham. Although the Antoinette failed to carry M. Latham entirely across the English channel, it is the motor most commonly used by European aviators, and probably has driven more flying machines than any other motor in existence.

It has eight cylinders, in two lines of four, each one inclined forty-five degrees from the vertical. The use of the eight cylinders allows the heavy flywheel ordinarily employed on automobiles to be dispensed with and also assures an evenness of running not easily obtained with a lesser number of cylinders. Even temperature is maintained when running by circulation of water around the cylinders. The great quantity of water necessary for a long flight adds considerably to the weight.

Mr. Henry Farman, who has entered two machines, will use two widely differing types of motor. On one machine he will have a four cylinder Viinus, and on the other an original seven cylinder rotary engine, known as the Gnome. In this, instead of the cylinders being stationary and the crankshaft revolving under the impulse of the explosions on the piston heads, the cylinders revolve and the main shaft is motionless.

Robert Esnault Pelterie, who has entered three of his monoplanes, has equipped them with his seven cylinder, all cooled engine, the cylinders being mounted on the upper half of a circular crank case.

M. Jean Gobron, who has entered a Voisin biplane, will use an ordinary eight cylinder Gobron motor, specially designed for aviation work. It is water cooled and develops fifty horse power.

The Wright biplanes, five of which have been entered in the various contests, will all have the Wright motor, built by the Ohio men in their Dayton shop. When Wilbur Wright first appeared in France with his flying machine, more than a year ago, experts discovered much to amuse them in the crude appearance of the motor. When Mr. Wright began flying, however, the motor worked quite as well as the more artistic models of the European builders and the brothers declare they have as yet found no motor that suited them better than their own. It is a simple four cylinder, water cooled engine, having a few distinctive features, such as the use of direct injection of the fuel in place of a carburetor, together with automatic inlet valves.

Mr. Glen H. Curtiss, America's representative, is using an eight cylinder, air cooled motor, built in the Curtiss motor works at Hammondsport, N. Y. It is a more powerful engine than Mr. Curtiss has ever before employed in his aeroplanes and it was his expectation that it would give him a speed of fifty miles an hour or better. It was his original intention to take a four cylinder Curtiss engine, such as he used in flights at Mineola, but after hearing of the great speed developed by the French monoplanes he decided that the more powerful engine was necessary.

Despair and Despondency

No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued.

Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good." It is non-secret, non-alcoholic and has a record of forty years of cures. ASK YOUR NEIGHBORS. They probably know of some of its many cures.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing *only*, and he will send you a *free* copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to date edition, in paper covers. In handsome cloth-binding, 31 stamps. Address Dr. R.V. Pierce, Buffalo, N.Y.

SHAKE INTO YOUR SHOES.

Allen's Foot-Ease, a powder. Relieves painful, smarting, nervous feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous, swollen, tired, aching feet. Try it today. Sold by all Druggists and Shoe Stores. By mail for 25c. in stamps. Don't accept any substitute. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

BECOMING A MOTHER

Is an ordeal which all women approach with dread, for nothing compares to the pain of child-birth. The thought of the suffering in store for her robs the expectant mother of pleasant anticipations.

Thousands of women have found the use of **Mother's Friend** robs confinement of much pain and insures safety to life of mother and child. This liniment is a God-send to women at the critical time. Not only does **Mother's Friend** carry women safely through the perils of child-birth, but it prepares the system for the coming event, relieves "morning sickness," and other discomforts.

Sold by druggists at $1.00. Book of valuable information mailed free.

DOUBT DISAPPEARS

No One in Fort Wayne Who Has a Bad Back Can Ignore This Double Proof.

Does your back ever ache?
Have you suspected your kidneys?
Backache is kidney ache.
With it comes dizzy spells,
Sleepless nights, tried, dull days,
Distressing urinary disorders.
Cure the kidneys to cure it all.
Doan's Kidney Pills bring quick relief.
Bring thorough, lasting cures.
You have read Fort Wayne proof.
Read now the Fort Wayne sequel.
Renewed testimony; tested by time.

Mrs. Mary Gerder, 901 Archer Ave., Fort Wayne, Ind., says: "I still think as well of Doan's Kidney Pills as when I publicly endorsed them in 1897. The facts which I made known in that statement were as follows: "I suffered for nine years from kidney complaint and finally became so run down that I could hardly do my housework. My back ached constantly and I was so weak and lame that I could not stoop. When I was advised to try Doan's Kidney Pills, I procured a box at Meyer Bros. Co.'s drug store and had taken them only a short time when I found that they were the remedy I needed. In a few days the backache had disappeared and my strength returned. I think that every kidney sufferer should give Doan's Kidney Pills a trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

FARMERS PURCHASE AUTOS AT RATE OF 20 A DAY

Some Signs That Prosperity is Beginning to Hit 'Er Up Right.

Indianapolis, Ind., Aug. 24.—Bumper crops, a winter of steady business and general prosperity are seen in a few significant facts from the office of Secretary of State Fred A. Sims. Through the entire summer an average of forty automobiles a day have been registered; a half of these belonged to farmers. Nearly every day notice is filed of the increase of capital stock in some Indiana concern.

"Put these together," said Mr. Sims, "and the conclusion is inevitable; we are starting a season of prosperity."

The unusual number of farmers buying automobiles has been the cause of remark the whole state over, and wise ones have pointed out that it means crops, and good ones, too. The farmer, it is argued, is the best judge of the prospects, and the farmer is also the last one to spend money when he sees none coming in.

The increase in capital stock has been unusual for this time of the year.

Additions Increase Stock.

"Corporations," said Mr. Sims, "are generally looking askance at the future, hoping but not trusting. The summer is the dull time. But this year man after man has come in and remarked casually that the stock has been increased to build on an addition; or that money is needed to make an active campaign for more business. These things are not done in dull times."

Another significant fact, though not along the lines of prosperity, noted by Mr. Sims is the large number of social clubs springing up throughout the state. With hardly an exception clubs have incorporated with the purpose of "attaining intellectual improvement and social intercourse," and hardly one does not also stipulate that a clubhouse shall be maintained.

With hardly an exception these clubs are being established in the counties invaded during the campaign of the Anti-Saloon league.

"Perhaps some of them are really after intellectual enlightenment," said Mr. Sims, "but the most of them are probably more sincerely interested in their thirsts."

Mr. Sims predicts that the incorporating of the clubs has just commenced, and that the number will be far greater this winter.

TWENTY-FIVE YEARS AGO

What the Sentinel Had to Say About Persons and Events Twenty-Five Years Ago.

Capt. George Conkling Richards will be doorkeeper at the Academy.

Frequent complaints are made of the insufficient number of electric lights about the city.

Dr. J. M. Dinnen has leased office rooms in Joe Mommer's building and will occupy them shortly.

The street car line is doing a great business during the soldiers' reunion, and every car is out for service on the west end line.

It is said that twenty-three saloonkeepers here sell booze without a license. The deputy prosecutor has the names of the offenders.

The residents of West Berry street are very angry because the reunion parade was switched off that thoroughfare by the program committee.

Rt. Rev. Bishop Dwenger, of the diocese of Fort Wayne, will celebrate the twenty-fifth anniversary of his ordination to the priesthood September 24

Fred Richards, the condemned murderer of Amos Backensto, will not talk to reporters. To Sheriff Schiefer he simply said: "They've downed me."

There was a democratic pole-raising in St. Joe township last night. Patrick Ryan, W. S. O'Rourke, J. M. Robinson and John H. Brannan made splendid speeches.

Marriage licenses have been issued to John Mikle and Mary M. Lane, Charles H. Ball and Della Cotant, William Barrett and Rachel Barrett, H. C. Devendorf and Alberta Fordney.

Five thousand veteran soldiers are guests of Fort Wayne in the encampment reunion at Camp Allen, on the fair grounds. They were welcomed to Fort Wayne by Hon. Franklin P. Randall, the war mayor of the city. The grand parade was reviewed by Gen. John A. Koontz, commander-in-chief of the Grand Army of the Republic, from the balcony of the Aveline house.

NO MORE GRAY HAIR

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit. The present generation has the advantage of the past in that it can get a ready to use preparation called Wyeth's Sage and Sulphur. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers, and it can be bought for 50 cents and $1 a bottle at almost any first-class drug store, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

LATEST PORTRAIT OF THE CZAR OF RUSSIA
FROM THE STRAND

Great interest was taken in England in the recent visit of the Czar of Russia and his family. He arrived at Cowes on the Standart, the Russian royal yacht, which was escorted by three British cruisers of the Dreadnaught type. At Cowes the visitors were greeted by King Edward, who had gone to meet them on the British royal yacht, the Victoria and Albert.

Unusual precautions for the safety of the royal guests were taken at Cowes. The Standart was surrounded by a guard of five British naval steam launches, each towing a cutter, and any unauthorized boat approaching the royal yacht was promptly warned away.

Northern Indiana News and Gossip

Kendallville's assessed valuation is $2,273,395.

Hartford City now claims a population of 6,000.

Franklin F. Grim, rural mail carrier at Lagrange, is dead.

Mrs. Plilip Axel is dead at Wolcottville from dropsy.

The home of John Joy, at Wabash, was destroyed by fire Monday.

Mrs. H. H. Hoisington, formerly of Auburn, is dead at Indianapolis.

The German Baptists, or Dunkards, will establish a church at Winchester.

Members of the Fifth Indiana battery will hold their reunion at Columbia City, October 5.

The large barn of Thomas Rayl, near Monroe, was burned with its contents, including one horse.

County commissioners at Valparaiso are asking an appropriation of $11,500 with which to buy voting machines.

Miss Gladys Wilson, of Wabash, has been appointed teacher of German and Latin in the high school at Coldwater, Mich.

Thieves looted the Lutheran parsonage at Columbia City while the pastor, Rev. L. L. Shaffer, was away on his vacation.

Rollo Mock, a Bluffton young man, who has been camping along the Wabash river near Murray, has been taken home suffering with typhoid fever.

"Grandma" McConnell, 87 years of age and blind, walked into an open cellarway at Decatur and sustained frightful injuries from which she may not recover.

William Killworth, 30 years of age, has been adjudged insane at Churubusco. His mental affliction is believed to have resulted from a sunstroke in Chicago.

Nerr McKillipp and Miss Ethel Gilmore, of Muncie, have just let friends into the secret that a year ago, while enjoying a summer outing at St. Joseph, Mich., they slipped quietly away from friends and were wedded.

James Touhey, of Decatur, a blind man who many months ago fell into an open sidewalk grating on the street, necessitating long confinement in the hospital, has sued the city of Decatur for $10,000 damages.

It has developed that Taylor university at Upland (formerly the Fort Wayne M. E. college) has been willed to a fruit farmer in California by C. E. Stebbins, who was recently found dead upon the streets at Austin, Texas.

While the children of Mr. and Mrs. David Miller, three miles east of Huntington, were at play Monday, the little son accidentally thrust the prong of a pitchfork into one of the eyes of his seven-year-old sister. The sight of the eye is probably destroyed.

George W. Richard and Walter Suman, of Portland, who for the past few months have been devoting their spare time and energy to the building of an aeroplane according to their own idea, expect to have their machine ready for a trial test within the next few weeks.

Dr. Daniel Palmer is dead at Warren, where he had practiced medicine for many years. He cast his first presidential vote for Henry Clay, and is said to have been the oldest Master Mason in the state, having been a member of the Masonic fraternity fifty-eight years.

At the seventeenth annual reunion of old soldiers held at Mt. Pisgah Saturday, Captain John H. Caton was re-elected president for the ensuing year, William DeWitt was chosen vice president; Elijah Forker treasurer, and William Rasler secretary. The next reunion will be held at the same place August 21, 1910. It is estimated that 5000 people were present.

The skull of a mastodon was unearthed from the Adam Hostettler ditch on the farm of D. H. Mast, in Lagrange county, by workmen employed by C. A. Walb, Lagrange drainage contractor, and the discovery has caused quite a sensation. The skull measures 26 inches between the eyeholes ind a hole from which a tusk protruded is several inches in diameter.

Rudolph Helbig, 80 years of age, committed suicide in Union township, Whitley county, Monday, hanging himself by a cloeline to one of the rafters in an outbuilding on his farm. The lifeless body was discovered by his aged wife, who succeeded in tearing it down and then collapsed. Despondency due to blindness from cataracts and the loss of three of his children by death in less than two years is believed to have been the cause for the suicide.

When the funeral cortege of Charles Crary at Goshen reached the cemetery Monday, it was met by C. B. Stiver, an undertaker, and his attorney and several policemen, who prevented the coffin being lowered into the grave on the contention that Crary six years ago entered into a contract with Stiver to have his body cremated in Chicago. Crary died in Dallas, Tex., and an uncle brought the body to Goshen for burial. The corpse will be held in a receiving vault until the courts determine the controversy.

After wandering for some time, Holland Clary, of Wabash, who disappeared on the evening set for his wedding to Miss Isa Kirtlan after the guests and officiating clergyman had assembled, has returned to his home an invalid. He says he has no recollection of leaving and, it is said, is suffering from mental illness which will be only temporary. Miss Kirtlan, his bride, who refused to dismiss her guests for three hours after the appointed time for the wedding, in firm conviction that he would appear, has forgiven Clary, it is understood, but whether there will be a wedding is not known.

Miss Jennie Pfefferl, of Auburn, is shortly to wed R. M. Bruning, of New Orleans, as the outcome of an unusual romance. Some years ago while in the employ of an Auburn carriage concern, Miss Pfefferl wrote a nom de plume, "Jennie Wren," on a catalogue which she was mailing for the company to Mr. Bruning in New Orleans. "Jennie Wren" was the nick-name given Miss Pfefferl while she attended a business college in Fort Wayne, and her postoffice box at Auburn served to enable letters written by Mr. Bruning to reach her. Finally she disclosed her true name to the young man. Love-making by letter followed, and the engagement is the outcome.

Hurry Ends in Indigestion

Use your teeth on your food or your stomach will suffer. Quick lunches, hurried eating, bolting food, are sure to end, sooner or later, in some form of indigestion, more or less troublesome.

Beecham's Pills

quickly relieve the distress caused by hurried eating. They act directly on the stomach nerves and actually help the food to digest and assimilate. They are particularly good for nervous dyspepsia, bloating, hiccoughs, bitter taste in the mouth, and flatulence. With reasonable care in eating, Beecham's Pills will soon

SPECIAL SALE ON

Ruud Heaters

AN UNUSUAL OCCURRENCE

STANDARD RUUD INSTANTANEOUS WATER HEATERS, the kind that automatically turn the gas on and off as water is drawn in various parts of the building, have always been sold at a fixed standard price. A price war between the Ruud Manufacturing Co. and one or two of its competitors has resulted in knocking prices to pieces.

Any one contemplating the purchase of a Ruud Heater will profit by buying it now for future use.

The new price, which, of course, will only be a temporary one, covers the quantity we have purchased at this figure. Connected to water line, ready for use, prices will be as follows:

No. 3. Capacity, 3 gallons of hot water per minute.....$70.00
No. 4. Capacity 4 gallons of hot water per minute.....$80.00

The above special price will only prevail for a limited time.

Indiana Lighting Co.

POE NEWS.

[Sentinel Correspondence.]

Poe, Ind., Aug. 24.—Mr. and Mrs. John Wilhelm, accompanied by Miss Ethel Snider, went to Cleveland, Ohio, Saturday for a few days' visit with friends, returning home Monday evening.

Mr. and Mrs. Minor Hoover, Mr. and Mrs. D. M. Fonner and foster daughter, Miss Hazel and Master Wilda Oberlin spent Friday fishing in the St. Mary's river, near the Fonner homestead.

Mr. and Mrs. D. M. Fonner, of near Ossian, spent last Wednesday visiting the Poe, Antioch and Bethel cemeteries.

Will Fuhrman is sick at his home with a severe attack of typhoid fever. The services of a trained nurse had been procured Saturday, but an error in administering the medicine Sunday evening which came near proving fatal, resulted in her dismissal at once. Doctors Mercer and Smith were hurriedly called in consultation and the patient was relieved. The doctors met in consultation again Monday morning.

Mrs. G. A. Morton is slowly convalescing and is able to be up some.

John Fuhrman is having extensive improvements made on his house, the carpenters having commenced the work last week.

A CLOSE SHAVE

Many of Them Happening Every Day But Soon Forgotten.

Close shaves would be of more frequent occurrence but for the tender faces of many men, which will not permit of shaving often. Heretofore, nothing has been said in these columns about poslam, a new skin discovery, in connection with its use after shaving. Its publicity and sales have been confined almost exclusively to its remarkable properties as an eczema cure; it stops the itching at once and cures the worst cases in a few days. While the application of poslam after shaving is one of its minor uses, such as for pimples, the complexion, etc., shavers will find it a revelation, as it does for abrasions, roughness, and severe scrapings what it does for all manner of skin difficulties—heals and cures in a few hours. It is the only article possessing real antiseptic and curative value that has ever been exploited for this purpose, and will sooth and tone up the skin as no toilet preparation could possibly do.

Poslam can be had for fifty cents at any reliable druggist's, particularly Meyer Brothers, who make a specialty of it. Or the Emergency Laboratories, No. 32 West 25th Street, New York City, will send a trial supply free by mail to any one who will write for it. This is sufficient to show results in 24 hours.

HAY FEVER TIME

We are still preparing Mr. C. S. Bash's Remedy for Hay Fever. This has been so successful in the past that we can recommend it to every sufferer from Hay Fever.

THE SHOP AND RAILROAD NEWS

FRANK BEALLS ADVANCED.

Fort Wayne Man in Responsible Position in West.

Frank D. Bealls has been appointed night chief train dispatcher of the Salt Lake City division of the Denver and Rio Grande road. Mr. Bealls went to that road as trainmaster's clerk less than two years ago and has had two or three promotions since. He was connected with the Nickel Plate eight or ten years, commencing service there as a telegraph operator out on the line and completing it as clerk to Trainmaster E. S. Kirby. He obtained a leave of absence to go west on a pleasure trip and while in Salt Lake City was offered and accepted a position with the D. & R. G.

SEEKING LABOR DAY SPEAKERS.

Committee Makes Effort to Get Some Good Ones.

Speakers for the Labor day celebration, which will be held at Robison park, was the chief feature of last evening's meeting of the Federation of Labor. All the arrangements for the big event, except the selection of the speakers, have been made and at the meeting last night the secretary of the Federation was instructed to communicate with Prof. Vincent Howard, of Chicago university; Miss Jane Addams, of Chicago, the settlement worker of Hull house, and D. L. Kennedy, of Indianapolis, in the effort to get their services for that day. It is believed that all three of these prominent speakers will accept the invitation. The Robison park managers will advertise the meeting with characteristic energy and effectiveness and a big crowd from the surrounding country is assured. The Federation has been asked to send a delegate to the meeting at South Bend of the Indiana State Federation on September 25 and the request will probably be complied with. The Federation last night placed the stamp of disapproval upon the moving pictures entitled "The Right to Labor," alleging that they had a tendency to prejudice the minds of the witnesses against union labor. The matter was placed in the hands of a committee, with instructions to ask the moving picture theaters not to display these pictures.

BIG CLASS OF APPLICANTS.

B. R. T. Will Add Seventy-five to Membership.

Fort Wayne lodge, No. 136, Brotherhood of Railway Trainmen, expects to add seventy-five names to its membership rolls September 5, 6 and 7. Twenty-four applications were acted upon at the meeting last Sunday and forty-one were accepted at a previous meeting, making sixty-five applicants already enrolled, with another meeting to hear from. Most of the applicants will be initiated at the meeting on Sunday, September 5, and those who are unable to ge to that meeting on account of being out on the road, will be initiated at the special meetings Monday and Tuesday evenings. The local lodge has been advised that one of the grand officers, possibly Assistant Grand President T. R. Dodge, will be here to attend the Sunday meeting. No. 136 is the largest brotherhood lodge in the state.

SPECIAL FOR THE FAIR.

Nickel Plate to Run an Excursion Here Then.

The Central Traffic association refused to grant a special rate on the railways running into Fort Wayne during the Allen county fair week, but the Nickel Plate has decided to run a line excursion and make a special rate to Fort Wayne on that occasion. Wednesday will be Nickel Plate day at the fair and the company expects to bring in 1,200 people from the towns along that line west of Fort Wayne. The excursion train will start from Hammond and a rate satisfactory to patrons will be made.

SOME CLERKS PROMOTED.

The transfer of Vernon L. Tannehill from the shipping clerks office at the Fort Wayne Electric works to the auditing department to serve as bill clerk, mentioned by the Sentinel a few days ago, has been followed by the promotion of three worthy young men and the hiring of another. Adam Backman has taken the position vacated by Mr. Tannehill and in turn has been succeeded in the position in the purchasing department by Walter Wyman who is succeeded by Otto Doebler. The new man's name has not yet been announced.

KILLED ON HIS FIRST TRIP.

A. L. Ackerman was fatally injured Friday morning on his first trip out on the Wabash as a brakeman. While his train was doing some switching at Homer, near Decatur, he fell between two cars and both legs were crushed. Before he could be taken to the hospital he died from loss of blood and shock. Ackerman had been in the grocery business at Decatur before entering the employ of the Wabash company.

WILL GO WEST TO LIVE.

W. E. Duglay, whose health has been poor for some weeks, resigned a position as lamp trimmer at the electrical department of the Pennsylvania shops yesterday and will go to Colorado, where he hopes to enjoy better health. He will be accompanied there by J. W. Botts, a lineman at the same plant, who has resigned. Mr. Botts formerly resided in Colorado.

SUPT. RAGER VISITS CITY.

Supt. Rager, of the United States mail service, arrived in the city last night and inspected the department at the depots. He left this morning for Chicago. Supt. Rager is of the opinion that track elevation will not reach a point where it will be necessary to make any changes in the mail transfer arrangements until some time next spring.

TWO SLIGHT ACCIDENTS.

W. H. Krauhs received a gash in his forehead yesterday from a glancing blow with a hammer and C. D. Cartwright had a finger cut on some boiler plate this morning. Neither accident is of a serious nature, though sufficiently severe to keep the men from their work for awhile. They are employed in the Pennsylvania boiler shop.

AT WORK ON SILK MILLS.

Construction work on the silk mills building, which was interrupted a week by the non-arrival of timbers for the third floor, was resumed this morning, the timbers having arrived yesterday. The management of the mills expect to have them in operation inside of a month.

HAS MOVED TO COUNTRY.

Ed Hausbach, foreman of the Wabash machine shop, has moved his family on a five acre tract of land near the Feeble Minded Institute and will devote the time not spent at the shops to cultivating vegetables, raising poultry and other work as may be necessary on a farm of that kind.

MORE WABASH INSPECTORS.

Fred W. Austrup, foreman of Wabash car repairmen and inspectors, has made a slight increase to his force. The new men are William Zumbro, Charles Fry and W. A. Zerby. Mr. Zumbro has been employed in another department of the Wabash for some time and has simply been transferred.

INDUSTRIAL NOTES.

C. O. Taylor is a new brakeman on the Nickel Plate.

C. Hollister, a Wabash shopman, has gone to Toledo for a visit with friends.

Nickel Plate Engineer John Hood is visiting his sister at Saginaw, Mich.

August Masch, a packer at the Electric works, is off duty on account of sickness.

Machinist Ed Jillett, of the Wabash airbrake room, is off duty on account of sickness.

Boilermaker J. Seibold, of the Pennsylvania, has gone to the lakes for a week's stay.

James Kanally, a boilermakers' helper, has taken employment at the Bass works.

Emmett Donahue, son of Engineer P. Donahue, of the Nickel Plate, has gone to Hobart to visit relatives.

C. M. Rohyans, an apprentice at the Pennsylvania machine shop, is in Rome City to remain until Sunday.

L. D. Nordstrom, of the engineering department of the Electric works, is confined to his home by sickness.

Fireman Charles Frankfort, who had been visiting at Miller City, resumed work on the Nickel Plate yesterday.

After an illness of four or five days, Conductor J. C. Fletcher reported for work on the Nickel Plate yesterday.

Mrs. Henry Bickell, whose husband is employed at the Nickel Plate round house, is visiting relatives at Hobart, Ind.

George Hunsaker left this afternoon for Buffalo on a vacation trip. He is employed at the Nickel Plate round house.

Machinist Frank Hughes, who had been taking a week's vacation, resumed work at the Pennsylvania shops yesterday.

Robert Tompkins and William R. Butts have taken employment in the pipefitting department of the Pennsylvania shops.

Tomorrow A. G. Bangert, who sustained a painful injury last week, will resume work at the Wabash shops. He is an apprentice.

Electrician P. J. Sweeney and Chief Engineer G. Hautch, of the Pennsylvania shops, are taking their vacations this week. With their families they went to Rome City last evening to be gone a week or ten days.

Brakeman J. Johnson has recovered from an injury to one of his arms, received three weeks ago, and is at work again on the Nickel Plate.

W. G. Black, superintendent of motive power of the Nickel Plate, spent a few hours in the city yesterday on business for the company.

Engineer Walter Granger, of the Nickel Plate, is building a cottage at Lake James. He went there for that purpose last Saturday.

Julius H. Kamm, a Pennsylvania pipefitter, and his wife and son have returned from Kalamazoo, where they spent a week with relatives.

Robert Droegemeyer, W. G. Bloomenberg and Erwin T. Wood are new employes at the Wabash shop, commencing work there this morning.

J. E. Whyte, assistant foreman of the tank shop of the Pennsylvania, and his wife will spend a week or two in September with relatives in Chicago.

Last Saturday Engineer and Mrs. Frank Baldwin went to Lake James to spend a week fishing and boating. Mr. Baldwin is employed on the Nickel Plate.

Nickel Plate Fireman W. P. Miller has gone to his father's farm home to spend a few days. Nelson Garwood, also a fireman, is taking a lay off for rest.

Chief Clerk Robert Learmonth, of the Pennsylvania superintendent's office, is spending a two weeks' vacation at James lage, accompanied by his family.

During the absence of H. T. Hogan, who has gone to Bedford, Ind., to visit his daughter, A. S. Courtney will have charge of the Pennsylvania machine shop.

Julian Heidrich has taken employment as a fireman at the Pennsylvania power plant. He is a brother to W. A. Heidrich, for several years an engineer at the plant.

Mr. and Mrs. John Casey will be the guests of relatives in Toledo for a few days going there this evening. Mr. Casey is a machinist and is employed at the Wabash shops.

Herbert L. Reed resumed his duties at the Nickel Plate round house office this morning, after a two weeks' vacation. He has been entertaining some relatives from Pueblo, Col.

Clarence Lapp, a son of Machinist Henry G. Lapp, has taken up an apprenticeship in the Pennsylvania machine shop, where his father has been employed for a number of years.

Machinist C. Scheifer, who had his back hurt some days ago, and E. B. McCarthy, who had an eye hurt last Friday, were able to report for duty at the Pensylvania shops this morning.

John Kosh, Spencer Emrick, A. C. Rochm and Walter Adams, machinists, have returned to their work in the Pennsylvania shops after an absence of various lengths and for various reasons.

William Hill, Nickel Plate weighmaster, is taking his annual vacation, which he will divide with friends at Toledo, Detroit and Bellevue and be gone from home about ten days.

A pretty eight pound girl arrived at the home of Mr. and Mrs. Charles A. Kramer, of 1918 Fairfield avenue, yesterday. The proud father is a clerk in the shop office of the Fort Wayne Electric works.

Engineer Ed Pierce and Chester Fisher resumed work on the Nickel Plate yesterday. Mr. Pierce had been at his old home, Uricksville, Pa., a month and Mr. Fisher had been at Cedar Point a week.

Local ticket agents have been advised that a low round trip rate to Chicago will be made September 15-17, inclusive, on account of the meeting of the American Bankers' association.

P. F. Schramm has resumed a position at the Pennsylvania round house he relinquished several months ago. The young man is a son of Frank Schramm, the janitor at the round house office.

C. P. Eward, who was visiting in New York; G. D. Wansitter, who was hurt a short time ago, and L. Barcus, who had been sick, resumed their duties in the Pennsylvania boiler shop this morning.

George J. Marth, a gang foreman in the Pennsylvania boiler shop, has gone to Olean, N. Y., to join his wife and daughter, who went there a month ago to visit relatives. The family will return home next week.

Cecil Gerard, Andrew Stinger and Merl McCurdy are new men in the punch department of the Fort Wayne Electric works. J. W. Stevens resigned a position in that department yesterday and has gone to Chicago to work.

Daniel Bolyard went to Chicago yesterday upon receipt of news of an accident that happened to his brother, Reuben Bolyard. The injured man was taken to the Presbyterian hospital. Reuben Bolyard formerly resided in Fort Wayne.

After the meeting of the Nickel Plate Veterans' association in this city Saturday, September 4, Engineer M. J. Maroney, who is president of the association, will accompany Mrs. Maroney on a pleasure trip to Mackinac, to be gone two weeks.

G. W. Hill, signal supervisor of the Pennsylvania, has returned from a pleasure trip into northern Michigan. Most of the time was spent at Snow island, where Mr. Hill was successful in catching some nice fish. His family was with him.

The working hours for the men in the machine shop at the Bass works have been increased from eight to ten per day. The force is considerably short of the force employed there before the depression of 1908, however, but the improvement now on seems to point to return of old conditions.

J. T. Schechle and crew and J. W. Weigel and crew have received new assignments on the Nickel Plate. The former has gone to the east end of the division to take a short haul run out of Bellevue and the latter has been given a through freight run on the Third district. He was formerly on the Fourth.

Ha! Ha! He! He!

That's the way to feel—EVERY ONE does that takes a CASCARET night BEFORE, when he looks at the fellow who didn't. For OVER-EATING and DRINKING nothing on Earth cleans you out as a CASCARET, naturally—easily, without that upset sick feeling. Don't neglect—at bed time—9 P.M. or 4 A.M. —no difference—you'll need it.

CASCARETS 10c a box for a week's treatment, all druggists. Biggest seller in the world. Million boxes a month. 833

Judge S. A. Powers, of Angola, was in the city today.

Prof. Louis Dorn, of Concordia college, delivered a sermon at a Lutheran mission festival in Cleveland Sunday morning.

Postmaster Hanna has been advised that the new issue of Hudson stamps of the two-cent denomination will be ready to go on sale in Fort Wayne September 25.

A. M. Baxter, formerly of this city and now located at Topeka, Kan., is in the city on a brief business trip. Mr. Baxter is connected with the Atchison, Topeka and Santa Fe railroad

BENZOATE OF SODA IN FOR SEVERE DRUBBING

Preservative Will Get no Mercy in Convention of Food Experts.

Denver, Col., Aug. 24.—Food experts from every section of the country, including Secretary of Agriculture James Wilson, Chief Chemist H. W. Wiley and representatives of the United States dairy commission and the bureau of animal industry, were present at the opening today of the thirteenth annual convention of the association of state and national food and dairy departments.

Before the convention adjourns next Friday it is expected a definite plan for a more drastic enforcement of pure food regulations throughout the country will have been drafted. In his annual address President J. Q. Emery scored the use of benzoate of soda as a food preservative and vigorously opposed the finding of the referee board appointed during President Roosevelt's administration that the preservative was not harmful. He pointed to Secretary Wilson as having recommended to the president that the finding of the board be not reinvestigated, although a committee of the association applied for a reconsideration of the subject.

That benzoate is harmful in whatever form it is used, whether in soda-water or in pickles was the emphatic conclusion of the speaker.

Recommending a breaking away from the federal pure food laws as not meeting the necessities of the individual states, Mr. Emery urged a wide breach between the state commissioners and Secretary Wilson. He favored the submission to each state legislature the "Model" pure food law as proposed by Dr. E. F. Ladd, state food commissioner of North Dakota. No sooner had these views been expressed than a dozen other speakers contended that a breaking away from the federal laws would result in a chaotic multiplicity of state laws all out or harmony with one another.

It was determined that the whole subject should be threshed out and reported upon by a special committee.

Discusses Benzoate of Soda.

In discussing benzoate of soda, which as a preservative for food for human consumption, hash been held by some experts to be harmful and by others to be harmless, J. Q. Emery, of Madison, Wis., president of the association in his annual address reviewed the efforts made at Washington to have the federal government frown upon the use of the preservative.

After experienced chemists had shown that benzoate of soda as used in many of the common food products was harmful, he said the referee board, headed by Dr. Ira Remsen, of Baltimore, Md., conducted a series of experiments with the result that the federal government was informed that the preservative was not harmful. "This board conducted experiments upon a limited number of healthy young men with what they called small doses of benzoate of soda added to foods for two months and with what they called large doses for one month," said President Emery. "We realized that if the finding of this board was accepted by the government a crisis had been reached in our efforts to purify food. We pointed out the following objections to benzoate of soda: That it is harmful, that physicians usually banish it from their homes; that it is unnecessary, since foods properly prepared do not need chemical preservatives; that it permits the use of unfit materials in food; that it encourages unsanitary practices and encourages substitution for refrigeration and sterilization; that its use sends out through the dairymen, butcher, soda dispenser and grocer a drug which is harmful to the public health.

"In view of this position we appealed to President Roosevelt to appoint another commission to investigate the findings of the Remsen board. This request was referred by President Roosevelt to Secretary Wilson, who reported back to the president against granting that request.

"However, we hope at this convention to have Dr. Remsen and three other members of his board express their views on the subject and give their reasons."

Mr. Emery then enumerated some adulterations which he said were common under lax laws. Among these glucose made to look like honey; jelly made out of apple cores and skins; sausage made from unfit meat artificially colored; artificial eggs; coffee beans made of rye paste. To abolish these impurities the speaker said, the state should take the initiative and favored the Ladd "model" state law as preferable to the federal inter-state commerce pure food laws.

NOVEL MASSAGE CREAM.

Perfect Skin Food That Removes Wrinkles and Clears Complexion.

The most delicate skin will quickly respond to the soothing and tonic effects of Hokara, and when this pure skin food is used, pimples are soon a thing of the past.

As a massage cream or after shaving it is unequaled, removing all irritations, and making the skin soft and velvety.

Apply a little to the hands or face after washing and surprise yourself with the dead skin that comes off.

Hokara is the only massage cream that is an antiseptic, and pimples, eczema and all skin blemishes soon disappear when it is used. Although far superior to the ordinary massage creams, and sold on a guarntee of "best you ever used or money back," yet the price is a trifle, only 25c for a liberal jar.

MISS HARDING CHOSEN.

Will Succeed Miss Fournier as Kindergarten Tetcher.

The school board Monday evening selected Miss Edith Harding as a kindergarten teacher in the city schools, succeeding Miss Fournier, who resigned some time ago.

The board also confirmed the selection of Miss Bessie Herrington and L. A. Strobel as teachers in the high school, and Miss Helen Mannix as teacher in the normal school. Mr. Strobel is a brother-in-law of Rev. E. A. Kielsmeier, of Salem Reformed church.

SEARS HAS NO RECORD.

If Lad Stays Out of Town He Will Not Be Molested.

Sheriff Reichelderfer returned last night from Indianapolis, where he placed a lad in the Plainfield school and he said that Edward Sears has no record in the institution. He added that although he is sure that the youngster went directly to Chicago after his escape from the jail here, he will make no particular effort to apprehend him so long as he stays out of Fort Wayne.

DR. HARDMAN, Specialist

SPECIAL OFFER UNTIL SEPTEMBER 1st

CURES AT YOUR OWN PRICE—Every person who calls on me before September 1st will not only receive a careful and thorough examination FREE OF CHARGE, but absolutely no fee will be charged during that time other than you yourself are willing to pay.

This is of special importance to every person who realizes the value of original methods. What I have claimed in reference to the influence of any Pelvic or rectal Disease on the Sympathetic Nervous System and all reflex conditions, is not only now the accepted theory of the leading scientists, but other institutions are copying my advertising and presenting my theories word for word. In order that everyone may understand that I am the originator of these special methods, and that he is receiving the personal attention of the specialist who perfected these methods it is only necessary to refer back to the old files of your papers.

No man can afford to undertake his daily work without being fully equipped mentally and physically.

I know that success and happiness depend on body and brain vitality. The lack of force is always due to functional decline, to a diseased condition of one or more of the organs of the body, or to a devitalized nervous system. The man who is not right physically and mentally and neglects himself, not only limits his future prospects, but is using up the physical capital he has already possessed.

OTHERS TREAT, BUT I CURE

Every man who does less than he should do at his desk, in the shop or on the farm, is weak in some way. I have found that the man who cannot accomplish all he expects or hopes for is often the silent sufferer from some hidden disease that affects one or more of the important nerve centers of the body.

These neglected or unknown conditions are usually diseases of the pelvic organs, which reflexly act on the organs of digestion, of elimination and the nervous system, which in turn has its influence on the brain. I have made a special study of the nervous system and have perfected methods that will CURE Pelvic Diseases. I will give you a searching and thorough examination and explain to you the true nature of your trouble.

EXAMINATION—My facilities for examination are unexcelled. I learn the exact condition of the rectum, the bladder and every organ of the genito-urinary system. This in itself is of the highest importance, inasmuch as a broken down nervous system and many or most of the troubles of the stomach, liver and kidneys, etc., are reflex, and are the direct results of some pelvic lesion or disease.

NERVOUS BREAKDOWN and nearly all nervous diseases are the direct results of chronic or imperfectly treated Pelvic Diseases such as Varicocele, Piles, Fistula, Stricture, etc. I not only remove the cause, but my many years of experience in the treatment of nervous and pelvic diseases enables me by my special methods to revitalize the entire nervous system and to restore to perfect health nearly all sufferers from nervous breakdown and vital weakness.

BLOOD POISON—I use only the most advanced methods in the treatment of blood poison and kindred diseases.

PROSTATIC ENLARGEMENT—This may result from a number of causes. The constant jarring and vibration of trains and trolley cars are a very potent cause. Bicycle riding and the use of riding implements on the farm are factors in producing this disease. In fact, the causes are so many and varied that fully 75 per cent of all adults are afflicted to a greater or less extent by this disease. The disease is so little understood, and as one of the principal symptoms is a pain in the back, it is usually called kidney trouble and treated with local applications or sedatives which can do no possible good whatever. I reduce the enlargement and have been able to cure about 90 per cent of all cases.

VARICOCELE—I cure Varicocele in a few days' or weeks' time without the use of the knife.

STRICTURE—I readily remove stricture by my dissolvent method without the use of instruments.

RUPTURE, PILES, FISTULA, ETC., cured without detention from business and without the use of the knife.

If you live out of town wire or write us on what train you will arrive and we will arrange our engagements so that we can see you at once.

Consultation and All Communications Strictly Confidential. Office Hours—9-12, 1-5. Evenings, 7-8. Sundays, 9-1 Only. Write or Call on

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., Aug. 24.—Little animation was manifested in the wheat market during early trading today and sentiment in the pit was bearish. A number of local commission houses were moderate sellers, owing to the weakness of foreign markets, including Liverpool which was off ⅝d to 1⅛d. An impending heavy movement of new wheat in the northwest also had a depressing effect. The market opened weak, with prices ⅛@¼c to ½c lower, September being at 97⅛c to 97⅜c, and December at 94c to 94⅛c. After selling off to 97¼c, September rallied again to 98c. December sold within 94c and 94¼@94⅜c.

The wheat market was choppy the greater part of the day, although sentiment continued to be bearish. The low point for September was reached at 97c and for December at 93½c. The close was higher with September down ⅜@½c at 97⅝@97¾c. December was ⅛@¼c lower at 94⅛@94¼c.

Continued dry weather generally throughout the corn belt caused a sharp rally in corn prices during the early part of the day. The market opened steady with prices ⅛c higher to ¼c lower. September being at 65¾c to 65⅞c, and December at 55⅝c to 55⅞c. Within a few minutes September had advanced to 66⅛c and December to 56½c.

The corn market continued strong the remainder of the day, the high point for September being 66¾c. The close was strong, with September up ⅜@⅝c at 66½@66⅝c.

receipts today were 7,184 boxes; state full 1,750 head; sheep, 1,100 head.

Oats rallied with corn, despite liberal receipts, which caused some selling at the start. September opened ⅛c lower to ⅛c higher at 36⅜c to 36⅝c and sold up to 36¾@36⅞c.

Trade in provisions was dull, the bulk of early trading being in lard. The tone of the market was firm, owing to 5@10c advance in live hogs. Prices at the opening were unchanged to 5@7½c higher.

The Close.

Prices at the close were as follows:

Wheat—September, 97⅝@97¾c; December, 94⅛@94½c; May, 98⅛c.

Corn — September, 66½c; December, 56⅝c.

Oats—September, 36¾@36⅞c; December, 36¾c; May, 39¾c.

Rye—Cash, 68@71c; September, 68c.

Barley—Cash, 50@66c.

Timothy—September, $3.60.

Clover—Cash, $11.30; March, $12.25.

Pork—September $22.40; October $21.05; January, $17.65.

Lard — September, $12.12½; October, $12.10; November, $11.07½; January, $10.35@10.37½.

Ribs — September, $11.77½; October, $11.50@11.52½; January, $9.27½.

Car Lot Receipts.

Wheat—Receipts today were 147 cars, with 46 of contract grade.

Corn—Receipts today were 386 cars, with 289 of contract grade.

Oats—Receipts today were 639 cars.

Total receipts of wheat at Chicago, Minneapolis and Duluth today were 332 cars, compared with 356 cars last week and 444 cars the corresponding day a year ago.

Toledo Grain Prices.

Toledo, O., Aug. 24.—Opening prices: Wheat—Cash, $1.07; September, $1.08; December, $1.06¾.

Corn — September, 69¾c; December, 56¾c; May, 58½c.

New York Grain and Provisions.

New York, Aug. 24.—Flour—Receipts today were 41,573 bbls; sales, 3,000 bbls. Market quiet and easy. Minnesota patents, $5.75@6.20; Minnesota bakers', $5.15@5.50.

Wheat—Receipts today were 27,000 bu. Splendid northwest weather and weak cables enabled bears to continue their aggressive tactics in wheat today and forenoon prices lost ½@⅝c a bushel, being checked only by the corn strength. September, $1.06⅞@1.07; December, $1.02⅛@1.02½; May, $1.02⅞@1.04 5-16.

Rye—Market dull; No. 2 western, 76c, nominal, f. o. b. New York.

Corn—Receipts today were 1,125 bu.

Beef—Market steady.

Pork—Market firm.

Lard—Market firm; western, $12.25@12.35.

Sugar—Raw, market firm; fair refining, $3.64; centrifugal, 96 test, $4.14; molasses sugar, $3.39; refined sugar, market steady; crushed, $5.75; powdered, $5.15; granulated, $5.05.

Petroleum—Market steady; refined, all ports, $8.20@8.25.

Coffee—Market quiet; No. 7 Rio, 7¼@7½c; No. 4 Santos, 8½@9c.

Molasses—Market quiet; New Orleans, 28@42c.

Indianapolis Grain Prices.

Indianapolis, Ind., Aug. 24.—Cash bids: Wheat—Market steady; No. 2, $1.00; No. 3, 94c; August, September and October, 99c.

Corn—Market stronger; white, Nos. 2 and 3, 72c; No. 4, 71½c; yellow Nos. 2 and 3, 69½c; No. 4, 68½c; mixed Nos. 2 and 3, 68½c; No. 4, 67½c.

Oats—Market weak; white No. 2 and standard, 36c; No. 3, 36c; No. 4, 34c; mixed Nos. 2 and 3, 34¼c; No. 4, 32¼c.

Hay—Market steady; timothy, choice, $13.75; No. 2, $12.50; clover No. 1 light mixed, $12.50.

Rye—No. 2, 72½c.

Chicago Cash Grain.

Chicago, Ill., Aug. 24.—Cash prices: Wheat—No. 2 red, $1.03@1.05; No. 3 red, 94@1.02; No. 2 hard, 99½@1.04; No. 3 hard, 95@1.01; No. 2 northern, 98@1.01; No. 3 spring, 94@1.00.

Corn—No. 2, 69@71c; No. 2 white, 70½@71c; No. 2 yellow, 72¼@72½c; No. 3, 69@69½c; No. 3 white, 70@70½c; No. 3 yellow, 72¼@72½c; No. 4, 67@70½c.

Oats—No. 2 white, 38¼c; No. 3 white, 36@37¼c; No. 4 white, 35¼@37¼c; standard, 37@38½c.

LIVE STOCK.

OIL.

Toledo Market.

Toledo, O., Aug. 24.—North Lima, 94c; South Lima and Indiana, 87c.

STOCK AND BONDS.

The Day on Wall Street.

New York, Aug. 24.—Overnight changes in the stock market were unusually narrow. Atchison was off a point on reports of unfavorable crop conditions, but Canadian Pacific moved up 1½ points. There were ten thousand shares of Union Pacific traded in from 209¾ to 210¼, against 210, yesterday's close. The price soon ran off to 209.

Speculation became very weak in tone soon after the opening dealings and there were a number of material recessions. Union Pacific sold 1½ below yesterday's final figures. Southern Pacific 1¼. St. Paul and New York Central 1. Pittsburg Coal dropped 2⅝ and the preferred 1. The sudden drop in prices was without definite explanation. Later on the market began to gather strength slowly with the upward movement helped by confident buying of the Gould stocks. Prices got back to the neighborhood of yesterday's closing in most cases.

Dealings contracted and the fluctuations became very narrow. Prices reacted slightly, but the list was moving up again at noon. Speculation as to Mr. Harriman's physical condition continued to furnish the principal market influence. There was a belated rise of a point in Missouri Pacific and American Beet Sugar got up 2 points. American Locomotive was offered rather freely and lost 1¾ and Northwestern sagged 1⅜. Bonds were steady.

A brief downward flurry in the Harriman stocks sent them and New York Central downward to lower prices than in the morning, but the general market was not affected to any extent. Large buying orders appeared later in Union Pacific and United States Steel, and the market began to rise. Union Pacific touched 210¼, which was the highest point of the day, and about 2½ above its low level. Top prices were also privileged for a number of other leaders. United States Steel crossed 78 and was about a point above yesterday's final figures. Consolidated Gas was heavily bought and rose 2¼ points.

Business was quiet during the middle of the day, but prices kept rising in spots under the influence of a further gain in Union Pacific, which held at 210⅞. Fluctuations in the main were quite narrow. There was some signs of animation to the Erie stocks, which moved up 1 to 1¼. Interborough Metropolitan preferred and National Lead also gained as much as ⅝ point.

The market closed quiet and strong. Large operators did little pending the landing of Mr. Harriman, and the market was kept with comparatively narrow limits. Union Pacific met realizing sales around 211 and fell back a point without creating much interest in the rest of the list. Some of the minor stocks were conspicuously strong. American Agricultural Chemical gaining 3. Western Union and Bethlehem Steel preferred 2, and Chicago & Alton 1½. Lackawanna fell 10 points.

NEW YORK STOCK MARKET.

LOCAL MARKET EPITOME.

With demands strong for chickens and butter, the local market today showed up more potatoes than anything else. No changes are recorded in the prices as there is not enough doing.

A light market is looked for tomorrow. The retail market today was good for the first of the week.

Wheat has dropped back to $1.03 per bushel and other grains may become similarly affected.

FORT WAYNE MARKETS.

The prevailing prices on Fort Wayne markets today were as follows:

LOOKING FOR HALLEY'S COMET.

Lick Observatory, Mount Hamilton, Calif., Aug. 24.—Keen rivalry has developed among the astronomers of the world and all through the night every available telescope is sweeping the heavens to gain the first sight of the returning Halley's comet which is sweeping in through space, according to Prof. Heber D. Curtis who has returned from Chile. He hopes to be the first to discover the comet.

PRIESTS AT NOTRE DAME.

South Bend, Ind., Aug. 24.—Nearly 500 Chicago priests assembled at Notre Dame today for a week's retreat. Archbishop Quigley and Bishop Dunne accompanied the clergy to the university.

THE SHOP AND RAILROAD NEWS

FRANK BEALLS ADVANCED.

Fort Wayne Man in Responsible Position in West.

Frank D. Bealls has been appointed night chief train dispatcher of the Salt Lake City division of the Denver and Rio Grande road. Mr. Bealls went to that road as trainmaster's clerk less than two years ago and has had two or three promotions since. He was connected with the Nickel Plate eight or ten years, commencing service there as a telegraph operator out on the line and completing it as clerk to Trainmaster E. S. Kirby. He obtained a leave of absence to go west on a pleasure trip and while in Salt Lake City was offered and accepted a position with the D. & R. G.

SEEKING LABOR DAY SPEAKERS.

Committee Makes Effort to Get Some Good Ones.

Speakers for the Labor day celebration, which will be held at Robison park, was the chief feature of last evening's meeting of the Federation of Labor. All the arrangements for the big event, except the selection of the speakers, have been made and at the meeting last night the secretary of the Federation was instructed to communicate with Prof. Vincent Howard, of Chicago university; Miss Jane Addams, of Chicago, the settlement worker of Hull house, and D. L. Kennedy, of Indianapolis, in the effort to get their services for that day. It is believed that all three of these prominent speakers will accept the invitation. The Robison park managers will advertise the meeting with characteristic energy and effectiveness and a big crowd from the surrounding country is assured. The Federation has been asked to send a delegate to the meeting at South Bend of the Indiana State Federation on September 25 and the request will probably be complied with. The Federation last night placed the stamp of disapproval upon the moving pictures entitled "The Right to Labor," alleging that they had a tendency to prejudice the minds of the witnesses against union labor. The matter was placed in the hands of a committee, with instructions to ask the moving picture theaters not to display these pictures.

BIG CLASS OF APPLICANTS.

B. R. T. Will Add Seventy-five to Membership.

Fort Wayne lodge, No. 136, Brotherhood of Railway Trainmen, expects to add seventy-five names to its membership rolls September 5, 6 and 7. Twenty-four applications were acted upon at the meeting last Sunday and forty-one were accepted at a previous meeting, making sixty-five applicants already enrolled, with another meeting to hear from. Most of the applicants will be initiated at the meeting on Sunday, September 5, and those who are unable to ge to that meeting on account of being out on the road, will be initiated at the special meetings Monday and Tuesday evenings. The local lodge has been advised that one of the grand officers, possibly Assistant Grand President T. R. Dodge, will be here to attend the Sunday meeting. No. 136 is the largest brotherhood lodge in the state.

SPECIAL FOR THE FAIR.

Nickel Plate to Run an Excursion Here Then.

The Central Traffic association refused to grant a special rate on the railways running into Fort Wayne during the Allen county fair week, but the Nickel Plate has decided to run a line excursion and make a special rate to Fort Wayne on that occasion. Wednesday will be Nickel Plate day at the fair and the company expects to bring in 1,200 people from the towns along that line west of Fort Wayne. The excursion train will start from Hammond and a rate satisfactory to patrons will be made.

SOME CLERKS PROMOTED.

The transfer of Vernon L. Tannehill from the shipping clerks office at the Fort Wayne Electric works to the auditing department to serve as bill clerk, mentioned by the Sentinel a few days ago, has been followed by the promotion of three worthy young men and the hiring of another. Adam Backman has taken the position vacated by Mr. Tannehill and in turn has been succeeded in the position in the purchasing department by Walter Wyman who is succeeded by Otto Doebler. The new man's name has not yet been announced.

KILLED ON HIS FIRST TRIP.

A. L. Ackerman was fatally injured Friday morning on his first trip out on the Wabash as a brakeman. While his train was doing some switching at Homer, near Decatur, he fell between two cars and both legs were crushed. Before he could be taken to the hospital he died from loss of blood and shock. Ackerman had been in the grocery business at Decatur before entering the employ of the Wabash company.

WILL GO WEST TO LIVE.

W. E. Duglay, whose health has been poor for some weeks, resigned a position as lamp trimmer at the electrical department of the Pennsylvania shops yesterday and will go to Colorado, where he hopes to enjoy better health. He will be accompanied there by J. W. Botts, a lineman at the same plant, who has resigned. Mr. Botts formerly resided in Colorado.

SUPT. RAGER VISITS CITY.

Supt. Rager, of the United States mail service, arrived in the city last night and inspected the department at the depots. He left this morning for Chicago. Supt. Rager is of the opinion that track elevation will not reach a point where it will be necessary to make any changes in the mail transfer arrangements until some time next spring.

TWO SLIGHT ACCIDENTS.

W. H. Krauhs received a gash in his forehead yesterday from a glancing blow with a hammer and C. D. Cartwright had a finger cut on some boiler plate this morning. Neither accident is of a serious nature, though sufficiently severe to keep the men from their work for awhile. They are employed in the Pennsylvania boiler shop.

AT WORK ON SILK MILLS.

Construction work on the silk mills building, which was interrupted a week by the non-arrival of timbers for the third floor, was resumed this morning, the timbers having arrived yesterday. The management of the mills expect to have them in operation inside of a month.

HAS MOVED TO COUNTRY.

Ed Hausbach, foreman of the Wabash machine shop, has moved his family on a five acre tract of land near the Feeble Minded Institute and will devote the time not spent at the shops to cultivating vegetables, raising poultry and other work as may be necessary on a farm of that kind.

MORE WABASH INSPECTORS.

Fred W. Austrup, foreman of Wabash car repairmen and inspectors, has made a slight increase to his force. The new men are William Zumbro, Charles Fry and W. A. Zerby. Mr. Zumbro has been employed in another department of the Wabash for some time and has simply been transferred.

INDUSTRIAL NOTES.

C. O. Taylor is a new brakeman on the Nickel Plate.

C. Hollister, a Wabash shopman, has gone to Toledo for a visit with friends.

Nickel Plate Engineer John Hood is visiting his sister at Saginaw, Mich.

August Masch, a packer at the Electric works, is off duty on account of sickness.

Machinist Ed Jillett, of the Wabash airbrake room, is off duty on account of sickness.

Boilermaker J. Seibold, of the Pennsylvania, has gone to the lakes for a week's stay.

James Kanally, a boilermakers' helper, has taken employment at the Bass works.

Emmett Donahue, son of Engineer P. Donahue, of the Nickel Plate, has gone to Hobart to visit relatives.

C. M. Rohyans, an apprentice at the Pennsylvania machine shop, is in Rome City to remain until Sunday.

L. D. Nordstrom, of the engineering department of the Electric works, is confined to his home by sickness.

Fireman Charles Frankfort, who had been visiting at Miller City, resumed work on the Nickel Plate yesterday.

After an illness of four or five days, Conductor J. C. Fletcher reported for work on the Nickel Plate yesterday.

Mrs. Henry Bickell, whose husband is employed at the Nickel Plate round house, is visiting relatives at Hobart, Ind.

George Hunsaker left this afternoon for Buffalo on a vacation trip. He is employed at the Nickel Plate round house.

Machinist Frank Hughes, who had been taking a week's vacation, resumed work at the Pennsylvania shops yesterday.

Robert Tompkins and William R. Butts have taken employment in the pipefitting department of the Pennsylvania shops.

Tomorrow A. G. Bangert, who sustained a painful injury last week, will resume work at the Wabash shops. He is an apprentice.

Electrician P. J. Sweeney and Chief Engineer G. Hautch, of the Pennsylvania shops, are taking their vacations this week. With their families they went to Rome City last evening to be gone a week or ten days.

Brakeman J. Johnson has recovered from an injury to one of his arms, received three weeks ago, and is at work again on the Nickel Plate.

W. G. Black, superintendent of motive power of the Nickel Plate, spent a few hours in the city yesterday on business for the company.

Engineer Walter Granger, of the Nickel Plate, is building a cottage at Lake James. He went there for that purpose last Saturday.

Julius H. Kamm, a Pennsylvania pipefitter, and his wife and son have returned from Kalamazoo, where they spent a week with relatives.

Robert Droegemeyer, W. G. Bloomenberg and Erwin T. Wood are new employes at the Wabash shop, commencing work there this morning.

J. E. Whyte, assistant foreman of the tank shop of the Pennsylvania, and his wife will spend a week or two in September with relatives in Chicago.

Last Saturday Engineer and Mrs. Frank Baldwin went to Lake James to spend a week fishing and boating. Mr. Baldwin is employed on the Nickel Plate.

Nickel Plate Fireman W. P. Miller has gone to his father's farm home to spend a few days. Nelson Garwood, also a fireman, is taking a lay off for rest.

Chief Clerk Robert Learmonth, of the Pennsylvania superintendent's office, is spending a two weeks' vacation at James lage, accompanied by his family.

During the absence of H. T. Hogan, who has gone to Bedford ,Ind., to visit his daughter, A. S. Courtney will have charge of the Pennsylvania machine shop.

Julian Heidrich has taken employment as a fireman at the Pennsylvania power plant. He is a brother to W. A. Heidrich, for several years an engineer at the plant.

Mr. and Mrs. John Casey will be the guests of relatives in Toledo for a few days going there this evening. Mr. Casey is a machinist and is employed at the Wabash shops.

Herbert L. Reed resumed his duties at the Nickel Plate round house office this morning, after a two weeks' vacation. He has been entertaining some relatives from Pueblo, Col.

Clarence Lapp, a son of Machinist Henry G. Lapp, has taken up an apprenticeship in the Pennsylvania machine shop, where his father has been employed for a number of years.

Machinist C. Scheifer, who had his back hurt some days ago, and E. B. McCarthy, who had an eye hurt last Friday, were able to report for duty at the Pensylvania shops this morning.

John Kosh, Spencer Emrick, A. C. Roehm and Walter Adams, machinists, have returned to their work in the Pennsylvania shops after an absence of various lengths and for various reasons.

William Hill, Nickel Plate weighmaster, is taking his annual vacation, which he will divide with friends at Toledo, Detroit and Bellevue and be gone from home about ten days.

A pretty eight pound girl arrived at the home of Mr. and Mrs. Charles A. Kramer, of 1918 Fairfield avenue, yesterday. The proud father is a clerk in the shop office of the Fort Wayne Electric works.

Engineer Ed Pierce and Chester Fisher resumed work on the Nickel Plate yesterday. Mr. Pierce had been at his old home, Uricksville, Pa., a month and Mr. Fisher had been at Cedar Point a week.

Local ticket agents have been advised that a low round trip rate to Chicago will be made September 15-17, inclusive, on account of the meeting of the American Bankers' association.

P. F. Schramm has resumed a position at the Pennsylvania round house he relinquished several months ago. The young man is a son of Frank Schramm, the janitor at the round house office.

C. P. Eward, who was visiting in New York; G. D. Wansitter, who was hurt a short time ago, and L. Earcus, who had been sick, resumed their duties in the Pennsylvania boiler shop this morning.

George J. Marth, a gang foreman in the Pennsylvania boiler shop, has gone to Olean, N. Y., to join his wife and daughter, who went there a month ago to visit relatives. The family will return home next week.

Cecil Gerard, Andrew Stinger and Merl McCurdy are new men in the punch department of the Fort Wayne Electric works. J. W. Stevens resigned a position in that department yesterday and has gone to Chicago to work.

Daniel Bolyard went to Chicago yesterday upon receipt of news of an accident that happened to his brother, Reuben Bolyard. The injured man was taken to the Presbyterian hospital. Reuben Bolyard formerly resided in Fort Wayne.

After the meeting of the Nickel Plate Veterans' association in this city Saturday, September 4, Engineer M. J. Maroney, who is president of the association, will accompany Mrs. Maroney on a pleasure trip to Mackinac, to be gone two weeks.

C. W. Hill, signal supervisor of the Pennsylvania, has returned from a pleasure trip into northern Michigan. Most of the time was spent at Snow island, where Mr. Hill was successful in catching some nice fish. His family was with him.

The working hours for the men in the machine shop at the Bass works have been increased from eight to ten per day. The force is considerably short of the force employed there before the depression of 1908, however, but the improvement now on seems to point to return of old conditions.

J. T. Schechle and crew and J. W. Weigel and crew have received new assignments on the Nickel Plate. The former has gone to the east end of the division to take a short haul run out of Bellevue and the latter has been given a through freight run on the Third district. He was formerly on the Fourth.

Judge S. A. Powers, of Angola, was in the city today.

Prof. Louis Dorn, of Concordia college, delivered a sermon at a Lutheran mission festival in Cleveland Sunday morning.

Postmaster Hanna has been advised that the new issue of Hudson stamps of the two-cent denomination will be ready to go on sale in Fort Wayne September 25.

A. M. Baxter, formerly of this city and now located at Topeka, Kan., is in the city on a brief business trip. Mr. Baxter is connected with the Atchison, Topeka and Santa Fe railroad

BENZOATE OF SODA IN FOR SEVERE DRUBBING

Preservative Will Get no Mercy in Convention of Food Experts.

Denver, Col., Aug. 24.—Food experts from every section of the country, including Secretary of Agriculture James Wilson, Chief Chemist H. W. Wiley and representatives of the United States dairy commission and the bureau of animal industry, were present at the opening today of the thirteenth annual convention of the association of state and national food and dairy departments.

Before the convention adjourns next Friday it is expected a definite plan for a more drastic enforcement of pure food regulations throughout the country will have been drafted. In his annual address President J. Q. Emery scored the use of benzoate of soda as a food preservative and vigorously opposed the finding of the referee board appointed during President Roosevelt's administration that the preservative was not harmful. He pointed to Secretary Wilson as having recommended to the president that the finding of the board be not reinvestigated, although a committee of the association applied for a reconsideration of the subject.

That benzoate is harmful in whatever form it is used, whether in soda-water or in pickles was the emphatic conclusion of the speaker.

Recommending a breaking away from the federal pure food laws as not meeting the necessities of the individual states, Mr. Emery urged a wide breach between the state commissioners and Secretary Wilson. He favored the submission to each state legislature the "Model" pure food law as proposed by Dr. E. F. Ladd, state food commissioner of North Dakota. No sooner had these views been expressed than a dozen other speakers contended that a breaking away from the federal laws would result in a chaotic multiplicity of state laws all out or harmony with one another.

It was determined that the whole subject should be threshed out and reported upon by a special committee.

Discusses Benzoate of Soda.

In discussing benzoate of soda, which as a preservative for food for human consumption, hash been held by some experts to be harmful and by others to be harmless, J. Q. Emery, of Madison, Wis., president of the association in his annual address reviewed the efforts made at Washington to have the federal government frown upon the use of the preservative.

After experienced chemists had shown that benzoate of soda as used in many of the common food products was harmful, he said the referee board, headed by Dr. Ira Remsen, of Baltimore, Md., conducted a series of experiments with the result that the federal government was informed that the preservative was not harmful. "This board conducted experiments upon a limited number of healthy young men with what they called small doses of benzoate of soda added to foods for two months and with what they called large doses for one month," said President Emery. "We realized that if the finding of this board was accepted by the government a crisis had been reached in our efforts to purify food. We pointed out the following objections to benzoate of soda: That it is harmful, that physicians usually banish it from their homes; that it is unnecessary, since foods properly prepared do not need chemical preservatives; that it permits the use of unfit materials in food; that it encourages unsanitary practices and encourages substitution for refrigeration and sterilization; that its use sends out through the dairymen, butcher, soda dispenser and grocer a drug which is harmful to the public health.

"In view of this position we appealed to President Roosevelt to appoint another commission to investigate the findings of the Remsen board. This request was referred by President Roosevelt to Secretary Wilson, who reported back to the president against granting that request.

"However, we hope at this convention to have Dr. Remsen and three other members of his board express their views on the subject and give their reasons."

Mr. Emery then enumerated some adulterations which he said were common under lax laws. Among these glucose made to look like honey; jelly made out of apple cores and skins; sausage made from unfit meat artificially colored; artificial eggs; coffee beans made of rye paste. To abolish these impurities the speaker said, the state should take the initiative and favored the Ladd "model" state law as preferable to the federal inter-state commerce pure food laws.

NOVEL MASSAGE CREAM.

Perfect Skin Food That Removes Wrinkles and Clears Complexion.

The most delicate skin will quickly respond to the soothing and tonic effects of Hokara, and when this pure skin food is used, pimples are soon a thing of the past.

As a massage cream or after shaving it is unequaled, removing all irritations, and making the skin soft and velvety.

Apply a little to the hands or face after washing and surprise yourself with the dead skin that comes off.

Hokara is the only massage cream that is an antiseptic, and pimples, eczema and all skin blemishes soon disappear when it is used. Although far superior to the ordinary massage creams, and sold on a guarntee of "best you ever used or money back," yet the price is a trifle, only 25c for a liberal jar.

MISS HARDING CHOSEN.

Will Succeed Miss Fournier as Kindergarten Tetcher.

The school board Monday evening selected Miss Edith Harding as a kindergarten teacher in the city schools, succeeding Miss Fournier, who resigned some time ago.

The board also confirmed the selection of Miss Bessie Herrington and L. A. Strobel as teachers in the high school, and Miss Helen Mannix as teacher in the normal school. Mr. Strobel is a brother-in-law of Rev. E. A. Kielsmeier, of Salem Reformed church.

FOR DRESSERS THIS WEEK
A LIBERAL DISCOUNT FOR THE CASH.

DR. HARDMAN, Specialist

SPECIAL OFFER UNTIL SEPTEMBER 1st

CURES AT YOUR OWN PRICE—Every person who calls on me before September 1st will not only receive a careful and thorough examination FREE OF CHARGE, but absolutely no fee will be charged during that time other than you yourself are willing to pay.

This is of special importance to every person who realizes the value of original methods. What I have claimed in reference to the influence of any Pelvic or rectal Disease on the Sympathetic Nervous System and all reflex conditions, is not only now the accepted theory of the leading scientists, but other institutions are copying my advertising and presenting my theories word for word. In order that everyone may understand that I am the originator of these special methods, and that he is receiving the personal attention of the specialist who perfected these methods it is only necessary to refer back to the old files of your papers.

No man can afford to undertake his daily work without being fully equipped mentally and physically.

I know that success and happiness depend on body and brain vitality. The lack of force is always due to functional decline, to a diseased condition of one or more of the organs of the body, or to a devitalized nervous system. The man who is not right physically and mentally and neglects himself, not only limits his future prospects, but is using up the physical capital he has already possessed.

OTHERS TREAT, BUT I CURE

Every man who does less than he should do at his desk, in the shop or on the farm, is weak in some way. I have found that the man who cannot accomplish all he expects or hopes for is often the silent sufferer from some hidden disease that affects one or more of the important nerve centers of the body.

These neglected or unknown conditions are usually diseases of the pelvic organs, which reflexly act on the organs of digestion, of elimination and the nervous system, which in turn has its influence on the brain. I have made a special study of the nervous system and have perfected methods that will CURE Pelvic Diseases. I will give you a searching and thorough examination and explain to you the true nature of your trouble.

EXAMINATION—My facilities for examination are unexcelled. I learn the exact condition of the rectum, the bladder and every organ of the genito-urinary system. This in itself is of the highest importance, inasmuch as a broken down nervous system and many or most of the troubles of the stomach, liver and kidneys, etc., are reflex, and are the direct results of some pelvic lesion or disease.

NERVOUS BREAKDOWN and nearly all nervous diseases are the direct results of chronic or imperfectly treated Pelvic Diseases such as Varicocele, Piles, Fistula, Stricture, etc. I not only remove the cause, but my many years of experience in the treatment of nervous and pelvic diseases enables me by my special methods to revitalize the entire nervous system and to restore to perfect health, nearly all sufferers from nervous breakdown and vital weakness.

BLOOD POISON—I use only the most advanced methods in the treatment of blood poison and kindred diseases.

PROSTATIC ENLARGEMENT—This may result from a number of causes. The constant jarring and vibration of trains and trolley cars are a very potent cause. Bicycle riding and the use of riding implements on the farm are factors in producing this disease. In fact, the causes are so many and varied that fully 75 per cent of all adults are afflicted to a greater or less extent by this disease. The disease is so little understood, and as one of the principal symptoms is a pain in the back, it is usually called kidney trouble and treated with local applications or sedatives which can do no possible good whatever. I reduce the enlargement and have been able to cure about 90 per cent of all cases.

VARICOCELE—I cure Varicocele in a few days' or weeks' time without the use of the knife.

STRICTURE—I readily remove stricture by my dissolvent method without the use of instruments.

RUPTURE, PILES, FISTULA, ETC., cured without detention from business and without the use of the knife.

If you live out of town wire or write us on what train you will arrive and we will arrange our engagements so that we can see you at once.

Consultation and All Communications Strictly Confidential. Office Hours—9-12, 1-5. Evenings, 7-8. Sundays, 9-1 Only. Write or Call on

THE SHOP AND RAILROAD NEWS

FRANK BEALLS ADVANCED.

Fort Wayne Man in Responsible Position in West.

Frank D. Bealls has been appointed night chief train dispatcher of the Salt Lake City division of the Denver and Rio Grande road. Mr. Bealls went to that road as trainmaster's clerk less than two years ago and has had two or three promotions since. He was connected with the Nickel Plate eight or ten years, commencing service there as a telegraph operator out on the line and completing it as clerk to Trainmaster E. S. Kirby. He obtained a leave of absence to go west on a pleasure trip and while in Salt Lake City was offered and accepted a position with the D. & R. G.

SEEKING LABOR DAY SPEAKERS.

Committee Makes Effort to Get Some Good Ones.

Speakers for the Labor day celebration, which will be held at Robison park, was the chief feature of last evening's meeting of the Federation of Labor. All the arrangements for the big event, except the selection of the speakers, have been made and at the meeting last night the secretary of the Federation was instructed to communicate with Prof. Vincent Howard, of Chicago university; Miss Jane Addams, of Chicago, the settlement worker of Hull house, and D. L. Kennedy, of Indianapolis, in the effort to get their services for that day. It is believed that all three of these prominent speakers will accept the invitation. The Robison park managers will advertise the meeting with characteristic energy and effectiveness and a big crowd from the surrounding country is assured. The Federation has been asked to send a delegate to the meeting at South Bend of the Indiana State Federation on September 25 and the request will probably be complied with. The Federation last night placed the stamp of disapproval upon the moving pictures entitled "The Right to Labor," alleging that they had a tendency to prejudice the minds of the witnesses against union labor. The matter was placed in the hands of a committee, with instructions to ask the moving picture theaters not to display these pictures.

BIG CLASS OF APPLICANTS.

B. R. T. Will Add Seventy-five to Membership.

Fort Wayne lodge, No. 136, Brotherhood of Railway Trainmen, expects to add seventy-five names to its membership rolls September 5, 6 and 7. Twenty-four applications were acted upon at the meeting last Sunday and forty-one were accepted at a previous meeting, making sixty-five applicants already enrolled, with another meeting to hear from. Most of the applicants will be initiated at the meeting on Sunday, September 5, and those who are unable to ge to that meeting on account of being out on the road, will be initiated at the special meetings Monday and Tuesday evenings. The local lodge has been advised that one of the grand officers, possibly Assistant Grand President T. R. Dodge, will be here to attend the Sunday meeting. No. 136 is the largest brotherhood lodge in the state.

SPECIAL FOR THE FAIR.

Nickel Plate to Run an Excursion Here Then.

The Central Traffic association refused to grant a special rate on the railways running into Fort Wayne during the Allen county fair week, but the Nickel Plate has decided to run a line excursion and make a special rate to Fort Wayne on that occasion. Wednesday will be Nickel Plate day at the fair and the company expects to bring in 1,200 people from the towns along that line west of Fort Wayne. The excursion train will start from Hammond and a rate satisfactory to patrons will be made.

SOME CLERKS PROMOTED.

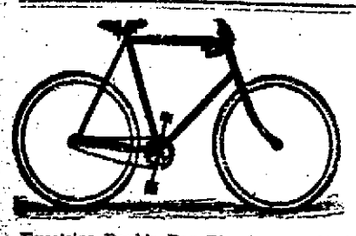
The transfer of Vernon L. Tannehill from the shipping clerks office at the Fort Wayne Electric works to the auditing department to serve as bill clerk, mentioned by the Sentinel a few days ago, has been followed by the promotion of three worthy young men and the hiring of another. Adam Backman has taken the position vacated by Mr. Tannehill and in turn has been succeeded in the position in the purchasing department by Walter Wyman who is succeeded by Otto Doebler. The new man's name has not yet been announced.

KILLED ON HIS FIRST TRIP.

A. L. Ackerman was fatally injured Friday morning on his first trip out on the Wabash as a brakeman. While his train was doing some switching at Homer, near Decatur, he fell between two cars and both legs were crushed. Before he could be taken to the hospital he died from loss of blood and shock. Ackerman had been in the grocery business at Decatur before entering the employ of the Wabash company.

The Newest Food.

The newest discovery in foods is TOASTED RICE FLAKES. It is toothsome, satisfying, and the most digestible of all foods. A big package for 10 cents.



Excelsior Double Bar Bicycle.....$40.00
Other Makes.....$5.00 to $40.00
Tires, Fancy and Plain .....$1.50 to $5.00
BABY BUGGIES RETIRED.
Repairing Done by Expert.

E. J. WILKINSON,
617 Clinton St., Phone 2450.
Open Saturday Evenings Only.

WILL GO WEST TO LIVE.

W. E. Duglay, whose health has been poor for some weeks, resigned a position as lamp trimmer at the electrical department of the Pennsylvania shops yesterday and will go to Colorado, where he hopes to enjoy better health. He will be accompanied there by J. W. Botts, a lineman at the same plant, who has resigned. Mr. Botts formerly resided in Colorado.

SUPT. RAGER VISITS CITY.

Supt. Rager, of the United States mail service, arrived in the city last night and inspected the department at the depots. He left this morning for Chicago. Supt. Rager is of the opinion that track elevation will not reach a point where it will be necessary to make any changes in the mail transfer arrangements until some time next spring.

TWO SLIGHT ACCIDENTS.

W. H. Krauhs received a gash in his forehead yesterday from a glancing blow with a hammer and C. D. Cartwright had a finger cut on some boiler plate this morning. Neither accident is of a serious nature, though sufficiently severe to keep the men from their work for awhile. They are employed in the Pennsylvania boiler shop.

AT WORK ON SILK MILLS.

Construction work on the silk mills building, which was interrupted a week by the non-arrival of timbers for the third floor, was resumed this morning, the timbers having arrived yesterday. The management of the mills expect to have them in operation inside of a month.

HAS MOVED TO COUNTRY.

Ed Hausbach, foreman of the Wabash machine shop, has moved his family on a five acre tract of land near the Feeble Minded Institute and will devote the time not spent at the shops to cultivating vegetables, raising poultry and other work as may be necessary on a farm of that kind.

MORE WABASH INSPECTORS.

Fred W. Austrup, foreman of Wabash car repairmen and inspectors, has made a slight increase to his force. The new men are William Zumbro, Charles Fry and W. A. Zerby. Mr. Zumbro has been employed in another department of the Wabash for some time and has simply been transferred.

INDUSTRIAL NOTES.

C. O. Taylor is a new brakeman on the Nickel Plate.

C. Hollister, a Wabash shopman, has gone to Toledo for a visit with friends.

Nickel Plate Engineer John Hood is visiting his sister at Saginaw, Mich.

August Masch, a packer at the Electric works, is off duty on account of sickness.

Machinist Ed Jillett, of the Wabash airbrake room, is off duty on account of sickness.

Boilermaker J. Seibold, of the Pennsylvania, has gone to the lakes for a week's stay.

James Kanally, a boilermakers' helper, has taken employment at the Bass works.

Emmett Donahue, son of Engineer P. Donahue, of the Nickel Plate, has gone to Hobart to visit relatives.

C. M. Rohyans, an apprentice at the Pennsylvania machine shop, is in Rome City to remain until Sunday.

L. D. Nordstrom, of the engineering department of the Electric works, is confined to his home by sickness.

Fireman Charles Frankfort, who had been visiting at Miller City, resumed work on the Nickel Plate yesterday.

After an illness of four or five days, Conductor J. C. Fletcher reported for work on the Nickel Plate yesterday.

Mrs. Henry Bickell, whose husband is employed at the Nickel Plate round house, is visiting relatives at Hobart, Ind.

George Hunsaker left this afternoon for Buffalo on a vacation trip. He is employed at the Nickel Plate round house.

Machinist Frank Hughes, who had been taking a week's vacation, resumed work at the Pennsylvania shops yesterday.

Robert Tompkins and William R. Bess have taken employment in the pipefitting department of the Pennsylvania shops.

Tomorrow A. G. Bangert, who sustained a painful injury last week, will resume work at the Wabash shops. He is an apprentice.

Electrician P. J. Sweeney and Chief Engineer G. Hautch, of the Pennsylvania shops, are taking their vacations this week. With their families they went to Rome City last evening to be gone a week or ten days.

Brakeman J. Johnson has recovered from an injury to one of his arms, received three weeks ago, and is at work again on the Nickel Plate.

W. G. Black, superintendent of motive power of the Nickel Plate, spent a few hours in the city yesterday on business for the company.

Engineer Walter Granger, of the Nickel Plate, is building a cottage at Lake James. He went there for that purpose last Saturday.

Julius H. Kamm, a Pennsylvania pipefitter, and his wife and son have returned from Kalamazoo, where they spent a week with relatives.

Robert Druegemeyer, W. G. Bloomenberg and Erwin T. Wood are new employes at the Wabash shop, commencing work there this morning.

J. E. Whyte, assistant foreman of the tank shop of the Pennsylvania, and his wife will spend a week or two in September with relatives in Chicago.

Last Saturday Engineer and Mrs. Frank Baldwin went to Lake James to spend a week fishing and boating. Mr. Baldwin is employed on the Nickel Plate.

Nickel Plate Fireman W. P. Miller has gone to his father's farm home to spend a few days. Nelson Garwood, also a fireman, is taking a lay off for rest.

Chief Clerk Robert Learmonth, of the Pennsylvania superintendent's office, is spending a two weeks' vacation at James lage, accompanied by his family.

During the absence of H. T. Hogan, who has gone to Bedford, Ind., to visit his daughter, A. S. Courtney will have charge of the Pennsylvania machine shop.

Julian Heidrich has taken employment as a fireman at the Pennsylvania power plant. He is a brother to W. A. Heidrich, for several years an engineer at the plant.

Mr. and Mrs. John Casey will be the guests of relatives in Toledo for a few days going there this evening. Mr. Casey is a machinist and is employed at the Wabash shops.

Herbert L. Reed resumed his duties at the Nickel Plate round house office this morning, after a two weeks' vacation. He has been entertaining some relatives from Pueblo, Col.

Clarence Lapp, a son of Machinist Henry G. Lapp, has taken up an apprenticeship in the Pennsylvania machine shop, where his father has been employed for a number of years.

Machinist C. Scheifer, who had his back hurt some days ago, and E. B. McCarthy, who had an eye hurt last Friday, were able to report for duty at the Pensylvania shops this morning.

John Kosh, Spencer Emrick, A. C. Roehm and Walter Adams, machinists, have returned to their work in the Pennsylvania shops after an absence of various lengths and for various reasons.

William Hill, Nickel Plate weighmaster, is taking his annual vacation, which he will divide with friends at Toledo, Detroit and Bellevue and be gone from home about ten days.

A pretty eight pound girl arrived at the home of Mr. and Mrs. Charles A. Kramer, of 1918 Fairfield avenue, yesterday. The proud father is a clerk in the shop office of the Fort Wayne Electric works.

Engineer Ed Pierce and Chester Fisher resumed work on the Nickel Plate yesterday. Mr. Pierce had been at his old home, Uricksville, Pa., a month and Mr. Fisher had been at Cedar Point a week.

Local ticket agents have been advised that a low round trip rate to Chicago will be made September 15-17, inclusive, on account of the meeting of the American Bankers' association.

P. F. Schramm has resumed a position at the Pennsylvania round house he relinquished several months ago. The young man is a son of Frank Schramm, the janitor at the round house office.

C. P. Eward, who was visiting in New York; G. D. Wansitter, who was hurt a short time ago, and L. Barcus, who had been sick, resumed their duties in the Pennsylvania boiler shop this morning.

George J. Marth, a gang foreman in the Pennsylvania boiler shop, has gone to Olean, N. Y., to join his wife and daughter, who went there a month ago to visit relatives. The family will return home next week.

Cecil Gerard, Andrew Stinger and Merl McCurdy are new men in the punch department of the Fort Wayne Electric works. J. W. Stevens resigned a position in that department yesterday and has gone to Chicago to work.

Daniel Bolyard went to Chicago yesterday upon receipt of news of an accident that happened to his brother, Reuben Bolyard. The injured man was taken to the Presbyterian hospital. Reuben Bolyard formerly resided in Fort Wayne.

After the meeting of the Nickel Plate Veterans' association in this city Saturday, September 4, Engineer M. J. Maroney, who is president of the association, will accompany Mrs. Maroney on a pleasure trip to Mackinac, to be gone two weeks.

G. W. Hill, signal supervisor of the Pennsylvania, has returned from a pleasure trip into northern Michigan. Most of the time was spent at Snow Island, where Mr. Hill was successful in catching some nice fish. His family was with him.

The working hours for the men in the machine shop at the Bass works have been increased from eight to ten per day. The force is considerably short of the force employed there before the depression of 1908, however, but the improvement now on seems to point to return of old conditions.

J. T. Schechle and crew and J. W. Weigel and crew have received new assignments on the Nickel Plate. The former has gone to the east end of the division to take a short haul run out of Bellevue and the latter has been given a through freight run on the Third district. He was formerly on the Fourth.

Ha! Ha! He! He!

That's the way to feel—EVERY ONE does that takes a CASCARET night BEFORE, when he looks at the fellow who didn't. Postmaster Hanna has been advised that the new issue of Hudson stamps of the two-cent denomination will be ready to go on sale in Fort Wayne September 25.

A. M. Baxter, formerly of this city and now located at Topeka, Kan., is in the city on a brief business trip. Mr. Baxter is connected with the Atchison, Topeka and Santa Fe railroad

BENZOATE OF SODA IN FOR SEVERE DRUBBING

Preservative Will Get no Mercy in Convention of Food Experts.

Denver, Col., Aug. 24.—Food experts from every section of the country, including Secretary of Agriculture James Wilson, Chief Chemist H. W. Wiley and representatives of the United States dairy commission and the bureau of animal industry, were present at the opening today of the thirteenth annual convention of the association of state and national food and dairy departments.

Before the convention adjourns next Friday it is expected a definite plan for a more drastic enforcement of pure food regulations throughout the country will have been drafted. In his annual address President J. Q. Emery scored the use of benzoate of soda as a food preservative and vigorously opposed the finding of the referee board appointed during President Roosevelt's administration that the preservative was not harmful. He pointed to Secretary Wilson as having recommended to the president that the finding of the board be not reinvestigated, although a committee of the association applied for a reconsideration of the subject.

That benzoate is harmful in whatever form it is used, whether in soda-water or in pickles was the emphatic conclusion of the speaker.

Recommending a breaking away from the federal pure food laws as not meeting the necessities of the individual states, Mr. Emery urged a wide breach between the state commissioners and Secretary Wilson. He favored the submission to each state legislature the "Model" pure food law as proposed by Dr. E. F. Ladd, state food commissioner of North Dakota. No sooner had these views been expressed than a dozen other speakers contended that a breaking away from the federal laws would result in a chaotic multiplicity of state laws all out or harmony with one another.

It was determined that the whole subject should be threshed out and reported upon by a special committee.

Discusses Benzoate of Soda.

In discussing benzoate of soda, which as a preservative for food for human consumption, hash been held by some experts to be harmful and by others to be harmless, J. Q. Emery, of Madison, Wis., president of the association in his annual address reviewed the efforts made at Washington to have the federal government frown upon the use of the preservative.

After experienced chemists had shown that benzoate of soda as used in many of the common food products was harmful, he said the referee board, headed by Dr. Ira Remsen, of Baltimore, Md., conducted a series of experiments with the result that the federal government was informed that the preservative was not harmful. "This board conducted experiments upon a limited number of healthy young men with what they called small doses of benzoate of soda added to foods for two months and with what they called large doses for one month," said President Emery. "We realized that if the finding of this board was accepted by the government a crisis had been reached in our efforts to purify food. We pointed out the following objections to benzoate of soda: That it is harmful, that physicians usually banish it from their homes; that it is unnecessary, since foods properly prepared do not need chemical preservatives; that it permits the use of unfit materials in food; that it encourages unsanitary practices and encourages substitution for refrigeration and sterilization; that its use sends out through the dairymen, butcher, soda dispenser and grocer a drug which is harmful to the public health.

"In view of this position we appealed to President Roosevelt to appoint another commission to investigate the findings of the Remsen board. This request was referred by President Roosevelt to Secretary Wilson, who reported back to the president against granting that request.

"However, we hope at this convention to have Dr. Remsen and three other members of his board express their views on the subject and give their reasons."

Mr. Emery then enumerated some adulterations which he said were common under lax laws. Among these glucose made to look like honey; jelly made out of apple cores and skins; sausage made from unfit meat artificially colored; artificial eggs; coffee beans made of rye paste. To abolish these impurities the speaker said, the state should take the initiative and favored the Ladd "model" state law as preferable to the federal inter-state commerce pure food laws.

NOVEL MASSAGE CREAM.

Perfect Skin Food That Removes Wrinkles and Clears Complexion.

The most delicate skin will quickly respond to the soothing and tonic effects of Hokara, and when this pure skin food is used, pimples are soon a thing of the past.

As a massage cream or after shaving it is unequaled, removing all irritations, and making the skin soft and velvety.

Apply a little to the hands or face after washing and surprise yourself with the dead skin that comes off.

Hokara is the only massage cream that is an antiseptic, and pimples, eczema and all skin blemishes soon disappear when it is used. Although far superior to the ordinary massage creams, and sold on a guarntee of "best you ever used or money back," yet the price is a trifle, only 25c for a liberal jar.

MISS HARDING CHOSEN.

Will Succeed Miss Fournier as Kindergarten Tetcher.

The school board Monday evening selected Miss Edith Harding as a kindergarten teacher in the city schools, succeeding Miss Fournier, who resigned some time ago.

The board also confirmed the selection of Miss Bessie Herrington and L. A. Strobel as teachers in the high school, and Miss Helen Mannix as teacher in the normal school. Mr. Strobel is a brother-in-law of Rev. E. A. Kielsmeier, of Salem Reformed church.

SEARS HAS NO RECORD.

If Lad Stays Out of Town He Will Not Be Molested.

Sheriff Reichelderfer returned last night from Indianapolis, where he placed a lad in the Plainfield school and he said that Edward Sears has no record in the institution. He added that although he is sure that the youngster went directly to Chicago after his escape from the jail here, he will make no particular effort to apprehend him so long as he stays out of Fort Wayne.

DR. HARDMAN, Specialist

SPECIAL OFFER UNTIL SEPTEMBER 1st

CURES AT YOUR OWN PRICE—Every person who calls on me before September 1st will not only receive a careful and thorough examination FREE OF CHARGE, but absolutely no fee will be charged during that time other than you yourself are willing to pay.

This is of special importance to every person who realizes the value of original methods. What I have claimed in reference to the influence of any Pelvic or rectal Disease on the Sympathetic Nervous System and all reflex conditions, is not only now the accepted theory of the leading scientists, but other institutions are copying my advertising and presenting my theories word for word. In order that everyone may understand that I am the originator of these special methods, and that he is receiving the personal attention of the specialist who perfected these methods it is only necessary to refer back to the old files of your papers.

No man can afford to undertake his daily work without being fully equipped mentally and physically.

I know that success and happiness depend on body and brain vitality. The lack of force is always due to functional decline, to a diseased condition of one or more of the organs of the body, or to a devitalized nervous system. The man who is not right physically and mentally and neglects himself, not only limits his future prospects, but is using up the physical capital he has already possessed.

OTHERS TREAT, BUT I CURE

Every man who does less than he should do at his desk, in the shop or on the farm, is weak in some way. I have found that the man who cannot accomplish all he expects or hopes for is often the silent sufferer from some hidden disease that affects one or more of the important nerve centers of the body.

These neglected or unknown conditions are usually diseases of the pelvic organs, which reflexly act on the organs of digestion, of elimination and the nervous system, which in turn has its influence on the brain. I have made a special study of the nervous system and have perfected methods that will CURE Pelvic Diseases. I will give you a searching and thorough examination and explain to you the true nature of your trouble.

EXAMINATION—My facilities for examination are unexcelled. I learn the exact condition of the rectum, the bladder and every organ of the genito-urinary system. This in itself is of the highest importance, inasmuch as a broken down nervous system and many or most of the troubles of the stomach, liver and kidneys, etc., are reflex, and are the direct results of some pelvic lesion or disease.

NERVOUS BREAKDOWN and nearly all nervous diseases are the direct results of chronic or imperfectly treated Pelvic Diseases such as Varicocele, Piles, Fistula, Stricture, etc. I not only remove the cause, but my many years of experience in the treatment of nervous and pelvic diseases enables me by my special methods to revitalize the entire nervous system and to restore to perfect health, nearly all sufferers from nervous breakdown and vital weakness.

BLOOD POISON—I use only the most advanced methods in the treatment of blood poison and kindred diseases.

PROSTATIC ENLARGEMENT—This may result from a number of causes. The constant jarring and vibration of trains and trolley cars are a very potent cause. Bicycle riding and the use of riding implements on the farm are factors in producing this disease. In fact, the causes are so many and varied that fully 75 per cent of all adults are afflicted to a greater or less extent by this disease. The disease is so little understood, and as one of the principal symptoms is a pain in the back, it is usually called kidney trouble and treated with local applications or sedatives which can do no possible good whatever. I reduce the enlargement and have been able to cure about 90 per cent of all cases.

VARICOCELE—I cure Varicocele in a few days' or weeks' time without the use of the knife.

STRICTURE—I readily remove stricture by my dissolvent method without the use of instruments.

RUPTURE, PILES, FISTULA, ETC., cured without detention from business and without the use of the knife.

If you live out of town wire or write us on what train you will arrive and we will arrange our engagements so that we can see you at once.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., Aug. 24.—Little animation was manifested in the wheat market during early trading today and sentiment in the pit was bearish. A number of local commission houses were moderate sellers, owing to the weakness of foreign markets, including Liverpool which was off ⅝d to 1¼d. An impending heavy movement of new wheat in the northwest also had a depressing effect. The market opened weak, with prices ⅛@¼c to ½c lower, September being at 97⅝c to 97¾c, and December at 94c to 94⅛c. After selling off to 97¼c, September rallied again to 98c. December sold within 94c and 94¼@94⅜c.

The wheat market was choppy the greater part of the day, although sentiment continued to be bearish. The low point for September was reached at 97c and for December at 93½c. The close was higher with September down ⅛@⅜c at 97⅝@97¾c. December was ⅛@¼c lower at 94¼@94⅜c.

Continued dry weather generally throughout the corn belt caused a sharp rally in corn prices during the early part of the day. The market opened steady with prices ⅛c higher to ¼c lower, September being at 65¾c to 65⅞c, and December at 55⅝c to 55⅞c. Within a few minutes September had advanced to 66⅝c and December to 56⅛c.

The corn market continued strong the remainder of the day, the high point for September being 66¾c. The close was strong, with September up ⅝@¾c at 66⅛@66⅜c.

receipts today were 7,154 boxes; state full 1,750 head; sheep, 1,100 head.

Oats rallied with corn, despite liberal receipts, which caused some selling at the start. September opened ⅛c lower to ¼c higher at 36⅜c to 36⅝c and sold up to 36¾@36⅞c.

Trade in provisions was dull, the bulk of early trading being in lard. The tone of the market was firm, owing to 5@10c advance in live hogs. Prices at the opening were unchanged to 5@7½c higher.

The Close.

Prices at the close were as follows:

Wheat—September, 97⅝@97¾c; December, 94⅛@94¼c; May, 98¼c.

Corn — September, 66½c; December, 56¾c.

Oats—September, 36¾@36⅞c; December, 36⅜c; May, 39¾c.

Rye—Cash, 68@71c; September, 66c.

Barley—Cash, 50@66c.

Timothy—September, $3.60.

Clover—Cash, $11.30; March, $12.25.

Pork—September $22.40; October $21.05; January, $17.65.

Lard — September, $12.12½; October, $12.10; November, $11.67½; January, $10.25@10.37½.

Ribs — September, $11.77½; October, $11.50@11.52½; January, $9.27½.

Car Lot Receipts.

Wheat—Receipts today were 147 cars, with 46 of contract grade.

Corn—Receipts today were 386 cars, with 239 of contract grade.

Oats—Receipts today were 639 cars.

Total receipts of wheat at Chicago, Minneapolis and Duluth today were 332 cars, compared with 356 cars last week and 444 cars the corresponding day a year ago.

Toledo Grain Prices.

Toledo, O., Aug. 24.—Opening prices: Wheat—Cash, $1.07; September, $1.08; December, $1.06¾.

Corn — September, 60⅞c; December, 56¾c; May, 58⅜c.

New York Grain and Provisions.

New York, Aug. 24.—Flour—Receipts today were 41,573 bbls; sales, 3,000 bbls. Market quiet and easy. Minnesota patents, $5.75@6.20; Minnesota bakers', $5.15@5.50.

Wheat—Receipts today were 27,000 bu. Splendid northwest weather and weak cables enabled bears to continue their aggressive tactics in wheat today and forenoon prices lost ½@⅝c a bushel, being checked only by the corn strength. September, $1.06⅞@1.07; December, $1.02⅛@1.02½; May, $1.02⅞@1.04 5-16.

Rye—Market dull; No. 2 western, 76c, nominal, f. o. b. New York.

Corn—Receipts today were 1,125 bu.

Beef—Market steady.

Pork—Market firm.

Lard—Market firm; western, $12.25@12.35.

Sugar—Raw, market firm; fair refining, $3.64; centrifugal, 96 test, $4.14; molasses sugar, $3.39; refined sugar, market steady; crushed, $5.75; powdered, $5.15; granulated, $5.05.

Petroleum—Market steady; refined, all ports, $8.20@8.25.

Coffee—Market quiet; No. 7 Rio, 7¼@7½c; No. 4 Santos, 8½@9c.

Molasses—Market quiet; New Orleans, 28@42c.

Indianapolis Grain Prices.

Indianapolis, Ind., Aug. 24.—Cash bids: Wheat—Market steady; No. 2, $1.00; No. 3, 94c; August, September and October, 99c.

Corn—Market stronger; white, Nos. 2 and 3, 72c; No. 4, 71½c; yellow Nos. 2 and 3, 69½c; No. 4, 68½c; mixed Nos. 2 and 3, 68½c; No. 4, 67½c.

Oats—Market weak; white No. 2 and standard, 36c; No. 3, 36c; No. 4, 34c; mixed Nos. 2 and 3, 34¼c; No. 4, 32½c.

Hay—Market steady; timothy, choice, $13.75; No. 2, $12.50; clover No. 1 light mixed, $12.50.

Rye—No. 2, 72½c.

Chicago Cash Grain.

Chicago, Ill., Aug. 24.—Cash prices: Wheat—No. 2 red, $1.03@1.05; No. 3 red, 94@1.02; No. 2 hard, 99½@1.04; No. 3 hard, 95@1.01; No. 2 northern, 98@1.01; No. 3 spring, 94@1.00.

Corn—No. 2, 69@71c; No. 2 white, 70½@71c; No. 2 yellow, 72¼@72½c; No. 3, 69@69½c; No. 3 white, 70@70½c; No. 3 yellow, 72¼@72½c; No. 4, 67@70½c.

Oats—No. 2 white, 38¼c; No. 3 white, 36@37¼c; No. 4 white, 35¼@37¼c; standard, 37@38½c.

LIVE STOCK.

East Buffalo Market.

East Buffalo, N. Y., Aug. 24.—Hogs—Receipts today were 1,820 head; shipments today were 760 head, all to New York; official shipments to New York yesterday were 342 head; the market closed strong for good and slow for common; a few common unsold; mediums and heavies, $8.50@8.60; yorkers, $8.40@8.50; light yorkers and pigs, $8.25; roughs, $7.00@7.25; stags, $6.00@6.50.

Cattle—Receipts today were 125 head; market steady.

OIL

Toledo Market.

Toledo, O., Aug. 24.—North Lima, 94c; South Lima and Indiana, 87c.

STOCK AND BONDS.

The Day on Wall Street.

New York, Aug. 24.—Overnight changes in the stock market were unusually narrow. Atchison was off a point on reports of unfavorable crop conditions, but Canadian Pacific moved up 1½ points. There were ten thousand shares of Union Pacific traded in from 209¾ to 210¼, against 210, yesterday's close. The price soon ran off to 209.

Speculation became very weak in tone soon after the opening dealings and there were a number of material recessions. Union Pacific sold 1½ below yesterday's final figures, Southern Pacific 1¼, St. Paul and New York Central 1. Pittsburg Coal dropped 2⅝ and the preferred 1. The sudden drop in prices was without definite explanation. Later on the market began to gather strength slowly with the upward movement helped by confident buying of the Gould stocks. Prices got back to the neighborhood of yesterday's closing in most cases.

Dealings contracted and the fluctuations became very narrow. Prices reacted slightly, but the list was moving up again at noon. Speculation as to Mr. Harriman's physical condition continued to furnish the principal market influence. There was a belated rise of a point in Missouri Pacific and American Beet Sugar got up 2 points. American Locomotive was offered rather freely and lost 1¾ and Northwestern sagged 1⅝. Bonds were steady.

A brief downward flurry in the Harriman stocks sent them and New York Central downward to lower prices than in the morning, but the general market was not affected to any extent. Large buying orders appeared later in Union Pacific and United States Steel, and the market began to rise. Union Pacific touched 210¼, which was the highest point of the day, and about 2½ above its low level. Top prices were also privileged for a number of other leaders. United States Steel crossed 78 and was about a point above yesterday's final figures. Consolidated Gas was heavily bought and rose 2¼ points.

Business was quiet during the middle of the day, but prices kept rising in spots under the influence of a further gain in Union Pacific, which held at 210⅞. Fluctuations in the main were quite narrow. There was some signs of animation to the Erie stocks, which moved up 1 to 1¼. Interborough Metropolitan preferred and National Lead also gained as much as ⅞ point.

The market closed quiet and strong. Large operators did little pending the landing of Mr. Harriman, and the market was kept with comparatively narrow limits. Union Pacific met realizing sales around 211 and fell back a point without creating much interest in the rest of the list. Some of the minor stocks were conspicuously strong. American Agricultural Chemical gaining 3. Western Union and Bethlehem Steel preferred 2. and Chicago & Alton 1½. Lackawanna fell 10 points.

NEW YORK STOCK MARKET.

LOCAL MARKET EPITOME.

With demands strong for chickens and butter, the local market today showed up more potatoes than anything else. No changes are recorded in the prices as there is not enough doing.

A light market is looked for tomorrow. The retail market today was good for the first of the week.

Wheat has dropped back to $1.03 per bushel and other grains may become similarly affected.

FORT WAYNE MARKETS.

The prevailing prices on Fort Wayne markets today were as follows:

Barr Street—Wholesale.

Wheat—$1.03 bu.
Corn—66@67c.
Oats—35c bu.
Barley—50c bu.
Rye—60c bu.
Butter—Creamery, 28c lb; process, 24c lb; prints, 30c lb; dairies, 22@24c lb.
Eggs—Fresh gathered extras, 20c doz; fresh gathered extra firsts, 19c; fresh gathered firsts, 18c; No. 1 dirties, 17c.
Onions—50c bu.
Apples—$1.00@1.10 bu.
Tomatoes—40@60c bu.
Cabbage—25@40c doz.
Honey—12@13c lb.
Turkeys—10@12c lb.
Chickens—10@12c lb; spring chickens, 14@17c lb.
Ducks—7@9c lb.
Geese—7c lb.

The Rurode DRY GOODS CO.

Early Showing Fall Styles

There are enough of the new ideas here to show the tendency of fashion for the autumn season. A correct forecast of "what to wear" in suits, coats, hats, dress goods, silks, etc., can be seen here. If you would keep in touch with the fashionable fancies of the season visit this store early and often.

The New Models

In suits show one, two and three-piece styles. The long coat effects are most popular in serges, homespuns, herringbone, tweeds, diagonals and broadcloths. Excellent models are among the early arrivals, priced from $30 to $50. Additions to our stock are coming in daily.

You Can Buy

Many lines of goods to great advantage right now. We cannot promise later in the season the values we offer now in linens, hosiery, dress goods and domestics, for prices are advancing every day. It is our intention to keep prices down as long as it is possible. When we have to pay more we will have to ask more.

So Be Wise and Buy Early.

CITY BREVITIES.

Harry Dawson is the new chief engineer at the anthony hotel power plant.

Royce H. Crosby, of Menominee, Mich., is visiting with his mother, Mrs. Sophia Crosby.

R. F. Keenan, of Deltz, Wyo., extensively interested in cattle and mining there, is the guest of his brother, H. H. Keenan, of the Anthony hotel.

Anthony Wayne lodge No. 42, Modern Americans, will initiate a class of candidates Wednesday evening, with supreme officers of the fraternity in attendance.

It is said that members of the Fort Wayne lodge of Elks have ni contemplation the purchase of the Corner Rod and Gun club grounds along the St. Joe river north of the city.

Miss Louise Dunbar, leading lady of Our Own Stock company, has arrived in the city from her summer vacation, ready to take up her work at the Majestic for the season.

Severe burns about the head and shoulders were sustained by J. A. Runner, 24 Clinton street, Monday afternoon as the result of the explosion of a gasoline stove in the kitchen of the Runner residence. The stove was thrown out into the yard before any serious damage resulted to the building.

But nine more days remain of the term of enlistment in the United States marine crops of Sergeant Ernest Chapman, who has been at the head of the local recruiting station for the past year. Mr. Chapman will stay here several days after his term to close up some business matters and after spending a week at Lake George, will go to his home in Huntington, W. Va.

CURED HAY FEVER AND SUMMER COLD.

A. S. Nusbaum, Baltesville, Ind., writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicine which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Dreier Bros.

Go down to the basement and see the new patty moulds. They make the delicately crisp cups for serving peas, creamed chicken, croquettes, etc. Put up two shapes in a box at 39c.

SWEDISH ROSETTE IRONS, 3 styles in a box, 50c.

SWEDISH CAKE MOULDS, in shape of heart, club, spade and diamond. Set of four, 75c.

HAVE YOU USE FOR REMNANTS?

Most Everybody Has

Short lengths and short pieces—a combination to appeal to the economical woman. This is the last week of the basement sale—so if you would profit by it come before Saturday night. Sale closes Saturday.

TO REMOVE VACATION TAN AND FRECKLES

Part of the fun of an outing is acquiring a tawny coat of tan—but it takes about twice as long to get rid of the rich coloring as it took the wind and sun to apply it.

For returned vacationists who are as "brown as a berry," and women who enjoyed going hatless this summer, there is everything at your command to restore your complexions to normal—or better—at our Toilet Goods Department. Let us suggest just a few cooling, soothing skin luxuries to you.

Burnham's Freckle Lotion.....$1.00
Burnham's Skin Bleach.....$1.00
Burnham's Cucumber Cream..... 50c
Hind's Honey and Almond..... 45c

LORENZ'S DERMATINE OF ROSES—Something new, and a most delightful preparation for the skin.

REVIVA MASSAGE CREAM—The perfection of toilet creams and massage preparations, unequaled as a complexion beautifier and skin food. FIFTY CENTS A BOX.

ORRIS SHAMPOO—A powder which renders the hair soft and fluffy in hot weather. Absorbs all the oil and moisture and keeps the hair dry. May be used as often as desired, as it is easily shaken out of the hair after applying. TWENTY-FIVE CENTS.

Reduction in Prices on Tungsten Lamps

GOES TO PRILIPPINES.

Dr. Lawrence Younge to Become Lieutenant in Constabulary.

Dr. Lawrence Younge, formerly of Fort Wayne, will leave in a few days for the Philippine Islands, having received an appointment in the United States army quartered there. He will serve as third lieutenant in the Philippine constabulary. His duties will bring him in contact with the natives who have been mustered as guards. His brother, Jewell, received a similar appointment about three months ago and is now with the army. The young men are sons of the late Dr. J. W. Younge, of this city, and have lived at Huntington with their mother in recent years.

If You Want to Make Your Farm Pay

or if you want to sell your farm, then double your crops by using Bash's Fertilizer. Everybody wants to buy a big cropper. Remember you get 600 pounds pure Humus free of charge in every ton. 600 pounds of Humus equals the product of 8 tons of green clover or rye turned under for soiling. You don't need a fertilizer drill, any grain drill will do the work. Call and see us.

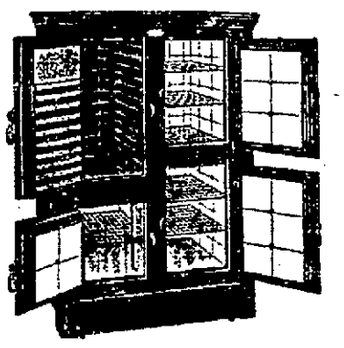
If its a good thing Seavey's have it



A WALK OVER

The McCray Refrigerator has no real competitors, but many imitators. It is leader in style and finish, and first-class in every particular. Is packed with mineral wool and constructed in the best possible manner. It will show by actual test the lowest average temperature with the least consumption of ice. This refrigerator can be kept perfectly pure and clean by the use of the removable ice chamber and waste pipe. Absolutely "vermin proof."

We give a special discount next week on all Refrigerators and Gasoline Stoves sold. Take advantage of this.
